President Roosevelt's Monroe doctrine seems to disagree with the doctrines of the Senate.

Says Ella Wheeler Willcox: "Don't hug delusions." Well, then, let Miss Ella tell us how to detect that kind in a whole bunch of them.

"The people ought to have a show," says the Chattanooga Times. Guess the Legislature isn't doing much of a stunt over in Tennessee.

Freak furniture is now the fad among millionaires, says a magazine. We guess their hobby is a bed that will lie to the queen's taste.

Between us girls, Dr. Osler could never find out when a woman gets old enough to have her youthful career end short by his chloroform process.

Mrs. Oody, whom "Buffalo Bill" is suing for a divorce, says "I love my husband still." The trouble is Bill won't stay still long enough to let his wife love him.

Scientists say that seals have two separate hearts. Many a man would like to have two when he awakes to the realization that the one he had has been stolen.

"Spring weather always makes people lazy," says a patent medicine advertisement. We hope it will make the hens lay so as to bring down the price of eggs by increasing the supply.

Dr. Jacques Loeb, of the California University, claims that he has discovered a process for creating life by chemical agencies. What he should discover next is how to prevent many men from living two lives.

In a recent speech Booker T. Washington advised his race "to pursue quietly and patiently and courageously the essentials of life." Better advice would be to tell them to dig down after the substantials of life.

Uncle Joe Cannon has been called the Car of the House of Representatives, but he exercises his propelling power with so much benevolence that both the Republicans and Democrats united in appealing him with a loving cup instead of threatening him with a bomb.

LOCAL DOTS.

Judge Oliver H. Allen will probably preside over the first of the three weeks' term of court to be convened here April 8th and Judge M. H. Justice will preside over the second and third weeks for the trial of civil suits.
Believing that several other more worthy institutions are in the race, the Y. M. C. A. has decided to withdraw from the merchants' library contest. Y. M. C. A. sympathy is said to be divided between the Boys' Brigade and the Sorosis.

The Norwegian barque "Turlia" cleared yesterday for Stettin, Germany, with cargo of 7,835 barrels rosine, consigned by Peterson, Downing & Co., and valued at \$31,420. The vessel is by Heide & Co.
The "Committee on Port Canals" will probably be appointed by the Chamber of Commerce to-day or tomorrow. In the meantime there is no regulation of rates and vessels are taking pilots or not as they choose. A notable instance of a refusal was the schooner "Olas. A. Witter," which came up yesterday with cargo of fertilizers. The pilots thus far appear to be charging the same rates as before the laws were repealed.
The five-masted schooner "James Pierce," 1,550 tons, Capt. Vall, arrived yesterday from Baltimore with cargo of fertilizers for the Seaboard Air Line warehouses. The "Pierce" came in drawing 21 feet of water. She is the first five-masted vessel ever entered the port and is one of the largest sailing vessels which ever came here. She came up the river without difficulty and attracted not a little attention as she passed up the river front. The schooner "Charles A. Witter," also arrived yesterday with cargo of fertilizers from Baltimore. She is discharging at the "upper compress."

THE SILVER WEDDING.

Alderman and Mrs. M. G. Tiencken Delightfully Celebrated an Auspicious Event.

AT THEIR HOME LAST NIGHT.

