THE MUNICIPAL CAMPAIGN.

Speaking Last Night in the Pirst Ward. Candidate for Alderman-About Registration-The City Charter.

In response to an invitation from a number of his friends in the First Ward, Col. A. M. Waddell spoke to a large crowd last night on Brunswick. between Fourth and Fifth street. An improvised stand had been erected by the use of a flat bed wagon and the meeting took place in the open air. Col. Waddell's address was along the same lines as that delivered a week before in the Court House and his friends claim that his chances for renomination were much enhanced by the appearance last night.

The primary takes place within less than a week now and local politics are expected to warm up by that time There were various rumors of withdrawals yesterday, but none of them was confirmed.

The Aldermanic tickets in the several wards are being much discussed. The only development in the situation yesterday was the announcement of Dr. T. S. Burbank by a number of his friends in the Third Ward.

There yet appears to be some confusion in regard to the registration for the primary. The books do not open until April 18th, four days after the primary, and there is no opportunity for a voter who has not already registered. Unless a voter qualified himself for voting in the last election for county and State officers it appears that he cannot vote in the primary. Attention is called also to the fact

that a majority of the qualified voters is required for adoption of the new city charter at the election on May 6th, and not at the primary polls, as some have supposed. As a very light vote will likely be cast in the election May 6th and as a majority of those on the registration books is required to carry the charter, it really appears that it will fail. In other words, the vote of every person who does not exercise his suffrage in gainst the charter.

He brings a most discouraging report of the damage to the huckleberry crop by reason of Sunday's freeze, and says "all Sampson is in mourning." Mr. Johnson estimates the damage at about 75 per cent., and when it is considered that the huckleberry crop is worth \$50,000 to the county each year, it is no wonder that the people have the "blues," paradoxical as the latter assertion may seem. The prospect for the crop before the cold snap was never more promising. There is still

The end of the current fiscal year having been reached, the Board of new fiscal year on June 1st. The salary of other officials was generally discussed and the sentiment appeared to be in favor of some reduction all along the line with, perhaps, the exception of the ordinary employes in departments. No action, however, other than that indicated above was taken and in the midst of the discussion at 10:30 o'clock the Board adjourned subject to the call of the chair-

neeting, viz: Chairman H. C. Mc-Queen and Messrs. Jesse Wilder, C. W. Yates, S. P. McNair and J. A. Orrell. The remainder of the business was principally in regard to action of the Aldermen at their previous night's meeting. A communication from the City Clerk and Treasurer in reference thereto was read.

The bill of Meares & Ruark amounting to \$118.80, counsel fees in suit of Worth vs. City of Wilmington in the Supreme Court, was approved.

The appropriation by the Aldermen the election May 6th, will count for the purchase of 1,500 additional tons of Columbia rock for street improvement, was not concurred in, the Board taking the view that \$1.56 per on the market for 25 years and are ton is an excessive price together with used in many of the important buildthe cost of placing the same on the streets. Messrs. Geo. W. Kidder and Capt. Donald MacRae, who were under the impression that the rock was for use on Front, between Castle and Wooster streets, were present and urged the appropriation.

The appropriation of \$100 for the publication of the new city charter under the direction of the Finance Committee, was concurred in. Chairman Hashagen, of the committee, was present and urged approval. He was also present in connection with and spoke in opposition to concurrence in the action of the Aldermen in compromising the back tax suit with ex-Judge E. K. Bryan.

Keen, who was the first to reach the young man after the accident. No one could be found who saw Paddison fall, but from the evidence, it appears that he was walking near the train and fell under next to the last car, the rear trucks of the same passing over his body as well as the front wheels of the rear car. The jury's verdict was simply that deceased came to his death by being run over by A. C. L. train No. 55. No blame was attached to the railroad company.

Congressman Small's Proposition Endorsed Yesterday by Chamber of Commerce.

Semi-Centennial Celebration Will Be Elaborate Affair-Inspection of Grain. Mr. B. P. Keith, of Boston, an Honorary Member -- Notes.

