NEW YORK COTTON EXCHANGE

Considerable Excitement Among the Bears Who Sold Short on Government Estimates--Advance in May Option.

By Telegraph to the Morning Star. NEW YORK, April 2. - The iprice of May cotton on the Cotton Exchange was forced up fourteen points to-day and considerable excitement followed among the bears, who sold short yesterday on the government estimate. May rose from 9.73 to 9.87 before there was a break, and then eased off, but rose again to 9.86.

The advance followed an official

statement from Washington to the effect that yesterday's report included all cotton ginned from the growth of 1902 and also ginners' estimates of the quantity remaining to be ginned from the growth of 1902. Many had taken it for granted that yesterday's government report included no cotton of last year's growth ginned before September 1st, the beginning of the cotton statistical year. As about 200,000 bales of last year's crop had been ginned before September, according to popular estimates, the report which yesterday was regarded as bearish became a bullish factor and a vigorous demand from all classes of buyers set in. May shorts were particularly anxious to cover and it was not long before the market showed an advance of 16 to 20 points from the lowest point

THE MISSISSIPPI FLOOD.

Conditions Improving-Nearly Every Embankment in Louislana is Holding.

By Telegraph to the Morning Star NEW ORLEANS, April 2 .- With the successful joining of the ends of the crib work leading from either side of the broken Hymelia levee, an achievement which was accomplished early this morning, the critical stage is considered to have been passed in the attempt to close the crevasse, now seven hundred feet in width. Only the most unexpected misfortune, resulting in the carrying away of the cribbing, can prevent the success of the undertak-

Generally the river conditions are considered to be improved in Louisiana. The intervention of good weather has contributed largely to the strengthening of the leves system. Every embankment in the State above New Orleans is holding, except those at Bougere and Angola, where the damage done is local, and it is fell that the maximum flood is at least in sight. The river here remained stationary at 20.1 to day.

ROOSEVELT ON HIS WESTERN TOUR

Addressed an Audience of Six Thousand People in Chicago Last Night.

DEGREE OF L. L. D. CONFERRED

By the Paculty and Trustees of the University of Chicago-Laid the Corner Stone of the Law School Building of the University.

By Telegraph to the Morning Star.

CHICAGO, April 2 .- Six thousand people in a hall the seating capacity of which is but five thousand, gave enthusiastic greeting to President Roosevelt when he stepped upon the stage of the auditorium to-night. The great building has held many a throng, but never one that was more hearty and unstinted in its applause for any man than the crowd that filled it to-night. From the first floor to the roof it was packed to its utmost capacity. Every seat was occupied, and although the aisles were kept clear, all the space in the lobbies and on the stairways was filled and even the passage ways leading to the hall from the lower floor were jammed with hundreds of men who were utterly unable to hear a word of the President's address. When the President, escorted by

the members of the local committee, appeared on the platform, he was met with great enthusiasm, the vast crowd rising to its feet and supplementing its hearty cheers with waving programmes and fluttering handkerchiefs. The President acknowledged his reception with repeated bows and at once took his seat between Franklin MacVeagh, the chairman of the committee, and Mayor Harrison, who was to deliver the formal address of wel-

As soon as his voice could be heard, Mr. MacVeagh in a few words an-nounced that the nation's chief executive would be made welcome to the city by Mayor Harrison, who then spoke briefly, extending to the President a hearty welcome and expressing the pleasure felt by the people of Chicago by his visit, and offering him their best wishes for a happy and pleasant trip during his two months

The President bowed his thanks to Mayor Harrison and to Mr. MacVeagh, who introduced him to his audience, and expressed his pleasure at the cordial reception extended to him upon the first stop of his long trip, and then turning directly to the audience in front of him, proceeded in his peculiarly energetic manner to deliver his address. The address throughout was received in a most cordial manner. Degree of LL, D, Conferred.

sident Roosevelt's sixty-six day tour of the West began in earnest here to day when he stepped from the Pennsylvania special at 8:45 o'clock and was received by Mayor Harrison and a special reception committee, not to mention a huge crowd which made its unofficial presence known by cheers which could be heard across the river. As soon as the cars could be switched the Presidential party started for Evanston, where the President adiressed the students of Northwestern University on the value of a college education. The party returned to the auditorium for luncheon. After luncheon the Presidential party went to the University of Chicago in carriages. At the quadrangle approach to the university grounds the Presidential party was met by faculty and trustees, in caps gowns, led by President Harper. The President was escorted to Kent Theatre, where President Har-per conferred the degree of LL. D. diploma, and directed that the "doctorshood" be placed upon his shoulders. The President spoke no words, but bowed in acknowledgment of the honor conferred. As the procession emerged from the theatre, the University band played national airs and deafening college yells greeted the President. At the head of a procession in which the young women of the colleges participated, the President made his way to the site of the new law school building where preparations had been made for him to lay the corner-stone. An immense stone, weighing seven tons, was ready to be lowered in place. President Roosevelt

Three Million Acres Transferred by the U. S. Government to the State.