Twenty-fifth Anniversary of Happy Married Life—Presents from Fire Department, Municipal Officials and Hundreds of Friends.
Alderman and Mrs. M. G. Tiencken last night at their hospitable home, southeast corner of Fourth and Castle streets, most auspiciously celebrated their Silver Wedding or the twenty-fifth anniversary of their marriage, more than two hundred of several times that number of friends in Wilmington having been in attendance and having been most delightfully entertained. The home of Mr. and Mrs. Tiencken was brilliantly lit and the room most artistically decorated for the occasion, the scene having been both animated and beautiful. Their hospitality was unbounded and each and every one in warmest congratulations, wished for the couple a continuation of their happy wedded life for more than the period which has already passed so happily for them.
Mr. and Mrs. Tiencken, assisted by Mrs. Charles Eckmann, of New York, a sister of Mrs. Tiencken, received the guests in the large front parlor of their home and one of the prettiest events of the night took place first. In grateful acknowledgment of his interest and kindness to the firemen of the city as a member of the Fire Committee of the Board of Aldermen, a delegation from each of the stations in the Department, consisting of Assistant Chief W. P. Monroe, Capt. Louis Erlenmuth, Capt. P. N. Fick, and Messrs. Mike Bryant and Henry Lietgen, was present and through Capt. Monroe, who made a neat little speech, the Department presented to the couple a very handsome silver service, suitably engraved and bearing the years of the anniversary "1833-1898."
The next feature was the announcement of His Honor, Mayor William E. Springer, and Alderman Tiencken's conferees on the Board of Aldermen, who met and attended the celebration in a body. Through Mayor Fro T. W. H. Yopp, the Mayor, Board of Aldermen, City Attorney, Chief of Police and Chief of the Fire Department presented to Mr. and Mrs. Tiencken a beautiful silver loving cup suitably inscribed.
To each of the gifts Alderman Tiencken responded feelingly and in his usual happy style.
Rev. W. A. Snyder, pastor of St. Paul's Evangelical Lutheran church, next conducted brief devotional exercises and made a brief discourse, followed by the host and hostess upon such a happy occasion in their lives. The address of Rev. Mr. Snyder was followed by an original song and choruses, having been by Mr. Tiencken; the host and the music by Mr. A. E. Yopp. The song was rendered with pretty effect by the nephews and niece of Mr. and Mrs. Tiencken, with piano accompaniment by Mr. Yopp. Later copies of the song, handsomely printed in silver and with a silver bell attached by blue ribbon, were distributed to the guests as souvenirs. Among the nieces who assisted with the singing were little Misses Annie and Louise Eckmann, who came with their mother from New York to attend the celebration. Later one of the Misses Eckmann captivated her hearers with a recitation in German, which was perfect in pronunciation and excellent in delivery.
Following the formal part of the exercises an elegant supper was served to the guests, Mr. and Mrs. Tiencken having occupied seats at the head of the table. They received the happiest congratulations and best wishes of a number of friends in numerous toasts drunk to their health.
Mr. and Mrs. Tiencken are among Wilmington's best people and their popularity knows no bounds, as the large number of guests last night bespoke in no uncertain terms. The number of presents in beautiful silver were very large, several gifts having come from abroad, as well as a number of congratulatory expressions from many who could not be present.

TRADING STAMP BROUQUO.

Board of Audit and Finance Defered Conference in Prohibitive Tax.
The Board of Audit and Finance at its regular semi-monthly meeting last night did not occur in the action of the Board of Aldermen Monday night, imposing a prohibitive license tax of \$500 per month upon trading stamp concerns, the matter having been deferred for consideration until a subsequent meeting. So far as could be learned, there was little, if any, discussion of the matter before the Board, the members of which, without expressing themselves favorable or unfavorable to the tax, preferring to wait until they were more fully informed about the matter. The local manager of the Southern Trading Stamp Co. was present to oppose occurrence in the imposition of the license, but the continuance of the matter served his purpose very well and formal objection will not be made until the tax is made effective by concurrence of the Board of Audit and Finance. All members of the Board were present at the meeting last night and the trading stamp ordinance was the only matter of interest presented for consideration. The next regular meeting of the Board is two weeks hence and in the meantime the tax imposed by the Aldermen is inoperative. A strong fight is expected to develop by the time the Board meets again.

Excursions Begin Sunday.

