HALF BILLION IN LUMBER

That Was the Value For The Last Year. (Special Star Correspondence.)

Washington, Nov. 25.—Washington, Louisiana, Mississippi, Arkansas, and Wisconsin, in the order named, constitute the Big Five in producing the country's lumber supply whose valuation for last year runs far above the half billion dollar mark. Texas, Michigan, Oregon, Minnesota, and Pennsylvania came after the first five States and others followed in decreasing amounts down to Utah, the lowest on the list, with Nevada and North Dakota, having little timbered area, not rated at all.

While the total valuation of the lumber, lath, and shingle production reached \$541,545,640, this amount represents a decrease of twenty-three per cent under the previous year's output. The number of mills reporting was 31,231 and these manufactured 33,224,369,000 board feet of lumber, valued at \$510,575,822 and 2,986,684,000 laths valued at \$6,731,328, while the shingle makers turned out 12,106,483,000 shingles valued at \$24,173,490. The average value of lumber at the point of manufacture was \$15.37 a thousand feet, \$2.27 a thousand for lath and \$2.00 a thousand for shingles.

Yellow pine of the South which has been far in the lead in the lumber production for more than a decade, more than maintained its supremacy last year, contributing slightly more than 33 per cent of the total output from all kinds. Douglas fir of the Northwest ranked second and white pine third. Practically all kinds showed a marked decrease in output, and the first three kinds of timber there was a falling off of 15, 22 and 20 per cent, respectively. Oak and hemlock maintained their relative ranks but showed decreases of 25 per cent each in amount produced, and spruce dropped 18 per cent.

Louisiana was the heaviest producer of yellow pine lumber, supplying nearly one-fifth of the total production. Texas, Mississippi, Arkansas, and Alabama followed in the order named. The State of Washington, alone, supplied more than three-fifths of the Douglas fir cut, while the bulk of the remainder came from Oregon. Minnesota produced about a third of the white pine, followed by Wisconsin with about 15 per cent, and New Hampshire with 10 per cent. An interesting feature of the report is that two New England States, Maine and Massachusetts, produced more white pine than Michigan, which for many years led the country in producing this valuable timber.

Oak lumber manufacture now centers in Kentucky, West Virginia and Tennessee. Wisconsin comes first in the production of hemlock, taking the position held by Pennsylvania for so many years. Altogether the lumber report bulletin, which is free, by the way, contains fifty-seven pages, and gives detailed figures upon the quality and value of forty-five kinds of lumber manufactured in the United States last year. The work on it was conducted under the supervision of a committee of four, consisting of W. M. Stewart, chief statistician for manufacturers and J. E. Wheeler, expert chief of division, representing the Bureau of the Census, and R. S. Kellogg, assistant forester and A. H. Pierson, forest assistant, representing the United States Forest Service.

MESSEHVEY FOUND GUILTY

Convicted of Manslaughter for Killing of Constable Fishburne. Walterboro, S. C., Nov. 25.—The jury in the case of the State against J. W. Messervey for the killing of Dispensary Constable C. P. Fishburne, at Ravenel on July 6th returned a verdict this morning of manslaughter. Judge Dantzier issued a sentence of 20 years in the penitentiary. Messervey on the night of July 6th killed Dispensary Constable Fishburne and Altman at Ravenel while they were attempting to seize a barrel of alcohol which Messervey had just taken from the depot at Ravenel. Messervey was tried at this term of court for the killing of Constable Fishburne only.

Forced into Exile.

Wm. Upchurch, of Glen Oak, Okla., was an exile from home. Mountain air, he thought, would cure a frightful lung-racking cough that had defied all remedies for two years. After six months he returned, death dogging his steps. "Then I began to use Dr. King's New Discovery," he writes, "and after taking six bottles I am as well as ever." It saves thousands yearly from desperate lung diseases. Infallible for coughs and colds, it dispels hoarseness and sore throat. Cures grip, bronchitis, hemorrhages, asthma, croup, whooping cough. 50c and \$1.00, trial bottle free, guaranteed by R. R. Bellamy.

V. P. I. WINS FROM

(Continued from Page 1.) the ball but was tackled on the five yard line by Reynolds. Davis rolled over the line.

Bucknell the Winner. Washington, Nov. 25.—In a hard fought game here today Bucknell defeated George Washington 12 to 6. Bucknell outweighed George Washington considerably and time again again her back field plowed through George Washington's line for the required distance and only once did she lose the ball on downs.

Indians Won Annual Game. St. Louis, Nov. 25.—The Carlisle Indians ran rings around the St. Louis University eleven in the annual Thanksgiving Day game here between the teams today. The final score being 32 to 0. Except for a few moments at the opening of the game when fumbles gave the locals the ball twice within the Indian's ten yard line, St. Louis never even threatened to score.

