9-9-9-9-9-9-9-9-9-9-9-9-9-9-9 FOR LOVE OF SHORTY:

By FREDERICK WHITE

Copyright, 1908, by McClure's Nescepaper Syndicate Maggie Dolan's first dream of love

was inspired by Shorty McGovern. He had danced with her three times at the bail of the Happy Friends' association and had escorted her home afterward. Unfortunately for her peace of mind, Maggle had not inspired Shorty with anything in particular.

He was good natured, and had danced with her because she did not seem to have many partners. He walked home with her because they happened to dance the last waitz together. Then he forgot all about it,

but Maggie did not. Had she known Shorty's profession -he was a burglar-she would have had nothing to do with him. But she only knew that he was what she considered handsome and that he talked most attractively about books.

She was young, very young, and no man or boy had ever paid her so much attention before.

Being afflicted with an imagination, she gave herself up to dreams in which Shorty was always the predominant figure. On her way to and from the factory she was continually on the lookout for him, and every evening she surprised her mother by putting on her best dress in the hope that he might come to see her. But Shorty never came. He had other business on hand, if not more attractive at least more remunerative, so Maggle looked and waited in vain.

Shorty had just pulled off a good thing, so good that the police were almost as much interested as the victims of the robbery, and that meant trouble.

Shorty realized this and resented it because it interfered with his reading. He always read voraciously-between times-and, with the wherewithal for six months' comfort on hand, he hated to be disturbed. He knew, in that mysterious way by which police news travels to those most interested, that be was under suspicion and, much against his inclinations, he was preparing to leave town until the atmosphere should clear.

In the meanwhile Maggie had become almost desperate. In her primitive way she was very much in love, and to see Shorty again was her one thought, day and night. Her fancy wove a glamour about him that even Shorty himself would have repudiated with scorn had he known.

Then came the arrest, for the powers had been too much for him at last. Maggie saw it in the papers, and a picture of her hero brought the shock She was dazed, stunned, hopeless, but still in love. Without saying anything to her mother she visited Shorty in the city prison.

Shorty was very much surprised, but appreciated the attention, although the girl's grief and disappointment in him (she had impulsively told more than she should) annoyed him. Though more or less callous in re-

gard to the right or wrong of his calling, he would have welcomed respectability if he could have afforded it, but now it was too late, and in his beart he resented this too. The first visit led to others, and in the devotion of the girl Shorty saw a gleam of hope. He was not entirely selfish in this matter. If he escaped his term in prison, he would do the right thing by

He would take her away with him and marry her, but for some reason or other he never told the girf this. So it was that for pure love of him Maggie agreed to help him establish an alibi, although she knew from his

own lips that he was guilty. -With the aid of a lawyer, who asked ne embarrassing questions, they concocted the defense. On the day of the trial Maggie went on the stand. Pale of face, but exalted in spirit, she swore that on the night of the robbery Shorty had been with her, in her home, until 1 o'clock.

Fortunately for the success of this story, Maggie's mother could not deny it, for she had spent that night away from home nursing a sick friend.

Broken hearted at the smirching of the good name of Dolan, she asserted her belief that her daughter was bewitched and, shaking her fist at Shorty, threatened vengeance until suppressed by the court.

Her evident animus against the prisoper had an effect directly opposite from that which she had hoped to produce. It strengthened his alibi materially, and much to the disgust of the

police Shorty was acquitted.

When the dwellers of the tenements wish to be alone and undisturbed, they seek the comparative privacy of a park beach. On the evening of his release Shorty met the girl by appointment, and together they threaded their way through the crowded streets to one of the city's breathing spaces.

Shorty, pale and worn and somewhat chastened in spirit by his enforced seclusion, breathed the air of liberty with ever growing delight.

It was good to be his own boss again, and with the realization came another thought-he was some one else's boss too. His hand touched the arm of the girl at his side, and a thrill of conscious power ran through him. She belonged to him. She had done too much and gone too far to quit now. She must look to him and to no one else in the future.

When he arst understood that he was free, his beart had gone out to the girl in a tender pity that left him a suppliant at her feet.

But now, a few hours later, this was forgotten. Something in his lawless nature crowded out all sense of gratitude and left only the selfish pride of man in his conquest. They entered the park and sat down

upon a bench partly sheltered from passing eyes by a bush. Maggie's face looked very white in the growing dusk, and her eyes were fixed on the ground. Shorty shifted about uneasily, and

then, in lieu of anything better, he put his arm about her shoulders. The girl shivered and drew away. "What's the matter," said Shorty. "You're not afraid of me, are you?"

"No," said the girl; "I'm more afraid This was beyond Shorty's compreof myself." bension. "You're what?" he asked

"Ob, Shorty," cried the girl earnestroughly. ly, "can't you understand that it's all

over now and we must not see each other any more?" "What d'ye mean?" he demanded. "Don't you know I'm going to take you away tomorrow. 1 got some money

left, and," he added magnanimously, "we can get married before we go if you want to." Maggle laid her head upon the top rail of the bench and began to cry. "I can't do it. I won't do it," she obbed. "You must go away-alone." Shorty did not know what to make of this. What did the girl want if she did not want him? Why had she visit-

ed him in the prison, worked for him, lied for him, if she did not want him? "Aw, ... ne off," he said gently. "That do ou want, anyhow?"

"This," and the girl, springing to her feet and dashing the tears from her eyes. "I want you to go away where I will never see you again. What I did I did because I loved you, and I am glad of it-glad that I lied for you and not you of."

Sherty looked at her in wonder. He could not understand this girl. There was something in her beyond his comprehension. His confidence in bimself was weak

"You better come with me, Maggie," he gald. "I'll prom. " to be good to you." "It isn't that," went on the girl. "I told you I was not atraid of anything but myself. I know what you are-a thief, and I know what I am-a liar, and I know what we both ought to be, and I can't do it. We could never be happy or good and-oh, Shorty! I'll always think of you as you were that night at the dance, before I knew, and -go-go away now or I can't stand it." Shorty began to realize something of

the tumult in the girl's heart.

struggle for her ideal. He knew that should be take her in his arms even now she would not be able to resist him.

He felt rather than understood her

Something of her innate desire for what was good and true stole over him, and to his everlasting credit he žid not resist it.

"I guess you're right, Maggle," he said brokenly. "I thought we could have gone away and been happy together, but-I guess you're right." There was a world of gratitude in her eyes as she raised them to him. and his own eyes grew misty. "Goodby," he said.

She placed her hand in his, and they stood there for a moment, neither daring to say a word. Then he turned and walked swiftly away. She saw him for a moment in the glare of the electric light, and then he

disappeared in the shadows beyond. Half an hour later there was a knock at Mrs. Dolan's door. She wiped her eyes and opened it eagerly. "Mother," said Maggie, "can I come
