fermination of the Litigation Brought by the Tariff Association of This City is Sought--Motion by Complainant and Order by Judge Purnell.

As foreshadowed in the special telegram to the STAR from Raleigh Friday night, Col. Harry Skinner, United States District Attorney, arrived in the city yesterday and filed in the United States Court here a bill in equity to enforce the recent decision of the Interstate Commerce Commission in the suit of the Wilmington Tariff Association against the Cincinnati, Portsmouth & Virginia Railroad Company et al., it having been decided at that time that there was unjust discrimination in freight rates from the West to Wilmington in favor of Norfolk and other Virginia points, which are competitors with Wilmington for the

It will be remembered that the Interstate Commerce Commission had a sitother cases, found itself powerless to enforce their order and they now invoke the power of the Federal Court.

District Attorney Skinner is acting in the matter in conjunction with Mr. L. A. Shoolar, general counsel for the Interstate Commission.

The complaint in the suit now brought by the Commission to enforce its order, is a voluminous document of about 100 printed pages and after enumerating the numerous railways and declaring them subject to the provisions of the Commis and entitled "An act to regulate commerce," recites the hearing in Wilmington, April 20th and 21st, 1899, and in Washington, D. C., May 22-25, and its decision in favor of the Wilmington Association on December 17th, 1902. It is stated that May 7tb, 1902, the Commission formulated an order in conformity to its conclusions in the case and served the same upon the railroads; that the railroads have wholly disregarded and set at naught the order and have wilfully and knowingly violated and disobeyed the same, and still do neglect and refuse to comply with the order or any

part thereof. The Commission upon these allegations asks that a subposna issue to show cause why the order has been disregarded as stated. (2) That an order be granted directing the method of service of notice of the pendency of the proceeding. (3) That such order may be passed pending the cause as will secure a speedy hearing and determination of the matters. (4) That such order may be passed pending the cause as may be necessary for the prosecution of all such inquiries as may be necessary to enable the court to form a just judgment in the matters and things stated and charged in the complaint. (5). That upon final hearing a decree may be entered granting to complainant a writ of injunction or other proper process, mandatory or otherwise, to restrain the defendants from further continuing in their disregard of the order of the Commission. (6.) That a decree may be entered requiring the defendants to pay such sum of money not exceeding \$500 for every day after a day to be named in such decree that they shall fail to obey said process. (7.) That the defendants be required to pay cost and reasonable counsel fees in this litigation and (8)

Thos. R. PURNELL,

United States Judge. The suit promises to be an interesting one as prescribing the exact powers of the Commission and will likely be taken to the highest tribunal in the land before its final termination. Eminent counsel appear on both sides and it is virtually a battle royal between the Interstate Commerce Commission of the United States and the leading railway systems of the South and West. The roads against whom the

bill is brought are as follows:

The Cincinnati. Portsmouth & Virginia R. R. Co.; The Pittsburg, Cincinnati, Chicago and St. Louis Rwy. McKoy hastened not been heard of since. Police Capt. Williams, Sergeant Burnett and Officer ReVeille made a diligent search for the negro on the same night, but

A lively fisticuff occurred about 5 o'clock yesterday afternoon on Second near Market street. A young man named McEntee, who formerly lived here, and Mr. D. D. This seemed to enrage Mr. McEntee, who assaulted his former acquaintance in a violent manner. Constable Sheehan saw the disturbance, ran to the corner and placed them both under arrest. Mr. Cameron was recognized for his appearance at 12 o'clock Monday and the aggressor was sent to jail, but later gave bond. Mr. Cameron is at a loss to know why the young man assaulted

Burglars Visited Home of Mr. Furney J. Gooding, North Fourth Street, Early Yesterday Morning.

Burglars visited the residence of Mr. Furney J. Gooding, No. 511 North Fourth street, before day yesterday morning and stole from Mr. Gooding's trousers in a room where he slept a roll of bills which amounted to about \$130. The trousers were found yesterday morning in Mr. H. C. Twining's yard, next door, after the pockets had sen rifled. A diamond ring belonging to Mrs. Gooding and a watch were on a chair in the same room, but were undisturbed. The burglary occurred before a very heavy rain storm which came on about 3:45 A. PLEA FOR STREET REPAIRS.

Citizen of Wilmington Advances Logical Argument Why Something Should Be Done at Once.

The STAR was last night handed the ollowing communication from a citien, which appears to be timely: To the Editor of the Star:

Born and bred in Wilmington, I take pride in her past history and interest in her present welfare, and have derived much pleasure from her steady growth during the last few years.

There is one matter the spirit of proress seems to pass over almost enprovement. Streets are paved or macadamized with material that elsewhere affords a lasting thoroughfare. Ours do not: they go to pieces for lack of a few systematic repairs. Recently many stretches of limestone macadam have been nut down and have proved excellent for a time. A while since a resolution was offered the city government recommending the immediate repair of certain streets. The limestone had undergone two years' wear and tear. Probably the forwarders of this resolution saw the real trouble. It

seems to elude the officials. Let us disregard the removal of paper and the prevention of reckless garbage dumping anywhere careless servants see fit and turn to the construction and repair as carried on. The imestone is laid and soon hardens. giving a perfect road for about six months. Then a dry spell comes and the fine upper dust blows away, leaving bare the rough under layers. This for want of sprinkling. In Winter the road bed where one load of stone would easily stop an incipient puddle. The blue limestone on Market street is slowly going to ruin for want of a top covering to preserve it. At lower end of the block be tween Ninth and Tenth, shoals of sand eat away the top dressing and leave bare the coarse bed. On the north side of the block, between Fourth and Fifth, there is demand for immediate repair in the shape of a eovering for a large rock as a foundation for the roadway. The adage that a stitch in time saves nine may b quite threadbare, but it is nevertheless true, and however much it has been have been told by Swinson himself used, is in better repair than the

And so it goes. The powers that were and the powers that be trust to the grace of God for preservation from the mud holes in Winter and washouts in Summer. Such trust in the Supreme Being is, no doubt, admirable, but reasonable economy and modicum of public pride would achieve much more when it comes to good streets.
