THE GOOD OLD DAYS.

How You Like Them.

Try Now the Ways of Yore and See

Good old times, says the San Antonio Light, are a delusion and a snare, and the man who sighs for them has little conception of what they were. Return to them, would you? Then rise on a cold morning and wash at the pump, pull on a pair of rawhide boots that rival a tin can in stiffness, pull on a woolen shirt over your back and sit down to a bare meal with your three legged stool dancing around on a split glab floor, eat corn pone and bacon for a steady diet and labor fourteen hours out of twenty-four. 'Go without a daily paper, a fly screen, a mosquito bar, a spring mattress, a kerosene lamp, geehaw your oxen to market and sit on the floor of an ox cart as you wend your way to church or a frolic. Parch corn and peas for coffee and sassafras for tea and see how you

The old days are looked backward to affectionately, says the Galveston News, because they were the days of our youth, of bounding blood and supple joints, the days of hope and the days of love and laughter and song. The days of the present will be the good old days of the coming generation and will be regarded by our successors as rather crude in customs and harsh in many ways, yet withal not to be despised. The progressives of our age are the mossbacks of later eras. Fifty years hence we will be accounted as slow and immature as we now regard those of half a century ago.

CHIRSCHMUS.

A Swiss Dainty That Is Made of Preserved Cherries.

Last summer I ate genuine Swiss chirschmus twenty years old. It tasted like a concentration of all the richness cherries. In appearance it was a pured it in the least.

Upon inquiry I learned how this cherry concoction, with its wonderful preserving quality, is made. The cherries used must be perfect-very large, ripe, juicy black ones and, above all,

The juice of them pressed out and strained through a bag is put in a large preserving kettle, at the bottom of which is placed a piece of smoked pork fastened to a block of wood. The wood serves as a weight to keep the fat down and prevent the juice from burning as it thickens.

The cherry juice is boiled for about twenty-four hours without sugar, but stirred from time to time until it becomes a mass of sweetness so firm and thick that it would not fall if the

That is all, a simple process, but the result is delicious. This chirschmus is in general use in Switzerland with the "susse anke" (sweet butter) and bread. -London Ladies' World.

Unnatural Finish.

One View of It.

"But if she makes all her own dresses should think she'd be a good wife for you. It shows she's industrious and sensible."

"Not for me, thank you. It simply shows how poor her father must be."-

There is a good job waiting for men and women with brains. They must hustle all the time. Why not become a hustler by taking Hollister's Rocky Mountain Tea? Tea or tablets, 35 cents. J. Hicks Bunting Drug Co.

Made Happy For Life. Great happiness came into the home

of S. C. Blair, school superintendent at St. Alban's, W. Va., when his little daughter was restored from the dreadful complaint he names. He says: "My little daughter had St. Vitus" Dance, which yielded to no treatment but grew steadily worse until as a last resort we tried Electric Bitters: and I rejoice to say three bottles effected a complete cure." Quick, sure cure for nervous complaints, general debility, female weaknesses, impoverished blood and malaria. Guaranteed by R. R. Bellamy's drug store.

IT'S IN THE DRAFT.

The secret of the fuel-saving qualities of this Buck's hot blast heater lies in the draft construction. It is so made as to allow large quantities of heated air to pass over the upper sur face of the burning coal, thus supplying oxygen to the rising gasses, which are then converted into heating power.

Simple, isn't it? And yet it's new principle in stove building-not to be found elsewhere.

This stove will reduce your coal bill nearly one-third.
