

SPIRITS TURPENTINE

Charlotte has on hand an enthusiastic movement to build an auditorium to cost \$50,000 and seat 5,000 people.

Gibson has on foot a cotton mill project, electric power to operate which will be secured from Bluff Falls, on the Pee Dee river.

(Lumberton Robesonian.)

A young son of Mr. Owen Davis who lives on Lumberton R. F. D. No. 3, was accidentally shot with an "unloaded" pistol Thursday, the ball entering the right lung. The young man's condition is very favorable.

(Fayetteville Observer.)

Dunn Bros., of Raleigh, have rented a part of the Williams building and will soon establish a big wholesale grocery house here. We know of no better place in the South for wholesale houses, and we believe there is no doubt as to the success of Dunn Brothers.

The annual convention of the Holiness church of Eastern North Carolina met yesterday with the Tabernacle church, Lumberton, and will continue until Sunday night. Seventy-five preachers and delegates are expected. Business meetings daily 9 to 11 and 2.30 to 5 P. M. Preaching at 11 A. M. and 7 P. M.

Major J. G. Young of Greensboro, has purchased from a citizen of Stokes county a pure white squirrel. This is said to be the fifth white squirrel captured in Stokes county and in general appearance is very much like a white rat, having pink eyes similar to the white rat, but the tail, claws and teeth would convince anyone that the creature is not of the rat family.

(Charlotte Observer)

The Southern Bell Telephone Co., will shortly begin work in extensive improvements in Charlotte. The actual work will begin in a very few days. It is estimated that \$34,000 will be expended in improving local systems. The underground cables will be extended and the aerial connections improved. When the work is finished, the local system will be the equal to any in the South.

(Charlotte News.)

A big shake-up in the heads of the Seaboard Air Line Railway is predicted for the first of the year, according to rumors in railroad circles. While no definite reports have gained circulation, and no names have been mentioned, it is said that a number of high officials are included in the list of changes. It is said that the changes will be made on account of the new policy of the Seaboard Air Line which was evidenced in the appointment of W. A. Garret as vice president and general manager. This official was formerly connected with the Queen & Crescent company and his office is a new place with the railroad. The changes which have been rumored, it is said, will take effect the latter part of December or the first of the year.

(Charlotte Observer)

Sheriff Wallace and Squire J. P. Hunter, of this county, saw the dead body of the Asheville negro desperado, who is still unknown to the officers. The former is not positive that the corpse is not that of Will Harris, while Squire Hunter is positively certain that it is not that of his old field hand. In talking with an Observer man, Sheriff Wallace said that the ear marks of the Mecklenburg outlaw are there, but the face is so disfigured that it would be difficult to identify the body. Squire Hunter said that the mouth was too large; the color, the size, height and general appearance of the dead man are not unlike those of Harris. The identity of the negro may remain a mystery. The average darkey would not tell who he was, if he knew, for fear that something might befall him. The negro is superstitious and his dread of returning spirits outweighs his respect for fear of law.

(Charlotte Observer)

Captain Mark W. Williams, commander of the Charlotte Artillery, First Battery North Carolina Field Artillery, has received a letter from State Adjutant General T. R. Robertson stating that Governor Glenn has urged the War Department to hurry the equipment for the Charlotte organization and that it may be expected very shortly. According to Captain Williams, the new equipment will be worth about \$40,000. It will consist of four 3-inch breech-loading guns, four limbers, two caissons, 10 sets of artillery harness, with all accoutrements, 41 army revolvers, holsters etc, 21 new saddles, bridles blankets, etc. The supplies will include extra wheels for the gun carriages and limbers, canvases, grease, oil, extra parts to the mechanism of the guns, etc. The equipment will be exactly the same as that of a battery of light artillery in the regular service. The Gatling guns which make up the equipment of the battery at present will either be kept by the company to use in cases of a riot, or will be divided among the three regiments of Infantry in the State.
