

Table with 2 columns: Time Period (1 Year, 6 Months, 3 Months, 1 Month, 1 Week) and Price.

Post Office Money Orders may be obtained in all the cities, and in many of the largest towns. We consider them perfectly safe, and the best means of remitting fifty dollars or less.

Subscription Price.

The subscription price of the WEEKLY STAR is as follows: Single Copy 1 year, postage paid, \$1.50; 6 months, 1.00; 3 months, .50.

Clubs of 10 or more subscribers, one year, \$1.25 per copy, strictly in advance. No Club Rates for a period less than a year.

Both old and new subscribers may be included in making up Clubs. At the above prices the WEEKLY STAR is, we think, the cheapest paper in the State, and its circulation will be doubled in twelve months, if those who have worked for its success in the past will increase their efforts in the future.

EX-GOVERNOR BIGLER'S PROSPECTS FOR BEING THE NEXT DEMOCRATIC CANDIDATE FOR GOVERNOR OF PENNSYLVANIA are brightening every day. Indeed, he seems to be almost without rivals now. Ex-Governor Curtin thinks Mr. Bigler will get the nomination, that ex-Secretary of State Eli Slifer will be nominated for State Treasurer, and that the ticket will be elected.

THE PROCEEDINGS ALREADY ANNOUNCED as having been taken to reopen the celebrated Beecher case may well awaken dismay and disgust. It is a pity this foul case cannot be kept under the sod, but must be spread out again in all its nauseatingness before the world to offend the moral taste, hurt the plastic character of the young and do an amount of injury generally to society that is simply incalculable.

It is a pity this foul case cannot be kept under the sod, but must be spread out again in all its nauseatingness before the world to offend the moral taste, hurt the plastic character of the young and do an amount of injury generally to society that is simply incalculable.

OUR LITERARY LETTER.

THE WASHINGTON CHRONICLE has defined its position again. It wants to make treason odious by punishing the Southern leaders; then it will "forgive and excuse the masses." To which remarks responds the Richmond Enquirer: "Why bless its innocent soul, there is now no reason to be made odious, save that which exists in the Radical camp; and as for the masses of the Southern people, they feel that they have rights in the Union as great as those enjoyed by any of their fellow citizens, and all that they ask is to be permitted peacefully to exercise the constitutional prerogatives of self-government. Surely there is nothing in such constitutional demands to alarm any real Northern patriot."

THE NEW ORLEANS PICAYUNE furnishes the gratifying intelligence that "never before in the history of Louisiana have so many white men taken an active part in the practical details of agriculture, and it is at least a singular coincidence that seldom, if ever before, has there been a crop so promising in all respects" as that now on the ground. It concludes that white men can endure field labor in that climate.

WHEN WHITE MEN vote well and work well, when croaking is at a discount, when all white men in the South conclude to stand together for the weal of their race and the general good of the Southern States and of the whole country, then may we hope to see a return to the days of prosperity and plenty.

IT IS SAID THAT A steamer running twenty-one miles an hour can go from the coast of Nova Scotia to the British coast in four and one-half days. This fact is taken hold of by a London paper to urge the project of establishing a line of steamers on that route for carrying passengers only, as freight cannot be economically shipped thereby. At present, the ocean voyage occupies nine or ten days, and all the steamers carry heavy freights, on which they mainly depend for their income.

GOV. HENDRICKS ON FINANCE. Gov. Hendricks is a gentleman whose opinions are usually expressed with great deliberation, and are entitled to as much consideration as those of any American statesman. He is an able and discreet politician. In a recent interview the distinguished Governor of Indiana made his first communication on the vexed subject of the currency. He is reported as having said: "I want Governor Allen, of Ohio, elected. I do not want two kinds of money, each with a different value. We must get to a specie basis as quick as we can naturally. Things must take their own course, but they must end in one medium of trade, and that must be hard money. In the meantime I want the volume of currency kept equal to the wants of trade."

THE PLEDGETON-ALLEN platform, as near as we can judge, further on in the interview Gov. Hendricks is reported as opposing "inflation," if he must take his position on one side or the other. The Governor then stands with his companions in Ohio. They say they are opposed to inflation. They are working for a "flexible" currency, but not an easily-depreciated currency.

A DEMOCRATIC STATE.

IN 1865 the taxable property of Georgia was \$125,835,870; now it is \$273,092,000, more than doubling since the war. There are 35 railroads in the State, an aggregate length of 2,300 miles. The State debt is only \$8,105,000, and this partially offset by property owned by the State worth six million dollars, leaving the net indebtedness only about \$2,000,000. It has \$3,502,000 invested in cotton and woolen mills, \$735,100 in iron foundries and \$800,000 in tonnage.

OUR LITERARY LETTER.

THE STUDY OF THE lower animals should be occasionally interesting, just now, when Science assumes so authoritative, and with such a series of amazing illustrations, that man is merely at the head of the animal creation, having ascended the infinite gradations from the "insect" to the orang-outan and thence upward to his present lordly position!

A BIG BEAR HUNT IN FENDER COUNTY.

ON TUESDAY last about dark the attention of Mr. Thomas J. Lee, of Holly Township, Fender County, was called to the squealing of a hog. Feeling that a bear had settled upon his farm, he at once summoned several of his neighbors, armed with their double-barrel shot guns and provided with dogs the party, comprising some of the best hunters of the vicinity started forth to bring down the animal. This was on Wednesday morning a little before daylight. Pretty soon Mr. Lee discovered an old female bear and three cubs. He took deliberate aim at a distance of seventy odd yards, fired and brought the mother to the ground. In a few moments she arose and walked rapidly toward the marksmen. He then gave her the contents of the contents of the other barrel, which again stunned her. Soon, however, she was up and beat a retreat to cover in good though rapid order. Seeing the old bear had received a mortal wound, Mr. Lee turned his attention to the cubs and drove two of them up a tree. Here he was joined by Mr. J. M. Lee. Two of the cubs were despatched by five side shots.
