MUNICIPAL AFFAIRS.

Asheville, arrived Sunday to visit Regular Monthly Meeting of the Board of Aldermen Last Night Was Lively.

CONTRACT FOR LIGHTING

Awarded to G. R., Light & P. Co.-The Liquor Traffic Regulations Tabled. Getting Ready for Permanent Street Work-Notes.

Much important business was transacted at last night's regular monthly neeting of the Board of Aldermen at which Mayor Springer presided and upon which all members were in attendance. The lighting contract was awarded to the C. R., L. & P. Co. at the same figures as last year; arrangements were made to begin the operation of the city rock quarry and to pave Market, between Second and Fourth street; the regulations framed by the Ordinance Committee to restrict the liquor traffic were tabled without discussion; \$800 was appropriated for extension of the water main on Orange street and many other matters of more or less moment were acted upon. The meeting continued until 11:30 o'clock and the room was well nigh filled with spectators and others drawn by curiosity to see what the Board would do upon the several

important matters before it. Committees were first called. Chair man Yopp, of the Finance Committee, reported in favor of adopting the tax ordinance as recommended by the Board of Audit and Finance and same was adopted. In reference to taxes paid twice by Hon. Jno. D. Bellamy, upon recommendation of the Finance Committee, \$24.75 was ordered refunded to Mr. Bellamy, Alderman Sweeney, of the Sanitary Committee, recommended the purchase of a street sweeping machine at a cost of \$350. Mr. Sweeney said a machine would result in a saving of \$12.18 per week

over the old process of hand sweeping, which costs \$16.68 per week for two sweepings per week. Upon motion \$350 was appropriated for the purchase of a machine.

Petitions for and against contracting the lines in which hogs are allowed to be kept in the city limits, were read and no action was taken, allow ing the lines to remain as at present

Alderman Hashagen said that the Light Committee had installed three lamps on Market street and one near the cotton mill. An appropriation of \$6.75 each was made to defray expenses of same.

In reference to the city lighting con tract, a formal communication re arding the action of the Board of Audit and Finance in disapproving the bid of the Turrentine Light Co. was read and Chairman Hashagen asked that the matter be referred back to the Light Committee with power to act. The Mayor suggested that President Hugh MacRae, of the C. R , L. & P. Co. be heard.

Mr. MacRae said that he was pres

ent to ask that their bid be approved at once; that at previous conference his company had not had an oppor tunity to present its side of the case. He said that the company's general manager had promised to continue lighting the city until further arrangements could be made, but that th would occur to any one that the C. R. L. & P. Co. could not afford to light the city by the day as cheap as it could by the year. As to the price of the lights Mr. MacRae submitted a statement showing that the average cost of lighting cities in the United States, moonlight schedule, is \$86 per year, while Wilmington was getting her lights at \$83 per year. He made s personal allusion to his interests in the city and spoke about how they had been harrassed. It had goaded him to the point, he said, where it was a question whether anybody should attempt to do anything progressive in the City of Wilmington. It is easy enough to drive out-to kill-industries, but it is very hard to get them.

Returning to the question in hand, Mr. MacRae read a letter from the president of the Commercial and Farmers' National Bank, of Baltimore, stating that no Kitson lights were in use in that city. A large lumber manufacturer told him, said Mr. Mac-Rae, that the Kitson lamps were an infernal nuisance. Mr. MacRae spoke proved. of the efficiency of the lights now in

use and asked prompt attention. Mr. Hashagen said his committee was of the opinion that the proceedings were irregular; that the Board of Audit and Finance should have referred the matter to the Light Committee. He suggested that others be heard as to their proposition. However, he made a motion, seconded by Mr. W. E. Yopp, that the matter be referred to the Light Committee. Upon motion of Mr. Sweeney \$500 or so much thereof as is necessary was appropriated for placing the road roller at the rear of the City Hall in order, the Board of Audit and Finnace concurring. An additional \$350 was appropriated for placing the machinery at the rock quarry in repair.

Alderman Behrends, of the Water Works Committee, recommended extensions of the mains on Nixon street, also to Cape Fear Mills, and on Or ange from Sixth to Eighth streets. For the last named extension, \$800 was appropriated although the same appropriation was disapproved by the Board of Audit and Finance some time ago.

Alderman Moore, of the Fire Committee, reported the resignation from the department of Messrs. J. Wannamaker and H. Kuhl and John Jones and Graham Smith were elected in their stead. Messrs.
