Prof. Charles Dushau Will Arrive Monday Long Cherished Dream of Wilmingtonians Realized in the Initial Trip Yesterday.

THE SCHEDULE FOR TO-DAY.

Pirst Installment of Electric Equipments Put to Satisfactory Test-Complimentary Trip to Hotel Quests and Priends by Officials.

Suburban Car No. 33, the first in readiness for operation on the Seacoast tracks by the Consolidated Railways, Light and Power Company, made its initial trip to Wrightsville beach last night, leaving the city at 7:30 o'clock. Aboard the car for the special trip were several of the officials of the company and a number of employes and friends, including several ladies. The trip was without a jar or an unavorable incident of any kind and members of the party enjoyed a most

The young men were strengthened physically by the cours is and received great benefits af a great system, acted as motorman The pictures of the classes that were and drove the car with as much ease and comfort to the travellers as if he were a veteran at the controller. While no effort was made to attain great speed, the trip was made to the beach the junction, at Front and Princess, with a merry party of Seashore Hotel guests and residents on the beach, who came up for a complimentary ride - Rice birds sold yesterday at about the city and return to Wrightsfrom 40 to 50 cents per dozen. Mr. Skelding says on one stretch of track by Delgado, the car was let out to a velocity of 40 miles an hour and it handled itself as south of his present location and now occupied by Messrs. O. P. ished by the people of the city.

The car left for the final trip to the beach for the night at 11 o'clock and returned shortly after midnight this morning. The beach "trolley" created no end of interest enthusiasm and admiration as the first one came rolling down the Princess street "pike" at 6 o'clock vesterday evening. At the junction the sharp curve to the Front street line was turned with no great trouble and during a short pause there, a sight of the new car was enough to draw an immense crowd. It reminded one of circus parade times and the comment of the crowd was varied, ineresting and sometimes amusing. However, all were pleased and will stake their coin for a ride upon the least provocation. The cars are painted and trimmed very much like the smaller care of the street railway system; fitted with double trucks and the best dynamos of the Westinghouse Co. Seats are provided for 48 persons on each side of an aisle extending through the car. These are reversible and very comfortable. The fronts of the car are vestibuled and present handsome appearance; the brakes and controllers of the most approved invention. Twenty incandescents light the cars brilliantly and the open cars are provided with rolling shades

or curtains. Car No. 31 is now being unloaded at Tenth and Orange and will doubtless be ready for service this afternoon. As stated yesterday the other

pars will be here next week. For the first time to-day the public will have an opportunity of patroniz ing the new line. The Saturday train from the city to the beach at 1 o'clock this afternoon has been cancelled, and in its stead Car No. 33 will leave the Front and Princess junction at the same hour. The same car will return, leaving the beach at 2 P. M. To-night instead of a train leaving at 11 P. M., a car will leave Front and Princess streets at the same hour and return, leaving the beach at midnight. Early in the evening two cars will

leave the junction at 6:80 and 7 P. M., and both will return at 7:45 P. M. General Manager Skelding said last night he was unprepared to announce a schedule for Sunday, but if all went well, the steam equipment will go off altogether and the electric cars will be used exclusively.

FERTILIZER COMPANY ANSWERS COMPLAINT.

Libel Proceedings in the U. S. Court in Matter of Schooner Jos. W. Brooks. Other Shipping Notes.

The Armour Fertilizer Works, through its attorneys, Messrs. Bellamy & Peschau, yesterday answered the complaint in the libel proceedings brought by Capt. N. A. Davidson against the cargo of the schooner Jos. W. Brooks in the United States Court. The Fertilizer Works admits the contract as alleged in the complaint with the explanation that the tons of guano to be freighted were 1,000 of 2,340 pounds each, known as long tons, but that the delivery at Wilmington was to be at the rate of 150 tons per day in short tons of 2,000 pounds. Further answering the complaint the claimant denies that the libellant commenced to discharge the cargo Thursday morning as alleged, but that the discharge began on the afternoon of that day, although the claimant was ready in the morning to receive the same; that the four days thereafter the claimant requested the libellant to give him the cargo faster derstands every detail of the electric than it was being delivered and the railway business from bonding a line said libellant failed to do the same for of track to the financial management reasons unknown to the claimant, who was thereby put to a great disadvantage and delay. The claimant further denies that 81/4 days was consumed in the discharge, but avers that eight days only was consumed even under the adverse conditions, and the claimin about 40 minutes and in perhaps less ant further says that if the libellant than that time "No. 33" was again at | had delivered to it for the first four days the cargo as rapidly as the claimant was willing to receive it, the cargo could easily have been discharged in six days and that the same was not discharged in that time was not the fault of the claimant but of the libellan'. It is further alleged that at the time the demand was made for freight the agent of the claimant telegraphed smoothly and gracefully, almost as a to the Armour Fertilizer Works to Puliman. Those who were gues s of send the freight money and that a were highly clated and vied with one libeliant at Savanuab, Ga., whither another in enthusiastic expression at he sailed. F. Huggins, under orders of Chief Furlong, who had received advices from Rocky Mount, N. C., to arrest the negro for larceny. A cuff left in the house after he fled through a window was used as a means of identification. Smith formerly drove a dray for the J. C. Stevenson Co., but was discharged some time ago.

Charged with the larceny of a roll of greenbacks containing \$285 from a Brooklyn shopkeeper, Emeline Brown, mitted to jail yesterday for preliminary trial in Justice Fowler's court to-day at 11 A. Columbia, S. C., correspondence, New and Courier: "A young and well dressed man named Bernhart was brought here to-day from Wilmington, N. C., being wanted here on the charge of larceny. He is accused of stealing a value full of clothing from Baggage Master Black while at a boarding house. He was placed in iail.
