IMPORTANT CONFERENCE AT THE WHITE HOUSE.

Between Senator Hanna and President Rooscreit-Hanna's Reported Aspirations to Presidency Discussed.

By Tuingraph to the Morning Star. WASHINGTON, Nov. 9.-A conference of significance and importance was held at the executive offices today between President Roosevelt and Senator Hanna of Ohio. The President formally requested Senator Hanna to retain the chairmanship of the Republican national committee, and to conduct the campaign of next year. In the course of the conference, the subject of the presidential campaign was considered briefly; not only the chairmanship of the national committee being involved, but also Mr. Hanna's reported aspirations to

the presidency.

The President urged the sensior to retain the chairmanship of the national committee, in order that the Republican party might in the approaching campaign have the benefit of his services at the head of the national organization. Senator Hanns, it is understood, indicated his desire to retire from the work of active political. management. The President, however, urged him in strong terms to continue in political harness, pointing out to him that as the head of the organization he would inspire great confidence

throughout the country.

No definite conclusion was reached,
the understanding being that a
further and more extended conference
would be held in the near future. When Senator Hanna left the White House, he declined to discuss the subject of the national chairmanship or to comment on reports that he might be a candidate for the presidency. From other sources it is learned that the sensior has indicated that he will not be a presidential candidate and has let it be understood that he means what he says.

TEXAS BOLL WEEVIL

Result of Secretary Wilson's investigatien of the Trouble.

By Tulegraph to the Miraley Star WASHINGTON, November 9.—Secretary Wilson, of the Department of Agriculture, was an early caller on the President to-day. He has just returned from Texas, where he went to make an investigation of the condition of cotton and to learn the results of the fight the planters are making against the boll weevil.

Many of the planters are taking the advice of the Agricultural Department

and are planting early cotton, said the secretary. "Practically the entire late crop was destroyed. The weevil has ravaged much of the best part of the Texas cotton belt. All efforts to exterminate it seem to have been una-vailing. Riforts to eradicate the house-ily would be about as efficacious. The only way to meet the evil, apparently, is to plant early cotton and get in the crop before the weevil has opportunity to destroy it."

BATTLESHIP MAINE

Sailed Yesterday Under Rush Orders for Solos, Pasama.

By Tuisgraph to the Morning Star NEWPORT NEWS, VA., Nov. 9.-Ugder rush orders to proceed to Colon, the United States battleship Maine steamed out of the harbor this afternoon. All through last night a coal barge lay along side the warship, which before daylight had her bunkers brimming with coal. This morning several boat loads of supplies were put aboard and the battleship then dropped down to Old Point, from which anchorage she had orders to sail at 4 o'clock in the afternoon. Baturday afternoon, white laying off the coast of Massachusetts waiting to go to sea for target practice, the Maine received orders to proceed immediately to Colon. Owing to the condition of affairs at Colon and the absence of any first class war vessel of the United States in those waters, it is presumed that the Maine was ordered there to protect American interests.

Capt. Richmond P. Hobson Applicant in Police Court for a Search Warrant. By Talegraph to the Moratag Star.

NEW YORK, Nov. 9. - Captain Richmond Pearson Hobson appeared in the Jefferson Market Police Court to-day to apply for a search warrant in a house in West Thirty-eighth street, which is a sanitarium. He told Magnistrate Mayo that his sister, Margaret Hobson, who has been attending an older sister there who is suffering for the sanitarity of the sanit from nervous prostration, lost a purse containing \$68 and a gold medal studded with thirty-eight diamonds, worth \$1,000. Capt. Hobson said this medal was presented to him by a Southern Society and he prized to highly

As Capt. Hobson was unable to state that the purse had been stolen, the magistrate informed him that it would be inadvisable to issue a search warrant, and issued three summons for the manager of the sanitarium and two colored servants to appear in court Wednesday. Capt. Hobson also notified police headquarters of his

By Tulegraph to the Morning Star. WASHINGTON, Nov. 9.-The 58th Congress convened in extraordinary semion at noon to-day, in accordance with the proclamation of President Roosevelt, for the purpose of enacting leguslation necessary to make effective the Cuban reciprocity treaty. The day was devoted principally to personal greetings and organization. The House elected Joseph G. Oannon, of Illinois,

The House assembled the largest membership in its history, and the scene before the gavel fell in that body was one of animation, both on the floor, in the clerk rooms and in the lobbies and corridors. The day was crisp and bright and the capitol building presented the appearance of a new structure with its coat of white paint

and complete renovation within. Crowds of eager speciators, both men and women, thronged the corri-dors and rotunds of the capitol early in the day, and the galleries, to which admission was by card only, were taxed to their capacity long before the hour for assembling arrived.

Committee rooms, which had been in the hands of the renovator during the recess, were thrown open and many informal receptions were held by popular chairmen. With the speakership question out of the way, in the universal endorsement of Mr. Cannon, there was nothing to worry the legislative mind and the day was given up to the sentiment of the occa-

With galleries crowded, with the chamber a mass of elaborate floral tributes and nearly every senator in his seat, the gavel of President pro-tem. Frye sounded at noon to-day, calling the Benate together in the second extraordinary session of the Fifty-eighth Congress. The special session of the Senate following the adjournment last spring of the Fifty-seventh Congress eliminated much of the routine work, which otherwise would have been performed to-day. Senator Hanna's pronounced vic-tory in the Ohio election won for him what was one of the most pretentious a shield three and a half by four and a half feet, of blue immortels, in which was wrought the American eagle. DISMAL SWAMP LANDS.

RAGLAND, ALA., Nov. 9.—Charles | Five Thousand Acres to be Reclaimed for Agricultural Purposes.

