E THE COTTON MARKET

By Wire to The Morning sta-New York, Jan. 30.-The cotton market was weak and unsettled during the day's trading with prices making a new low record for the season, ander bear pressure and liquidation. The close was steady, but at a net decline of 10 to 22 points, near months showing the greatest loss. Sales were estimated at 200,000 bales. The opening was steady at an advance of two points on some covering by yesterday's sellers in soite of the fact that Liverpool cables fully met yesterday's decline in the loca' market, but shortiy after the opening the list eased off under the big estimate for to-morrow's receipts at Houston. Local bears becare a ittle more aggressive on the decline, stop orders were uncovered around midday and the March long interests seemed to be rendered uneasy by the talk of big tenders of low grade cotton on March contracts. That position sold off to 916, or 23 points net lower and 37 points below the reecut high level and the summer months showed a net loss of about 17 to 18 points, while the new crop was dull and relatively steady. Toward the close there was enough covering to cause a rally to 2 or 3 points but the decline appeared to be atanoting no investment buying of consequence. Southern spot markets continued quiet and unchanged, according to the official reports and it is stated that stocks at the counted interior towns have lost about 15,000 bales so far this week. Exports for the day were lighter, being hardly Standard Oil 520 Western Union 82 ha'f the receipts at the ports.
