types of soil, which must be such as duct. are used for producing large and important truck crops, particularly ones which are grown on large areas and are more in the nature of staples. Not only should the types of soil be satisfactory, but the particular tract selected must have at least a consid erable area of uniform soil, having a good average depth of clay containing subsoil. This is absolutely essential for comparative results in experimental work. One line of tests will be with various kinds of truck crops. Two hundred and seventy-nine kinds of cabbage seed were experimented with this season to determine their comparative yields and other qualities. If the subsoil on which a test ing depth, the results will not show the comparative merits of the differ-

LIGHTS FOR SOUTHPORT.

for Electric Plant There.

the Southport Board of Aldermen, the 740 Bags, 8-3-3 Guano, \$22.45. Sandard of yesterday says: "A Mr. Mintz, of Wilmington, was introduced to the board by Mayor 960 Bags, 8-3-10 Guano, \$29.00. Guthrie as wishing to erect an electric plant at Southport. Mr. Mintz stated 516 Bags, 8-4-4 Guano, \$26.25. to the members present just what 867 Bags, 8-5-7 Guano, \$32,50. he expected to do. He said that he 460 Bags Muriate Potash. was ready at once to erect at Southport an electric light plant without assistance of any kind, if the city would make a contract to take a certain number of arc lights. Upon being asked how many he would like for the city W. B. COOPER. how many he would like for the city to guarantee him he replied that he would require the city authorities to take at least six lights at \$8.00 per present afford to pay this amount for lights. Of course, this ended the matter as far as the city is concerned. Mr. Mintz was advised to canvass the town to see if it were not possible for him to get enough lights to guarantee his building a plant here, and he

been needing and wanting for a long

said he would try to do so. It is

not thought that Mr. Mintz will erect

plant here unless he can get the

guarantee of the city to take a cer-

tain number. The fact of the city

being almost financially defunct has

perhaps kept the city from an elec-

tric lighting plant, which we have
