It was Mr. Gafford's maiden speech to a jury and both Solicitor Duffy and Judge Peebles took occasion to compliment them publicly immense tract of coal has been dis- the excellent manner in which they conducted the defence. The burden of testimony for young Martin was evidence tending to discredit the two principal witnesses for the prosecution. A number of character witnesses on both sides were introduced. Martin again took the stand in his own behalf and told practically the same story as upon the previous trial, but admitted that he had been discharged from the employ of the Select Knights, whom he claimed to represent as an organizer. The family of Mr. E. H. Gasque, a leading citizen of Marion, S. C., and three servants employed in the household were poisoned last Monday either in the food which they ate for dinner or by some vanilla extract used in the

Physicians were quickly summoned and it was not until Thursday that all were regarded out of danger. It was a terrible ordeal through which the family passed and it was feared that one or more fatalities would result. Mr. Gasque is father of Capt. Chas. W. Gasque, a popular A. C. Rather sensational and altogether nteresting statements are contained in the report of the grand jury to the present term of New Hanover Superior Court, which was made public vesterday. Charges of an unsanitary condition at the convict camp are reterated from the preceding week and members of the jury make some interesting admissions in connection therewith which give emphasis to their convictions expressed in the report. The county authorities still maintain that they have the best sanitary camp in the State or South and are willing to leave the matter to a board of any number of physicians in the city. It is not known as yet what action, if any, will be taken. The report is as follows: The Honorable R. B. Peebles, Judge

In the case of the poor, the tendency is to curtail their fare and comforts, and in that of the convicts, to render stockade life attractive that imprisonment has little deterrent effect. Each poor house inmate and stockade criminal means so much income. We would therefore suggest that the poor and the prisoners a fixed salary; that the contracts for their provisions be let by advertise-ment to the lowest bidders and that the superintendents be responsible for their respective charges to the authorities.