By Telegraph to the Morning Star. WASHINGTON, April 2.-Commissioner Richards, of the General Land Office, to-day took practically the final steps in the settlement of the long drawn out contention between the United States and the State of Florida over the ownership of lands included in that portion of the State of Florida known as the Everglades. This action consisted in certifying the lists of the lands of the State authorities. The lands all lie south of Lake Okeechobee. The certification made to-day covers not only the entire area of the Everglades, but also the lands included in Mangrove swamp, which lie still beyond the Everglade region. The entire list includes about three million acres, all of which goes to the State in fee simple and will be at its disposal. The lands are all within the rostless belt, and it is believed that with drainage they will soon become very valuable for fruit growing pur-

SAN DOMINGO'S REVOLUTION.

Marines Landed to Protect the U. S. Consulate-Situation Very Critical-A Battle Near the City.

By Cable to the Morning Star. CAPE HAYTIEN, HAYTI, April 2 .-The situation in San Domingo city is very critical. The commander of the United States cruiser Atlanta, which has arrived at SaniDomingo, from this port yesterday, landed a detachment of fifty blue jackets to guard the United States consulate in that city.

A shell fired last night by the Dominican cruiser Presidente, which is on the side of President Vasquez, fell on the German consulate. The damage done, however, was purely immaterial, as the projectile happily did not burst.

A battle lasting three hours took place yesterday morning between the government troops and the revolutionists on the banks of the river Ozams, which flows into the Carib-head sea at San Domingo. A hundred

men were killed or wounded.

President Vasquez demands the surrender of San Domingo city, but the revolutionists are disposed to resist up to the last moment.

WASHINGTON, April 2.—The land ing of blue jackets from a foreign man-of-war stationed in a friendly port to watch the interests of the citizens of the country it represents is frequently resorted to where local authorities are unable to give adequate protection. Power to do so rests in the discretion of the naval commander, and usually is made at the request of the diplomatic representative of the country whose interests appear to be menaced. The sailors will be withdrawn as soon as affairs resume their normal state and quiet is restored. Neither Secretary of State Hay nor Acting Secretary of Navy Darling had received any information up to a late hour to-night regarding the landing of

He declared that he became involved in a quarrel with Gilbert Moore, proprietor of the American Carriage Exchange, and that Moore knocked him down, fracturing his jaw. Physicians at the hospital he says, told him he was not seriously injured, but his own family physician seeing his condition, notified the coroner.

KING EDWARD

Will Visit Rome at the End of This Month and Meet the Pope.

By Cable to the Morning Star. ROME, April 2-Prince Colonna, the mayor of Rome, has been officially informed by the Italian government that King Edward will visit Rome at the end of this month. Mgr. Stonor, canon of St. John Lateran, the highest English prelate here, has been entrusted with the negotiations to arrange a visit of King Edward to the Pope. It is proposed that the King either go to the English ecclesiastical college here or to the residence of Prince Massimo, whom he met when here as Prince of Wales, during the lifetime of Pope Pius IX. From either of these places he would start for the Vatican, not in Dr. Harper handed the President a a carriage of the King of Italy, but in a private vehicle.

GOOD GUN PRACTICE

Made by Warships of the North Atlantic Squadron Near Pensacola, Fia.

By Telegraph to the Morning Star WASHINGTON, April 2 .- The North Atlantic squadron is making more good gun practice, from reports to the Navy Department. To-day's report rom Lieutenant Commander Simms, the inspector of rifle practice with this squadron, who is now at Pensacola trowel in hand, gave the signal, and as Fia., is to the effect that three out of the four gun pointers in the thirteen-inch turrets of the Indiana made a percentage of 100 in hits. On the Illinois, all four of the gun pointers of the thirteen-inch guns made an average of seventy-five per cent. in hits. This was not sub-calibre practice but was made a distance of sixteen hundred yards, each shot striking a target seventeen by twenty-one feet.

A PAIR OF KINGS.

Edward of England and Garles of Portugal Met at Lisbon.

By Cable to the Morning Star. LISBON, April 2.—The British royal yacht Victoria and Albert, with King Edward on board, arrived in the Tagus to-day from Portsmouth and was sa-

luted by the warships and forts. A royal salute was fired as King Carlos embarked at the arsenal on board the royal galley which was built for the marriage of Donna Maria and Carlos IV. The warships manned sides and yards and the sailors cheered as the state galley, followed by a num-ber of other galleys, proceeded to the Victoria and Albert.