The pleasure-loving people of Wilmington—and that includes well nigh the whole population—will be delighted to know that beginning on next Sunday the steamer "Wilmington" will inaugurate its series of Sunday excursions to Southport and to sea. The steamer will leave the city each Sunday during the season at 10 A. M. and return about 6 P. M. The fare for the round trip will be only 35c.
Incubator on Fire.
The explosion of a lamp in an incubator at the residence of Mr. E. L. Smith, No. 709 North Fifth street, at 3 o'clock yesterday afternoon caused a damage of about \$80 to the building and contents, 100 five eggs which had just been placed in the hatchery by Mr. E. L. Smith having been ruined. The Department responded to an alarm from box 16.
W. L. I. in Washington.
Philadelphia Record: "Behind Governor Glenn, of North Carolina, and his staff marched a company of infantry. One of the soldiers carried a potted foot on a pole, and on the pole was a mass of black gaiters. 'Hear, my best,' the President explained. 'I was Roosevelt and his children, who were sitting alongside him.'"

EXECUTIVE COMMITTEE TO CALL PRIMARY.

Preliminary Meeting Held Last Night With Adjournment Until Monday—Votations on Board Filled—Notes.

Pursuant to call issued early this week, the City Democratic Executive Committee, composed of two representatives from each ward, met last night at the City Hall to make preliminary arrangements for the calling of a primary to select candidates for municipal offices, the same to be voted for in the general city election to be held on the first Tuesday in May, the 3rd. A certified copy of the legalized primary bill recently passed by the General Assembly was laid before the meeting and its provisions were carefully noted. Routine business was transacted and an adjournment was taken until Monday night when a permanent chairman will be elected, the primary will be called, registrars, judges of election, etc., will be appointed.
At the meeting last night Brooks G. Empe was elected temporary chairman and the following members were in attendance: J. D. Mote, first ward; W. E. Ferdeus, third ward; B. G. Empe, fourth ward; Jas. H. Barriss and B. M. Wilton, fifth ward. Vacancies on the Board were noted by the death of the late Daniel Quillivan, second ward, and S. P. Adams, third ward. Mr. W. C. VonGlabbe was elected in place of Mr. Quillivan and Mr. D. C. Love in place of Mr. Adams. Members absent last night were: G. F. Quinn, first ward; Col. T. C. James, second ward, and Louis E. Skinner, fourth ward.

It was noted that under the new primary law that the primary need not be called before March 18th. Should it be called later than that date there will be plenty of time to give the required 20 days' notice and to come within the law stating that it should be held not closer than 30 days to the day of election and not more than 60 days from the date of election. The opinion prevails that the primary will be called to be held early in April.

The annual inspection of the North Carolina National Guard began last night in this city with the inspection of the Wilmington Light Infantry, Company C, of the Second Regiment. The inspection was by Gen. Carl L. Woodruff, U. S. A., retired, and Col. T. H. Bain, inspector general of the State National Guard, who were accompanied by the following staff and regimental officers: Lieutenant Colonel C. H. White, inspector of small arms practice, N. C. N. G.; Lieutenant Colonel Thomas C. James, Second Regiment, N. C. N. G.; Capt. A. P. Adriaan, inspector small arms practice, Second Regiment, N. C. N. G.; Capt. J. Van B. Meier, adjutant, Second Regiment, N. C. N. G., and Lieut. E. A. Meets, adjutant, Second Regiment, N. C. N. G.
The inspection took place at the armory on Market street, Capt. Wm. F. Robertson, in command of the company, Capt. Robertson having returned on the evening train from Washington. There were also present at the inspection Col. Walker Taylor, late paymaster general of the Guard, and Rev. R. W. Hogue, chaplain of the company. After the inspection the officers were entertained at the armory by Capt. Robertson and other officers of the company. The W. I. boys passed their usual fine inspection, having had 46 men and non-commissioned officers in line.
Gen. Woodruff and Col. Bain leave this morning for Clinton to inspect the Sampson Light Infantry and go tomorrow to Rocky Mount to inspect the Second Regiment Band. Capt. Meier, the adjutant, will accompany the officers on their inspection of the regiment. The Naval Reserves will have their annual inspection later.

