The U.S. Navy builds ships of our live oak, fits them with our naval stores, and fills their tanks with wine colored (resinous) water from our Eastern streams, that never putrifies. Fertilizers are at hand; lime in the West; shell-marl and muck in the East; pea fallow and cotton seed everywhere. Fruits, from the apple to the fig, in profusion. First premium awarded to North Carolina apples at Philadelphia Centennial. Fruit season begins in May; lasts till November. Grapes (100 varieties) and all manner ot berries are indigenous. Cranberries and strawberries grow wild. Grasses luxuriant; clover breast high; orchard grass worth \$30 per acre. The U. S. Agricultural Report gives North Carolina the highest yield of bay per scre of any State, except New York, between Maine and Texas.

Minerals of 150 different kinds in 70 counties. Gold yield above \$160,-000 annually. U. S. mint reports, to June 30 1877, one half the gold product east of the Mississippi dug in North Carolina. Largest nugget in America, 28 pounds, came from Cabarrus county. "Chuncks" weighing 16,131, 91, 81, 8, 5, etc., have also been found. A two pound "brick," and one weighing 38 pwts., were picked up by children last year in different counties.

Dr. Wilkins has 6,000 tons of sil-ver ore above ground; and 150 mines House, who made the usual announceat work. A roasting furnace has just started at Charlotte. Mica is very plentiful, with leaves 10 to 20 inches square. Corrundum (and emery) in 20 counties; a shoemaker at Franklin picked \$1,000 worth off the surface of his half-acre patch. 200 square book. miles of copperas in one locality; and 300 square miles of coal in another. Admiral Wilkes, acting as Government expert, pronounced the latter equal to "the best Cumberland coal." Soapstone, whetstone, asbestos, plumbago, etc., found in large quantities. Iron (the best malable and magnetic ore in the world) is inex haustible. A number of companies have declared dividends exceeding 25 per cent. this year. Twenty-one different varieties of marble, equal to Italian in purity and polish, exist in quantities. A million pounds of medical herbs sold by a single firm yearly. More than 200 mineral springs of value. The mineral lands are mainly in Centre and West; but Eastern Carolina has co-equal advantages. Herinland fisheries (shad, her ring, mullet, perch, trout, etc.) yield \$500,000 a year and employ 4000 men. Her naval stores, cotton, rice, peanuts, sweet and Irish potatoes, yield mil-lions annually. One hundred miles from the coast is the finest trucking The contested election from region in the Union. Truckers make double crops; green peas, (sold in New York) \$125 per acre; then a \$50 bale of cotton. Others make \$100 in potatoes; \$50 in cotton, per acre. Grow-ing season lasts from February to November. One man at Goldsboro, last year, made \$550 on three acres of strawberries; then 25 bushels corn per acre. Another cleared \$2,600 from eight acres in berries; then raised corn. Geo. Allen, Esq., of Newbern, is preparing a certified list of 1,000 farmers raising more than a bale of cotton per acre. Around Raleigh for 100 miles is the home of that fine "yellow" tobacco, whose puff reaches to all lands, and pays from \$1,200 to \$2,000 per crop. It has converted the single house whereat Sherman received Johnston's surrender, 15 years ago, into the town of Dorham with 3,500 inhabitants, and factories paying nearly half a million dollars annual revenue tax. This crop is increasing millions pounds yearly. It may be added that although now an agricultural State, North Carolina is destined to become a manufacturing one. .. She has 200 streams with a combined water-power of \$,000,000 horse-power, equal to the entire steam power of New England. She has plenty of room, plenty of fuel, cheap labor, cheap living, no interference by ice or storm; and the material at the door. Her profits today are greater than those of New Eogland. For example, by the census of 1870 Massachusetts invested kins and Hampton. in manufactures \$231,677,862, and realized thereon a profit of 28 per cent. North Carolina invested \$8,140,473, and realized 50 per cent. So in agriculture, same year, we had \$90,635,050 in farms, tools and labor. Our products sold for \$57,845,940 or sizty per cent. ## THE LEGISLATURE.

Raleigh News-Observer Report Condensed. SENATE.

WEDNESDAY, January 5, 1881. The Senate was called to order by Mr. R. M. Furmau, Secretary of the last Senate. Forty-two Senators elect presented their oredentials and were duly qualified, Hon. J. A. Gilmer administering the oath.

In the 33d district there was a contest. H. C. Hampton had a certificate from the sheriff of Surry county and John M. Brower had one from the sheriff of Yadkin county. It seems that a large number of votes were cast for Columbus Hampton. Counting these for Mr. Hampton, whose name is H. Columbus Hampton, he would have a majority of eighty three. The chair decided that neither of the gentlemen had a certificate in proper form, and left the matter open for the Senate to deal

with hereafter. The Secretary then announced that forty-two Senators baving appeared and qualified, the Senate was ready to proceed to business. The first in order was the election of a President pro tem. Mr. Staples nominated Mr. Dortch, and Mr. Scott, of New Hanover, nominated Mr. Spears. Messre. Glenn and Williamson were appointed tellers, and Mr. Dotch was elected, receiving thirty votes to eight for

Mr. Spears. Mr. Dortch was escorted to the chair by Messrs. Staples and Scott, of New Hanover, and said: "Senators-I am under many obligations to you for the honor you have conferred upon me. All that I will now say to you is that I shall endeavor to discharge the duties of the office conferred on me in such a manner as

to give you satisfaction." (We have published already the election of clerks. STAE.) For doorkeeper Mr. York nomi-

to the South, is still more so as to the North, That which is surest to disintegrate is the Republican system of bribery and corruption. Such a system cannot last. The fact that it only won last November by a narrow margin of votes, that its majority is made of negroes, and that on the basis of the white votes Garfield was beaten by half a million, shows that the Republican organization is a sham and a shadow, to pass away in a short time; whereas the tremendous poll of the Democrats against such an array of odds proves that it is the only true, stern and lasting reserve of the nation .- Forney's Progres.

Is a compound of the virtues of sarsaparil-la, stillingia, mandrake, yellow dock, with the iodide of potash and iron, all powerful blood-making, blood-cleansing, and life-sus-aning elements. It is the purest, safest, and most effectual alterative medicine known or available to the public. The sci-cuces of medicine and chemistry have never produced so valuable a remedy, nor one so potent to cure all diseases resulting from impure blood. It cures Scrofula and all scrofulous diseases, Erysipelas, Rose, or St. Anthony's Fire, Pimples and Face-grubs, Pustules, Blotches, Boils, Tumors, Tetter, Humors, Salt Rheum, Scald-head, Ring-worm, Ucers, Sores, Rheumatism, Mercurial Disease, Neuralgia, Female Weak-nesses and Irregularities, Jaundice, Affections of the Liver, Dyspepsia, Emaciation, and General Dobility.

By its searching and cleansing qualities it purges out the foul corruptions which contaminate the blood and cause derange-ment and decay. It stimulates and enlivens the vital functions, promotes energy and strength, restores and preserves health, and infuses new life and vigor throughout the whole system. No sufferer from any dis-ease which arises from impurity of the blood need despair who will give AYER'S SARSAFARILLA a fair trial.

SARSAFARILLA a fair trial. It is folly to experiment with the numer-ous low-priced mixtures, of cheap materials, and without medicinal virtues, offered as blood-purifiers, while disease becomes more firmly seated. AVER'S SARSAFARILLA is a medicine of such concentrated curative power, that it is by far the best, cheapest, and most reliable blood-purifier known.