The interview between their majes-ties on board the Victoria and Albert lasted an hour and a half, after which a procession was formed and the two kings went ashore. On landing King Edward and King Carlos were greeted

with tremendous enthusiasm. THE WABASH TROUBLE.

THE BANQUET AT DES MOINES, IOWA

A Jeffersonian Affair Attended by Some Three Hundred or More Democrats.

SPEECHES BY PROMINENT MEN

Adlai Stevenson and William J. Bryan Make Addresses-The Meeting Subsequently Held by Kansas City Platform Adherents.

By Telegraph to the Morning Star. DES MOINES, IOWA, April 2.-Three hundred Democrats attended the Jeffersonian banquet here to-night, and the demand for tickets could not be met. The attendance was representative of the Democratic party throughout the State. The principal speakers were William J. Bryan and former Vice President Adlai Stevenson. William Randolph Hearst, of New York, who had been announced as a speaker, sent a letter in which he expressed his regrets. Mr. Stevenson gave his views as to the proper policy for the Democratic party in the coming presidential campaign He said: "In the approaching struggle for po-

litical supremacy appeal will be made more earnestly than ever before to Democrats to present an unbroken front. An appeal to all regardless of past party affiliations who condemn favoritism in legislation; that favoritism which enriches the few at the expense of the many; to all who, by wise legislation would curb the power of the trust; that constant menace to honest business enterprise and to popular government; to all who condemn extravagant and wasteful expenditure of the people's money ; to all who condemn the latter-day policy of foreign conquest; in a word, to all who would restore the safe and economical methods in government, established by the founders of the republic."

Mr. Bryan said in part: Harmony, like happiness, is not secured by seeking for it; it comes as the reward of right doing. Harmony is a thing to be felt, not a thing to be talked about. The mere mention of harmony suggests differences that need reconciliation, and the vociferous talk about harmony among those who disturbed it, left the party and lent their influence to the enemy, naturally recalls the issues that created the disturbance and naturally suggests the inquiry whether the prodigals have repented or demand repentance of the

"The difference, which existed on the money question, still exists, for while the Republicans are boasting that the money question is settled money is tight in the great financial centers and the financiers of this country are resorting to extraordinary culation to carry on business.

"On the trust question the same line of cleavage appears. The men who threatened a panic if silver was restored, now threaten a panic if the trusts are disturbed, and the trust magnates are casting about for a Democratic candidate so much like a Republican that trusts can rest easy, no matter which candidate is elected.

"Reorganization means retreat, and retreat demoralization and disaster From the low standpoint of expedi ence, retreat could not be justified The party polled nearly a million more votes in support of the Chic go and Kansas City platforms than were polled by Mr. Cleveland, even before his political crimes were exposed. What would be the result to-day if

the standard were put in the hands of men known to be unfaithful to Democratic principles or even in the hands of those that are known to be faithful? But there is a sordidness about the arguments made by the reorganizers which ought to disgust any well-mean-ing or high-minded citizen. It is really insulting to a man to intimate that he thinks it is more important that we get control of the administration than that we administer power in accordance with the Democratic principles and in the interest of people at large. To say that a right principle must be dropped because the party has suffer-ed defeat in support of the principle is as ridiculous as it is cowardly. The Democratic party has been defeated more often on the tariff issue than any other issue, and yet that is the trade issue that the reorganizers would make the paramount one. The trust question was an issue both in 1896 and 1900, and there is as much reason for declaring that the elections vindicated private monopolies as to say that they vindicated the gold standard. In 1900 the trust question was more discussed than the money question, and yet the people who want to drop the money question pretend to feel an interest in the trust question. Imperialism was the paramount issue in 1900 and overshadowed all others, and yet those who are op-

posed to imperialism would not be willing to drop that question. "While circumstances determine the emphasis that should be placed upon particular issues, no party can afford to abandon a righteous posi-tion, once taken, for fear that to maintain it would be unpopular."

The banquet proper was announced as a gathering of Democrats without regard to differences of opinion as to party policy; but in the afternoon a meeting of Kansas City platform adherents was held, at which an organization was formed and a central committee created to work to place in the next State platform the principles of

the Kansas City platform.

Mr. Bryan attended the meeting and endorsed the movement. "The Democracy of America does not want harmony," he told these present. "It wants the triumph of Democratic prin-

He accepted the colonel's ex planation of American policy and promised to be peaceful. There has been considerable inter-tribal trouble. but no demonstrations have occurred lately in Joio against the Americans.

General Davis has planned to locate a strong military post in the centre of Joio island. It is believed this will