Penn Wins From Cornell. Philadelphia, Nov. 25.—Wallowing and sliding around on a field that was several inches deep with mud, slush, ice and pools of water, the University of Pennsylvania football team defeated Cornell in the annual game in Franklin field this afternoon by the score of 17 to 6. It was a poorly played game for which the weather and field conditions were in a great measure responsible. Only once on Franklin field in 1898 when Pennsylvania and Cornell played in a snow storm, were the conditions worse than they were today. 20,000 persons braved the elements and witnessed the game.

There was hardly any choice in the teams during the first half which ended in a tie 6 to 6, but Pennsylvania showed the better form in the second half. Neither side, because of the wretched field conditions, could make any great gains by carrying the ball and punting was largely resorted to. Fumbling was the rule rather than the exception and both teams suffered equally in losing the slippery ball.

Cleveland, Ohio, Nov. 25.—Western Reserve University handed the State championship to Oberlin College here today by playing Case school on applied science to a tie with a score of 5 to 5. It was the 17th annual Thanksgiving game of the two schools.

Other Games. Kansas City, Mo., Nov. 25.—In one of the hardest fought games ever witnessed here the University of Missouri football team defeated the University of Kansas, they winning the Missouri Valley championship. The score was 12 to 6. Both teams went into the game with a clean record, neither having been defeated this season.

South Carolina Won. Charleston, S. C., Nov. 25.—South Carolina defeated the Citadel this afternoon by the score of 11 to 5, although the Citadel clearly outplayed its opponents on both offense and defense and lost by a stroke of luck in the second half in which half of all scores were made. Rawls, Carolina's right guard, had his collar bone broken in the second half.

At Philadelphia: Pennsylvania 17; Cornell 6. At Easton: Lafayette 5; Dickinson 0. At Morgantown: West Virginia 5; Washington & Jefferson University 18. At Birmingham: Alabama 6; Louisiana 12. At Lexington: Kentucky 15; Central University 6.

At Richmond: Randolph-Macon 29; Richmond College 3. At Newport News: William and Mary 15; Hampton Sydney 8. At Charleston: South Carolina 11; Citadel 5. At Sweetwater: Tennessee Institute 11; Chattanooga High School 11. At Norman Park: Norman Park 0; Mercer 26. At Pittsburg: Pennsylvania State 5; Pittsburg 6. At Carnegie Tech 6; Carlisle 32.

LITTLE ROCK MURDER TRIAL

Jury Refused to Adjourn For Thanksgiving—The Evidence. Little Rock, Ark., Nov. 25.—The jury which is trying W. Y. Ellis, of Pine Bluff, for the murder of Nathaniel Parker Willis, of Indianapolis, sat in session throughout the court refusing to adjourn for Thanksgiving and listened to letters written by Willis to his little daughter, Mary Francis Willis, the innocent cause of the tragedy, which occurred in a court room here last Summer. The letters breathed affection and at times genuine pathos, and were introduced in part to show the strong love of the father for the child. The father's fight to regain possession of the child led to the tragedy.

The letters were the feature of today's developments at the trial aside from two witnesses whose testimony form important links in the chain of evidence, the defense trying to establish that Ellis was insane when he shot down the Indiana man. These witnesses Dr. W. S. Stewart, of Pine Bluff, Ellis' physician, and Ashley Peay, clerk in a court room here where Ellis stopped on the day of the tragedy, both told of the peculiar actions of the accused man shortly before the tragedy. Chancellor John M. Elliott, of Pine Bluff, was introduced, as a character witness and then told of an application made Ellis for advice on a letter received from Willis. He got no further than a description of Ellis' appearance and condition, when an objection from the State stopped him and he was temporarily excused until the court rules on the disputed points.

ALCOHOL IN MEDICINES.

Alcohol is the best known preservative of medicinal compounds, and the average proprietary medicine contains from 15 per cent to 22 per cent, which is the smallest possible amount to preserve the ingredients, while the average doctor's prescription contains from 25 per cent to 50 per cent. Such standard preparations as Lydia E. Pinkham's Vegetable Compound contain but 18 per cent, and they even put the Compound up in tablet form, which the over-scrupulous woman, who objects to alcohol in any degree, may use.

AT BINGHAM SCHOOL

Visit From Dr. Stiles—Enjoyable Sociable—Distinguished Cadets.

