CALL ISSUED YESTERDAY

Great Project Will be Considered at Important Meeting This Week-Congressman Small and Other Distinguished Visitors Coming.

(Special Star Telegram.) Washington D . C., Nov. 24 .- A call was issued to-day for the second annual meeting of The Inland Watero'clock on the Styne plantation, about mitted proposals last week have not way Association to be held in Wilmington Tuesday. The meeting which will be held under the auspices of the Chamber of Commerce, will begin at plies here, but it is said that there 10 o'clock in the morning. The object of this Association is to promote the construction of the proposed inland waterway from Norfolk, Va. to Beaufort, N. C. This Association was organized at Columbia, S. C., several sentatives from the commercial organizations in the states of Maryland, na and Georgia. The meeting next Tuesday will be represented by delegates from the commercial organizations of a number of cities, among others being Baltimore, Norfolk, Wilmington, Fayetteville, Newbern, Elizabeth City, Beaufort and Washington N. C.; Georgetown, Charleston, Columbia and Savannah. Several Senators and a number of representatives who have taken quite an interest in the project have signified their intention of being present.

The primary facts which will make this waterway so essential and emphasizes its importance are well known. It will afford a protected interior route from Chesapeake Bay to Beaufort Inlet, N. C., avoiding the perils of navigation around Cape Hatteras and Cape Lookout. It will promote the coastwise trade between the North and the South, affording transportation for waterborne traffic at the cheapest possible rates. The claim is made that none of the trunk railroads of the South are opposed to this project for the reason that it would tend to develop the section tributary to them and would relieve the railroads from congestion of that class of traffic upon which they receive the least

All arrangements have been made by the Chamber of Commerce for the meeting of the Association in this city day after to-morrow. Hon. John H. Small, who is at the head of the project, has written the president, Mr. James H. Chadbourn, of this city, that he will arrive to-morrow night to assist with the arrangements for the meeting.
