-The Southern Railway Company now has a large force of employes engaged in widening a very dangerous cut seven miles up the Western Branch from Salisbury. The place is known as Rock Cut and is one of the deepest on the Western road. Several fatal accidents have occurred at this point in the past few years and it has been found necessary to keep a watchman in the cut constantly. It is learned that enough excavation will be made on each side to prevent landslides upon the track, thus insuring the safety of the passengers and property of the