ECHO FROM RALEIGH.

State vs. Paul Young, from New Hanover, Argued Yesterday in Supreme Court.

UNIVERSITY INSTITUTIONS.

Proposition to Move Law School to Raleigh—New Structure to be Erected.—New Section Discovers in the Anti-Jug Law—Notes.
[Special Star Telegram.]
RALPH, N. C., March 7.—The Executive Committee of the trustees of the State University met here to-day and appointed a committee to locate and give out the contract for the new chemistry building for which the Legislature appropriated \$80,000; also named a committee to investigate and report on the advisability of removing the Law School of the University from Chapel Hill to Raleigh.
Legislation of State vs. Paul Young, from New Hanover, involving the right of the courts to send to the roads convicted sentenced to imprisonment for simple assault, was argued in the Supreme Court to-day by Attorney General Gilmer, for the State, and Herbert McClammy for the defendant. The Attorney General, in the course of his defense of the practice of the courts in sending such convicts to the roads, declared that it seems that the practice of working convicts convicted of crime on the roads in this State has been many years sanctioned by Legislative enactment and decision of the Supreme Court. Defendant's contention was that the administration of the criminal laws which they have offended. The object of punishment is not only to reform the offender but to deter others from crime. It is more easily done by making examples of convicts.
Other notable fifth district appeals disposed of were: State vs. Teachy, murder case from Duplin, postponed to end of fourteenth district. Clark vs. Railroad, to end of eighth district. Hon. J. D. Bellamy was here to argue in Marshall vs. Corbett the appeal was dismissed for failure to print record. Williams vs. Telephone Company, plaintiff's appeal dismissed for failure to prosecute under Rule 15.
It develops that there is an extra section in the new anti-jug law which will probably prevent the shipment of Peruna, swamp root bitters and similar patent medicines. After making the piece of delivery of the piece of sale for spirituous, malt or other intoxicating liquors, it is added: "That all liquors or mixtures thereof by whatever name called that will produce intoxication shall be considered and held to be intoxicating liquors within the meaning of this act."

CITY BASEBALL LEAGUE.

Y. M. C. A. and Other Strong Teams Likely to Enter for Approaching Season.
Baseball players of the Y. M. C. A., met last night and organized a team to enter the city league of junior teams, which has been in process of formation for several weeks. Robert Houston was elected captain of the team and Roger Schulten manager. The city league for this year promises to be much stronger than last season and an effort will be made to improve the grounds at Hilton Park, and make it possible for a series of games to be played that will be worth the while of the public to see. The league will be organized along business lines. It is proposed to include the Y. M. C. A. team, the High School team, and two or three others of equal strength. A game or perhaps a double-header will be played each Saturday afternoon.

Properly organized, there is no reason why such a league should not be made self-sustaining and at the same time furnish an article of ball that would merit the paid admission of the large crowds which used to patronize the professional games. The street car company could be induced to rebuild the track to the Park and the people would have some form of wholesome amusement for at least one of the long Summer days that are ahead.

THOMAS JEFFERSON TO-NIGHT.

Weird Old Romance, "Rip Van Winkle," at the Academy of Music.
Mr. Thomas Jefferson will be seen at the Academy to-night in the famous old play that has been a vehicle for many years in making the name of Jefferson a household word. Mr. Jefferson is an artist that would adorn any dramatic work, but the general public prefer to see him in the weird old romance of "Rip Van Winkle," and as Mr. Jefferson caters to the public taste he prefers to give them what they want. The play has an interest and a merit that defies time to mar. It is founded on a romance that almost seems to flavor of truth to the superstitiously inclined. The Catskill Mountains and the old Dutch village as its base, where the events of the story take place, were actual localities in the early days of the colonies, when King George sat on the throne of England.
On pleasant days there is no better place to spend an hour or two than the beach. The 10 o'clock car lays over to the beach an hour and three quarters. The 8 o'clock car lays over an hour and one quarter.
