

WATERWAYS ASSOCIATION.

Permanent Organization to Promote Inland Navigation Along Coast. (By Wire to the Morning Star.) Philadelphia, Nov. 20.—Representative men from fifteen of the Atlantic coast States today formed a permanent organization under the name of "The Atlantic Deeper Waterways Association."

The object of which will be to bring about a system of waterways to permit the free movement of traffic by inland waters between the various Atlantic seaboard States from Maine to the Gulf of Mexico. This is the outcome of the two days' conference held in this city by delegates appointed by the governors and trade bodies in the States interested on the Atlantic Inland Waterway project. The association adopted resolutions declaring that all canals should be free and asking Congress to take up the great project because it is demanded by the commercial interests of thirty million people on the Atlantic seaboard. Congressman J. Hampton Moore, of Pennsylvania, was chosen president and a vice president and delegate at large was elected from each State. The next convention will be held in Baltimore.

Many addresses in favor of the movement and pledging support were made during the two sessions today. The convention came to an end tonight with a banquet which was attended by nearly all of the 522 delegates to the conference.

Congressman Small, of North Carolina, speaking of the Norfolk to Beaufort route of the proposed inland waterway referred to the dangers to shipping in rounding the treacherous shoals of Cape Hatteras. If the Norfolk Beaufort route is built, he said, millions of dollars in ships and cargoes would be saved from destruction. Mr. Small in his address went a step further than the conference proposals to go. He suggested the continuance of the inland waterway down and across Florida to the Gulf of Mexico, thus coming in touch with the Mississippi river and the waterways of the Great Mississippi valley.

"When that dream is realized," he said, "the transportation problem will have been solved."

Major Flager, who has charge of the government engineering in five of the middle Atlantic States, said that from an engineering point of view there was nothing to prevent the carrying out of the project.

Congressman Burton, of Delaware, presided at the afternoon session which was almost entirely devoted to effecting a permanent organization. The committee on credentials reported that 522 delegates had registered for the conference and that they were appointed by the Governors and trade associations of the following fifteen States: Maine, Massachusetts, Rhode Island, Connecticut, New York, New Jersey, Pennsylvania, Delaware, Maryland, Virginia, West Virginia, North Carolina, South Carolina, Georgia and Florida.

Among the resolutions adopted was one which may be said to be the platform of the movement. It sets forth that the proposed deep water way "is demanded by the mutual interests of 30,000,000 people on the seaboard directly and indirectly and ultimately by those of the American people."

The construction of the waterway, it was maintained, would "give gravely necessary and permanent relief to the business of transportation and it will surely result both in stimulating commerce and in reducing the cost of moving commodities."

The resolution favored the digging of the canal by the government and that the present Congress should be urged to take the movement in hand.

It was decided to call the new organization the Atlantic Deeper Water Association and its object is to be the securing of improvements in inland waterways and harbors to the end, eventually, that there shall be an efficient system of waterways permitting the free movement of traffic by water between the various States from Maine to the Gulf.

The following officers were elected: President—Congressman I. Hampton Moore, Philadelphia. Secretary and Treasurer—Addison B. Burke, Philadelphia.

It was decided to hold the next convention at Baltimore in the latter part of November 1908.

Thought Nine Enough. The following amusing birth notice appeared in the Dresden Anzeiger: "To our seven hearty boys there came today, in God's early morning, not the wished for little daughter, but, in compensation, a pair of fine boys. We judge by this elementary event that these strenuous times demand more men than blossoms of the gentler sex, and console ourselves with thoughts of our fatherland, to which we call: "Hurrah! Hurrah! Now there are nine. Firm stand and true the watch on the Rhine!"

"To all dear friends and acquaintances and to whom else the joyous news may be of interest we give this notice—the last of its kind—Eduard East and wife."

A Bargain. Mr. Mason rubbed the edges of the umbrella with discriminating fingers while his wife listened to the saleswoman's enumeration of its good points. "This is \$10, isn't it?" he asked. "Oh, no," replied the saleswoman reproachfully. "It is \$9.89."

