THE COTTON MARKET. By Wire to The Morning Star. New York, April 3.—The cotton market continued quiet during today's early session and showed little feature until near the close, when there was quite an active demand and a considerable advance during the last prices with a gain of 11 to 15 points. The sales of the day were estimated at 75,000 bales. The opening was steady at unchanged prices to an advance of two points, which was about as due on the different cables. The weather map showed frost in parts of the eastern belt, but it seemed the impression that no damage was being done, and warmer weather was predicted during the early session in an effort, presumably to break the market, but the cotton was well taken and the market began to steady up toward middle of scattered covering, which may have been promoted by lighter receipts and reports that government experiments with seed showed that the seed was less fertile than that of the previous season. Trading continued quiet at prices a few points over the closing figures of yesterday, until near the close, when demand became quite active and prices showed a net gain of about 11 to 16 points. The close was at practically the best point of the session. The buying on the advance was rumored to be largely for a prominent St. Louis house. Southern spot markets were unchanged to 1-8c lower. Receipts at the ports today, 15,994 bales, against 27,210 last week, and 18,970 last year. For the week, 125,000 bales (estimated), against 147,231 last week, and 113,955 last year. Today's receipts at New Orleans, 5,138 bales, against 1,849 last year, and at Houston, 5,453 against 3,784 last year. Spot cotton quiet, 5 points higher; middling uplands, 10.95; middling low, 11.20; no sales. Futures follow:
