WHEAT AN ELOQUENT SOUTHERNER.

Judge John H. House, of Tennessee, now a member of the House of Representatives, is a speaker of unusual eloquence. We have often admired his glowing and finished rhetoric.

In the next contest between the two great parties they will divide upon governmental policy, and without sectional animosity. Sectional hatred will be eliminated from the contest.

THE CONTEST IN THE SECOND DISTRICT: Jim Harris is the Kinston nominee of the Radical party for Congress in the Second District.

Well, what manner of man is Jeemes? He is a negro of no little smartness. He is the best speaker we have heard among his race in this State.

THE OLD GAME: We had thought that the old way of bamboozling the "colored man and brother" had been abandoned forever.

One of the arguments used by the Republicans to get their people to vote—and a most unworthy one it is—is, that if this District is carried by the Conservatives, and the Democrats control the country, the negro will be relegated to the condition of slavery.

Over this way the game is different. It is no longer the promise of forty acres of land and a mule; nor is it a threat that the Democrats will try to return the negroes to a condition of slavery.

A new idea has been broached as to an affinity between electricity and yellow fever—that there is a naturally attractive force between malaria and "undeveloped electric fluid."

Without scientific comment a few facts may be stated in this connection, and left to wiser heads to culminate in a plausible theory.

First—Among the constant workers the telegraph operators are the fewest in number.

Second—They are not directly exposed.

Third—If they are infected by contact with other workers, the latter must be physicians, nurses, or members of relief societies, who send messages and are more exposed than the operator.

Fourth—They are exempt from the harrowing sights of sickness, death, and, necessarily, melancholy and revolting burials.

Fifth—They have the disinfecting advantage of batteries added to sanitary disinfection.

Sixth—They are not worked so hard as physicians or nurses.

Seventh—And lastly, while their sickness and mortality together is at least 90 per cent, that of other workers and citizens does not exceed 30 in the worst infected localities.

Ex-President Davis, when he little thought he would be so soon bereaved of his own and only son, wrote this to a friend:

The noble generosity of the Northern people in this day of our extreme affliction has been felt with deep gratitude, and has done more for the fraternalization of which I have written than would many volumes of rhetorical assurance.

JOE HOOKER ON FEDERAL GENERAL.

It need not be told our readers who Gen. Joseph Hooker is. He is a really gallant Federal officer who was known in both armies as "Fighting Joe."

It is good reading, and we can all enjoy it. We heard a Federal officer say in 1865 that Grant was more indebted to the silence of the Generals of the army for his reputation than any man who ever lived.

ARREST OF JAMES HEATON AND HIS COMMITMENT TO THE COUNTY JAIL.

Yesterday evening, about dark, James Heaton, whose arrival in this city was chronicled in Thursday morning's STAR, was arrested at the corner of Second and Market streets by Special Deputy Simon Richardson, colored, who was armed with two capstoes, ten from the Clerk of the Criminal Court of New Hanover county for embezzlement, one for an affray, and one from the Clerk of the Superior Court of Pender county for assault and battery.

His bonds were fixed at \$300 in each case, or \$2,400 in all, which he failed to furnish, and he was thereupon committed to the county jail.

The charges of embezzlement are based on transactions of Heaton while he was Clerk of the Superior Court and Judge of Probate; the affray was committed between himself and Daniel Howard, jailor, which is familiar to our city readers; and the assault and battery referred to was the difficulty between him and Mr. F. W. Foster, which occurred at Burgaw some months since, when Heaton made an assault upon Foster and narrowly escaped being shot by him.

The Lumberton Shooting Case: We learn from the Express Messenger on the Carolina Central Railway, who arrived here last night, that the condition of Mr. Hartman, who was shot by Miss Amelia Linkhaw at that place on Thursday morning last, was considered much more favorable, and that hopes are now entertained of his ultimate recovery.
