Ague Cure

Is a purely vegetable bitter and powerful tonic, and is warranted a specify and certain cure for Fever and Ague, Chills and Fever, Intermittent or Chill Fever, Remittent Fever, Dumb Ague, Perfodical or Bilious Fever, and all malarial disorders. In missinate districts, the rapid pulse, coated tongue, thirst, lassitude, loss of appetite, pain in the back and loins, and coldness of the spine and extremities, are only premonitions of severer symptoms, which terminate in the ague paroxysm, succeeded by high fever and profuse perspiration.

It is a startling fact, that quinine, arsenic and other poisonous minerals, form the basis of most of the "Fever and Agne Preparations," "Specifics," "Syrups," and "Tonics," in the market. The preparations made from these mineral poisons, although they are palatable, and may break the chill, do not cure, but leave the malarial and their own drug poison in the system, producing quinian, dizziness, ringing in the ears, headache, vertigo, and other disorders more formidable than the disease they were intended to cure. Aven's Ague Cure thoroughly eradicates these noxious poisons from the system, and always cures the severest cases. It Aven's Agun Gunz thoroughly eradicates these noxious poisons from the system, and always cures the severest cases. It contains no quinine, mineral, or any thing that could injure the most delicate patient; and its crowning excellence, above its certainty to cure, is that it leaves the system as free from disease as before the