"She seems to regard the 11 cents as particularly invidious. I wonder why?" whispered Mr. Mason to his wife. "Not at all," said Mrs. Mason, with mild beat; "nothing 'invidious' about it. Only very naturally it touched the girl not to have you perceive that you were getting a bargain."—Youth's Companion.

Cautious. A five-year-old girl was very ill, and, noting the anxiety of her parent, she said: "Mamma, do you think I'm going to die?" "No, my dear," replied the mother, "we think you will soon be better."

"Well," said the little one, "I'd like to die and go to heaven on a visit if I was sure I could come back if I didn't like the place."—Chicago News.

SOUTHERN COMMISSIONERS.

Dr. Tait Butler, of North Carolina, One of Speakers at Columbia. (By Wire to the Morning Star.) Columbia, S. C., Nov. 20.—The second day's session of the Southern Association of Commissioners of Agriculture and Agricultural Workers began this morning at 10 o'clock. The day's proceedings were of intense interest. The main feature of the day was an address by Assistant Secretary Hays of the United States Department of Agriculture. The Assistant Secretary spoke at length and in vigorous terms along the line of the development of what he terms "Country Life Education."

He advocated in the strongest language the inauguration throughout the United States of a thoroughly organized system of intermediate or high school agricultural education, by districts arranged according to population, character of soil and physical characteristics, the Federal Government furnishing the principal support for the system. Mr. Hays was heard with marked attention and his address made a most decided impression. During the afternoon he had in conference with him each one of the Commissioners of the Southern States in order to thoroughly familiarize himself at first hand with the conditions prevailing in the different States. In the course of the afternoon he accumulated a large amount of information which was transferred to maps and blanks that will be of value to the Department in its future operations.

At the afternoon session the report of the committee on tick extermination and live stock sanitation was presented by Dr. Tait Butler, of North Carolina. The report recommended an appropriation of \$500,000 by the Federal Government for carrying on this work, stating that the present appropriation was too small and the area covered by the government representatives large to materially affect the pest. His report was adopted. President Watson at the morning session appointed a committee from each of the States charged with the opening and handling of the report upon which the annual cotton estimate is to be based. This committee is now at work and the estimates of the cotton crop will be issued tomorrow.

The annual election of officers and the selection of the place for the next meeting went over until tomorrow. It is practically certain that Commissioner Hudson, of Georgia, will be the next President, and that the next meeting will either go to Mississippi, Alabama or Georgia.

The attendance was considerably increased today, among other arriving being Commissioner Wilkinson of Alabama, and Commissioner Patterson of North Carolina.

The entire day was devoted to addresses upon experimental and demonstration work, notable addresses being made by Special Agent B. H. Rawl of the United States Department of Agriculture on "Dairying," and on general subjects by Messrs. Carey, of Alabama; Parker, of North Carolina; Dodson, of Louisiana, and Soude of Georgia.

Tomorrow morning the association will hear an address by Mr. J. H. Patten, secretary of the American Immigration Restriction League, on the general subject of "American Immigration" and particularly as it relates to the South and her agricultural interests.

IT'S YOUR KIDNEYS.

Don't Mistake the Cause of Your Troubles. A Wilmington Citizen Shows How to Cure Them.

Many people never suspect their kidneys. If suffering from a lame, weak or aching back they think that it is only a muscular weakness; when urinary trouble sets in they think it will soon correct itself. And so it is with all the other symptoms of kidney disorders. That is just where the danger lies. You must cure these troubles or they may lead to diabetes or Bright's disease. The best remedy to use is Doan's Kidney Pills. It cures all ills which are caused by weak or diseased kidneys. Wilmington people testify to permanent cures.