The Bingham School, Mobane, N. C., Nov. 25.—Dr. Charles W. Stiles, the famous discoverer of the American hookworm, who lectured at Bingham, last session, has recently made another visit to relatives in the vicinity of the school. Dr. Stiles is an earnest, practical, tireless worker in the realm of science and we believe that the South will come to regard him as one of the greatest benefactors that it has ever had. There is no doubt about the existence, widespread prevalence and terrible results of the hookworm disease, and we feel that every one ought to join earnestly in the general sanitary campaign which Dr. Stiles and his associates are going to set on foot.

An enjoyable sociable was recently held at Bingham, which was attended by the cadets and some of the young ladies of the vicinity. A number of beautiful selections were rendered by the Bingham Military Band, and also by the Bingham Orchestra. Capt. Mangans, who is a trombone artist, rendered a solo with great skill. The evening passed pleasantly with interchange of wit, humor, and the enjoyment of social amenities. The students distinguished in studies and conduct for the month of October are as follows, the names being given in the order of standing, namely: Isabella Graham, Albert Holten, Daniel Cabral, Bruce Cameron, Ralph Holmes, Luther P. Sykes, Leonard P. Wessel, Cary Dowd, Paul Gwynn, J. Holmes, Girard King, Walter Kuloth, Kessler Cobb, Bingham Gray, Herbert Gray, Miles Goldsby, Joe Long, Lacy Morrow, Wilford Carr, Harry Gardner, Ralph Guthrie, John Moore, Donald Powell, William Ralph Herbert Craig, Tyler Campbell, Carl Moore, Grady Ralph.

This promises to be the banner year in athletics at Bingham. A most successful football season has just closed and the cadets are now busily engaged in the practice of baseball and tennis. The track team this season will be unusually fine and we are looking forward to establishing a record in the 100-yard dash, there being several exceedingly fine sprinters among the cadets. In a later article we will review the record of our team in football.

THANKSGIVING AT "THE POINT."

Hunters Galore. Sumptuous Dinners. Hog Killing and Everybody Sober. (Special Star Correspondence.)

Rocky Point, N. C., Nov. 25.—Thanksgiving has been honored in a quiet way here. Quite a number of hunters from Wilmington are looking for deer, turkey or anything wild that runs or flies. The legal department of Wilmington is represented by Theodore G. Emple, who also has an eye open for poles and ties; the professions of Dr. J. H. Durham; the banking interests by J. H. Durham, Jr.; the War Department by Lieut. E. Simon Loftin; the mercantile life by R. Lee Holmes, and hardware by D. H. Cole. They report from the field of carnage a brace of duck, squirrel, crow, a lark and a pair of jays. Game always seems gun-shy on Thanksgiving and the "Point's" reputation as a game repository don't always make good then.

Quite a number of visitors are here for the day. The public schools have suspended. The fatted gobbler, the old ham and collards, the fat, yellow hen, Rocky Point all-pork sausage and other viands have been dispensed, not forgetting the orphans at Barium Springs, Raleigh, Oxford and to pound the preachers.

The stores are closed this P. M. and it seems like Sunday. Some of the young people have gone boating on Northeast river. The present cool weather has been taken advantage of to kill pork for our farmers. The year's greatest Thanksgiving for the day is: Nobody here is drunk, nor drinking, strictly dry.

Money For High Schools.

News and Observer: The number of public high schools in North Carolina are on the increase, and there is now being sent out from the office of the State Superintendent of Public Instruction warrants for \$49,675 for these schools. There are now in the State 175 public high schools, an increase of sixteen in the past year. There are eighty-nine counties in which there are public high schools; in four counties four schools each; in thirteen counties three schools each; in twenty-one, one school each. In nine counties there are no public high schools of this class, these counties being Brunswick, Chowan, Davie, New Hanover, Pasquotank, Perquimans, Stanley, Tyrrell and Yancy.

A Scalded Boy's Shrieks. horrified his grandmother, Mrs. Maria Taylor, of Nebo, Ky., who writes that, when all thought he would die, Bucklen's Arnica Salve wholly cured him. Infallible for burns, scalds, cuts, corns, wounds, bruises. Cures fever-sores, boils, skin eruptions, chilblains, chapped hands. Sooty routs piles. 25c at R. R. Bellamy.

CHILDREN may safely be allowed to eat more candy—if it is NUNNALLY'S. Made of the finest materials, absolutely pure, in candy-kitchens where care and cleanliness are perfect. The result is several hundred kinds of candy, each of which is a wholesome product of Nature's own materials.

Nunnally's A fresh supply always kept by J. HICKS BUNTING DRUG CO. "None Like Nunnally's."

In reading store ads most people are looking for definite information about some particular article—hence merchants should quote prices always.