At an enthusiastic special meeting of the Chamber of Commerce, held for that purpose yesterday afternoon, Congressman Small's proposition for an inland water way was unanimously endorsed and upon motion, President Chadbourn appointed a committee, consisting of Messrs. W. E. Worth, J. A. Arringdale and J. A. Taylor, whose duty it shall be to prepare an argument in favor of the scheme, which shall embody the sentiment of the Chamber in reference thereto. Plans for the semi-centennial celebration of the Obamber were quite enthusiastically discussed, a new standing committee on inspection of grain was appointed and several other matters of more or less moment were acted upon at the the same meeting.

The Chamber was called together in rather informal session at 3:80 o'clock and those in attendance were President James H. Chadbourn, Secretary James Kyle, Mr. W. E. Worth, chairman of the Committee on Harbor, Shipping and Commerce; Capt. Edgar D. Williams, harbor master of the port; Mr. B. F. Keith. Callector of Customs; Messrs. Geo. R. French, J. A. Taylor, J. A. Arringdale, S. P. Mc-Nair, Jno. T. Rankin, Walker Taylor, H.-L. Vollers, Jno. H. Brown, P. Pearsall, G. J. Boney and Jno. R.

Turrentine, Jr. Mr. Worth set forth the object of the meeting and explained that the trades bodies of Baltimore, Norfolk, Charleston and Sayannah were lendng their encouragement quite sub stantially to Congressman Small's plan for an inland water, way extend ing as far south as Beaufort inlet, the object being, of course, to avoid the dangers of Hatteras, cheapen transportation, etc. He read from the Savannah News of the action taken there and said Congressman Small had recently visited Wilmington and set forth his plans to a number of leading citizens who appeared very favorably impressed with it. Savannah claimed as an instance that the inland waterway would reduce freight on lumber \$2.45 per thousand feet and Wilmington might expect a corresponding benefit in similar freights. A general discussion ensued, par-

ticipated in by Col. Walker Taylor, Mr. J. A. Taylor, Mr. George R. French, Mr. S. P. McNair, Mr. G. J. Boney, Capt. Williams and others. Several of them favored the idea of endorsing the plan for a route as far as Beaufort, provided that the project included Capt. Williams' idea of an inland waterway from Bogue or Topsail inlet, via Harrison's creek and Northeast river to Wilmington and the ocean. From Bogue or Toprail inlet a canal of about three miles would have to be built, but the plan was regarded as perfectly feasible and would shorten the distance about 40 miles. The cost, however, would be about two million and Barges could be used—the cheapest method of transportation known to the world.

A number of those present favored including the Wilmington route in the endorsement of Mr. Small's proposition, but this was objected to by advocates of the latter for fear that asking too much would jeopardize the success of the whole. Capt. Williams was asked his idea

of an endorsement of the proposition for a route only as far as Beaufort and if an opening of the sound only that far would not be detrimental to Wilthe government would want to go a step further and avoid the danger of Cape Lookout.

The motion for an endorsement of the original plan and the appointment of a committee to formulate an argudale and carried unanimously.

At the request of several members of he Chamber, upon motion, President Chadbourn appointed Mesers. G. . Boney, M. J. Corbett and Capt. Jas. I. Metts to constitute a standing Committee on Inspection of Grain, the ity of which shall be to and determine damage, etc., to cargoes of corn, hay, grain, etc. President Chadbourn outlined the

plans of the Executive Committee for

the 50th anniversary celebration to be held in May and members of the Chamber spoke enthusiastically of what one chara cterized "the golden wedding." Local speakers will be invited Chamber; another on twenty years history embracing the present and, another on twenty years future of the organization. pending in the Superior Court and case, and his associates, Herbert Mc-Clammy, Esq., and Geo. Rountree. Esq., had a contract with ex-City Attorney Sutton, of the administration of 1894, for the collection of all back taxes prior to that date. Upon taking charge of the books under the last administration Mr. Meares, the then city attorney, had the question raised and Mr. Bryan and his associates claimed the right to retain the books | March: under their contracts, the existence of which on the records is denied by the plaintiff. However, Mr. Bryan, unwilling to impede the machinery of back tax collections of the city, finally consented to give up the books, but retained for himself and associates \$1,076 to guarantee their commissions, etc. This amount he had held in bank ever since and expresses willingness to turn it over to the city at any time the controversy is so settled, either by arbitration or by the courts.