> By Telegraph to the Morning Star. KNOXVILLE, TENN., Nov. 9 .- Five thousand acres of Dismal Swamp lands, near Norfolk, are to be reclaimed by the Franklin Land and Lumber ed by the Franklin Land and Lumber Company, composed of Ohio men. John B. Lewis, of Somerset, Ky., agent and foreman for the company, who passed through Knoxville to-day, said the land was bought originally for its timber, but since it has been cleared it has been found to be very fertile. The work of ditching and draining the land has been begun already and hundreds of men are to be put to work. It is the intention of the company to raise all kinds of vegetables and later to engage in cattle raising on an extensive scale.

Upon application of the Chicago National Bank of the Republic, Judge Waddill, at Norfolk, yesterday named J. L. McLemore, of Suffolk, receiver for the Bowen Street Equipment Company of that place. The liabili-ties are said to be \$55,000 and the as-

The questhe situation on the isthmus. The ques-tion was discussed in all its aspects, but especial attention was given to the allegation that this country has been instrumental in producing the revolt at Panama and Colon. A number of the senators present expressed the opinion that the administration had not been unfriendly to nor ignorant of the movement from its beginning, but it was decided to wait until there is further light upon the question before advising the Democrats to take a position on the question as a party. Some of the members expressed the opinion that the mass of the people are so anxious to secure a canal that many would even endorse a revolution on the isthmus if it should prove a means of se-caring one. Senator Morgan was before the committee for quite a time and advocated a vigorous policy of

The steering committee also di cussed the question of the policy to be pursued with reference to action upon the proposed measure putting in force the Cuban treaty. It was decided to postpone further consideration of this question until the House sends over its bill. It was apparent however, that a majority of the Dem-ocratic senators would oppose the

The steering committee also took up the subject of re-organizing the Senate committees, and decided to meet from day to day for the purpose of filling the Democratic committee vacancles.

RACE PROBLEM DISCUSSED

neeting of Representative Colored Men Bishop Halsey of A. M. Zion Church Proposes Race Segregation.

By Telegraph to the Morning Star. WASHINGTON, Nov. 9.-To consider the race problem in the United States is the object of a meeting of the National Sociological Society, composed of representative colored men from various sections of the country, which began here to-day. The main feature of to-day's session was a paper by Bishop Lucien Halsey, of the African Methodist Zion Church, on "Race Begregation." In this paper he proposed that the colored race be given one or more States in which to live exclusively. He would have the white race barred from living in these States. "We are told that the South is the white man's land," said he. "If it is so, that race has been a poor guardian of the subser-vient colored people. The two races have never lived together in harmony, and I am of opinion that they never will. To-day the colored man is being crowded out of the fields and workshops of the South by the white labor-ing man. The colored labor in the South has proved the most expensive ever tried." Bishop Halsey dwelt on the evil results of mixing to both races and urged this as another point for

In the discussion which followed several members protested against Bishop Halsey's scheme of solving the race problem, declaring that the segregation of the colored race meant that the negroes would never be ele-vated and that the entire plan was im-

Washington, Nov. 9 .- Secretary Hay to-day placed in the hands of the President the Colombian protest against the course pursued by the Washington government on the iathmus and its attitude toward the new government of Panama. Dr. Herran's protest was called forth

by a letter from Secretary Hay, transmitting instructions forwarded to Minister Beaupre and Acting Consul General Ehrman. In his reply, Dr. Herran states that he has not heard from his government at Bogota for the past week, but he feels sure from his knowledge of the sentiments of that government that he is justified in entering a firm protest against the action of the United States in recognizing the revolutionists in Panama and preventing the Colombian forces from asserting the national authority over

Mr. De Brigard said: "I have no official advices from Colom-bia. Cablegrams which I sent last week asking for news have not been answered. From an official source, however, I learn that the people in the interior are very much excited over the recent developments and have appealed to our government to send a delegation to Germany to offer both seas in return for Germany's protection. How Baby Turtles Come From the Eggs and Start Out Alone. Turtles, you know, lay their eggs in the sand and let the sun hatch them out. They do not lay them all in one place, probably because they think it safer to scatter them. Then, even though one be stolen or broken, the others may escape. The mother turtle covers them all carefully up, one after another, with a thin sprinkling of sand and then apparently never gives them another thought, considering her maternity duty done. Certain it is that she has never been discovered going near these egg babies again, and when they hatch at last the tiny soft

backed creatures at once begin crawling around in search of flies and other food as independently as if there were no such thing as a mother in the world. A little girl who found one of these odd oblong turtle eggs on a sandy river bank in Louisiana took it home and put it in a teacup on the table for safe keeping. A few hours later a slight noise was noticed in the direction, and on looking in the cup again she found a baby turtle, "full fledged," but tiny, scrambling about among the bits of its broken eggshell cra-

Nine Holes. For this game there must be nine holes dug in the ground near a wall. The holes are numbered, and each player is allotted one of them by chance or otherwise. The ball is bowled into the holes, not thrown. Should one of the runners be struck by the player into whose number the ball has been bowled he may, if he can obtain the ball soon enough, strike another with it, and he in his turn may strike a third. In this way five or six may be struck in succession until a miss is made, when the one so missing loses a point and bowls. Sometimes one player vol-unteers to take the ball from another and endeavors to hit one near him. Should he fail, however, he loses a point and must take the consequences. When a player has lost one point he is called a "fiver," when he has lost two a "tenner" and when he has lost three a "fifteener." A player stands out when he has lost four points.

In a certain kindergarten school the teacher of a small class trains the youngsters in self control by diverting methods. One method is to stand the children in a row and then endeavor to make them laugh. The one who can longest restrain himself gets a good mark. One day little Patsy O'Connor, the youngest and usually the merriest member, astonished every one by keeping still throughout the test, a face really awful in its sternness. At last the teacher said:
