RAILROAD EARNINGS.

Atlantic Coast Line a Dominating Corporation in South Eastern Territory.

MAPNIFICENT SYSTEM.

its Absorption of the Plant and L. & N. Makes a Giant Aggregation on Sound Pleancial basis-its Earnings. Operation and Income.

The Atlantic Coast Line, says the New York Commercial Advertiser of August 13th, makes preliminary report of earning for the fiscal year end-ed June 30, 1903, compared with the preceding year, as follows:

G's earn's \$15,676,766 \$17,620,668 19,591,597 11,654,659 Net earn's \$7,065,149 \$5,065,000 \$1,100,000 No comprehensive official statement No comprehensive official statement is at hand of the exact outstanding indebtedness of the Atlantic Coast Line Railroad Company and the Atlantic Coast Line Company, but if we add the fixed charges of the old Plant system and the old Atlantic Coast Line and add thereto 4 per cent. on the \$36,500,000, Louisville and Nashville collateral 4s, it will give fixed charges of about \$5,200,000. Using this figure, we can construct the probable incon for the year just ended as follows:

Net earnings from operation.... per cent. on 306,000 L. & N.

According to the most reliable re-ports, the Atlantic Coast Line Railroad Company has outstanding at the present time \$3,270,000 preferred stock and \$35,650,000 common, so that the earn-ings, as figured above, would be equal to 5 per cent. dividend on the preferred stock and 6.5 per cent. on the common.
The Atlantic Coast Line Company,
which owns a majority of the stock of
the Atlantic Coast Line Railroad Company, is a close corporation, organized under the laws of the state of Connecticut, and we are unable to say from - Jonathan George Marion official reports, either how much of the Atlantic Coast Line Railroad Company's stock it owns, or its exact capitalization. The securities which the public are interested in are the various issues underlying the common stock of the railway company, and it is evident from the figures which have been submitted that the earnings from the property as reported are amply sufficient to pay the charges and leave

good surplus. But the figures as reported do not begin to do justice to the earning power underlying the stock. The earnings as submitted are simply the results of the operations of the 8,590 miles which compose the Atlantic Coast Line system proper. In addition to the mileage directly operated, the company controls separately operated corporations having an aggregate mileage of over 6,350 miles of road. The Louisville and Nashville, with its 4,916 miles, is earning more than double the dividend which it pays, without counting the equities which it owns in its subsidiary cororations, such as the Nashville, Chat-

tanooga and St. Louis, et The Atlantic Coast Line Railros Company, through its control of other corporations, is to-day the dominating railroad corporation in the great territory bounded by the Potomac, the Ohio, the Mississippi, the Alantic and the gulf, and its earnings and its financial doings are of great interest, not only to the small group of gentlemen who own the Atlantic Coast Line Company of Connecticut, but to those who own the upward of \$300,000,000 bonds and minority stocks of the parents and subsidiary corporations, as well as the great population resident in the territory which it serves so admirably. It is to be hoped that the Atlantic Coast Line Railroad Company and its december will the pany and its dependencies will this year issue as full and comprehensive an annual report as is yearly sub-mitted by the Bouthern Railway or the Louisville and Nashville.

The contract with Mr. C. H. Dock for the operation of the city rock quarry has been drawn and will be signed at an early date. In the police court yesterday three cases against C. H. In the three present cases the principal witness is J. W. English, who was appointed on the police force the day before the warrants were procured. Three sales are charged, viz: On July 26th, Aug. 2nd and 9th. It is stated that if they procured beer at Collins' place, counter indictments may be brought against them for securing same from the premises without the owners' consent. Exceptionally Good Vandeville Bill Wrightsville's Summer Theatre,

An exceptionally good show has been secured for The Casino this week. The company was in Charleston last week, where it won high praise. In speaking of the show which comes Monday, the News and Courier says of the Misses Webb and Elzer, the prima donna and the soubrette: "They entertained the audience with their sweet voices and comic ditties and merited and received many a round of applause by their local 'hits' and bright wittleisms."

Others in the bill will be Cameron and Toledo in a very novel act, "A Scene from Faust." This team carries its own scenery and electrical effects and is said to be composed of exceptionally sweet singers. These are to be followed by the Brown Sisters in songs and dances.

MOUNT OLIVE, N. C., Aug. 15th. Editor Morning Star:—The public doubtless have seen an account of the rocking of our excursion train on yesterday, as we were leaving the A. C. L. depot. For years we have brought to Wilmington thousands of white people of respectability and character (this being our 86th excursion) and we