R. A. Biddle, clerk at 19 Market street, residing at 606 Castle street, Wilmington, N. C., says: "I used Doan's Kidney Pills myself for kidney trouble and my wife who suffered from backache also used them. I never knew anything to act so quickly. I have suffered for quite a long time with my back and kidneys. The kidney secretions were very dark and full of sediment. My wife also complained of her back, and when we read of Doan's Kidney Pills in our newspapers I went to R. R. Bellamy's drug store and got a box. We used them with best of results. In my case the kidney secretions cleared up and the pains left my back. We have neither of us complained since taking Doan's Kidney Pills, and it is with pleasure that I recommend them at every opportunity."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

HEALTHY PLANTS

Require the Most Careful Attention as Well as Good Soil. Did you ever see a rosebush which, despite the most beneficent environment of soil-of sunshine-and of atmosphere, seemed never to achieve a healthy growth?

A ton of manure will not help a plant that has a canker eating out its heart. You must destroy the cause before you can remove the effect. You cannot cure Dandruff and Baldness by rubbing on hair lotions, and rubbing in vaseline, etc.

You must look to the cause of the trouble—it's a germ at the roots of your hair which causes it to fall out. Newbro's Herpicide destroys the germ, and healthy hair is the sure result. Sold by leading druggists. Send 10c in stamps for sample of The Herpicide Co., Detroit, Mich. Two sizes—50 cents and \$1.00. HARDIN'S PHARMACY, Special Agt.

The Force of Habit.

"Do I snore?" said the fat commercial drummer. "I should say so. That's why I can't use an alarm clock. I can't hear 'em. My snore drowns the best of 'em. And, speaking of the force of habit—I put up once at a crowded country hotel where I had to double up with an acquaintance. I told him I snored a few, but he didn't mind, he said, because his wife was a star in that line, and he had a 'system' to beat it.

"I'll just tap you on the shoulder every time you begin to snore," he explained. "That'll stop you without waking you, and after a little, I'll drop off myself."

"It worked like a charm. I felt his taps for a time, but finally off I went on a dream of \$10,000 salary and 10 per cent commission. Well, sir, when I awoke in the morning there was that chap tapping away at my shoulder regular as clockwork, and he sound asleep. Been at it all night, don't you see? Force of habit!"

And he beamed indulgently on the silent party.—New York Globe.

The Bachelor Maid's Keys.

"Do I enjoy the freedom of a latch-key?" exclaimed the bachelor maid bitterly. "Look at that bunch!" holding aloft a ring full of keys. "Fifteen, and I have to carry all of them all the time. This one is the key to the studio building, this to my own studio, this to my club, this to my hamper at the club, this to my desk, this to the secret drawer of the desk, this to a trunk, this to another, this to my letter box, this to my sewing machine—oh, yes, the woman who comes to clean my studio would do her annual sewing there if I didn't—this to my box in the safety deposit, this to the piano—to keep the woman from using it, of course—this—positively I forget what it is for, but I know I need it often. I'm simply worn out lugging around a wrist bag big enough to hold them all. I assure you, my dear, that if you ever hear I have committed matrimony you may tell all my friends I needed a man to carry my keys for me."

PROF. H. TODD, Palmist

Prof. Todd, the distinguished psychic, palmist and clairvoyant, may be consulted by any one in trouble or doubt of any character concerning any important matter of life. At a glance this great master of secrets knows ALL. He tells you the points just what you wish to know or do and what to expect, giving NAMES, DATES, LOCATIONS, etc., concerning anyone or anything. Secret knowledge and influence placed in your own hands to remove the cause of any trouble, failure, influence, misfortune or unhappiness, and open a quick and sure way for the relief, success and happiness you most desire. Business, love, marriage, divorce, property, money, speculation, family affairs, etc., AN IMPORTANT SECRET TO KNOW. How to change and control the thoughts, actions, habits or intentions of ANYONE, even miles away. Readings strictly private.

This week I will give my full life \$5.00 Reading for \$1.00. Hours 9 A. M. to 8:30 P. M. Located at the PURCELL HOUSE, Front street. Reception room in parlor. Lady attendant.
