THE GREAT OVERFLOW.

-Atlantic.

The Waters Receding-The Sufferers Numbered by Thousands-Large Numbers of People Reduced to Cannibalism-Distribution of Supplies.

[By Telegraph to the Morning Star.] MEMPHIS, March 18.—The river declined two inches to-day, and now marks 35 feet 2 inches on a guage. The government steamer C. B. Reese has arrived and will be provisioned to supply the needy at points below. Maj. Benham, of St. Louis, will arrive to-morrow and take charge of the distribution. Lieut. Vedder left to-day to investigate the suffering below, via Vicksburg. Capt. Loud departs to-morrow

Reports from below are all to the effect that the river is gradually falling from Memphis to Vicksburg.

A Helena (Ark.) special says the river declined two and a quarter inches in the last twenty-four hours. The overflow, however, fell less than one inch. Beyond

this there are no notable changes. The St. Louis Democrat's dispatch tug, Safford, touched here at 3 P. M. to-day, re maining a few minutes. Cries for assist ance are heard from every quarter, and every effort is being put forth by private citizens to render such relief as is in their power. The continued fall in the river has infused new life into the people generally, and they are most jubilant, but are temperately prudent for the future.

ST. Louis. March 19 .- The Globe-Democrat's dispatch boat reached Helena, Ark., yesterday evening. The river had fallen two inches at that point. The Arkansas Midland train went through to Clarendon for the first time in nineteen days, running in water a foot deep. The overflow has departed from Clarendon, except in the lowest places, while the river is falling rapidly.

Judge Mangum, Commissioner for Arkansas, who has established his headquar-

ters at Helena, says that he has 25,000 per-sons on his list who are now being fed by the Government, and on half rations at that. He says the number will be largely in-creased now, as he can reach from Helena a much larger number than from any other point, that being about the centre of the greatest suffering. He thinks the Government will have to feed the people for month. There is very great suffering in the region round about Helena. Some are reduced to eating the carcasses of drowned animals, and others presenting the appearance of persons going insane from starva-

H. S. Montgomery, President of the Merchants' Compress and Storage Company, stated that he thought that not more than half a crop of cotton could be raised this year. The overflowed district, he said, produced more than 1,000,000 bales, and even if the waters subside rapidly, of which there is no prospect, not more than half of the acreage can be planted. Other persons, however, take a different view of the situa-tion, and think the land will be prepared in season for planting, and that a fair acreage crop will be raised.

NEW ORLEANS, March 19 .- A dispatch was received to day at the State Engineer's office, from Assistant State Engineer Brown, reporting that he had just returned to Baton Rouge from Londry crevasse, in Ascension parish. He says sixty feet of the levee are gone, but thinks they will close it, a large force of laborers from the adjoining plantations being present.

The Story crevasse below the city is now regarded as beyond control, and no effort will likely be made to close it. Soundings made to-day show the crevasse to be ten feet deep and two hundred feet wide. The water from this crevasse will flow into Ship Island canal and Lake Borgue, doing but little damage except to Story's plantation, where there were five hundred acres of stubble and two hundred and fifty acres of plant cane. This will doubtless be almost

The ends of the levee on each side o the break at Live Oak Grove crevasse have been secured, and the belief is that the break will be closed. News is received almost daily at the State

Engineer's office of the closing of small threaks in the levees between New Orleans Mempus, March 19.—The river fell two

inches to day, and is falling steadily at all points. At Helens, Arkansas, it fell two inches, and the outlook there is much brighter. As soon as the water ceases running through the excesses below that city the overflow can easily be drained off from the city. The country south of here is swarming with buffalo grats, and much stock that was saved from drowning by the overflow is being killed by these insects.

MEMPHIS, March 19.—A speech from Helena says that the latest advices from upper St. Francis river report that the people in that section are almost reduced to cannibalism, and that they have eaten carcasses for some days, and now have all the appearances of persons about to become insane from st rvation.

NEW ORLEANS, March 20 .- A special from Vicksburg to the Times-Democrat, dated midnight, says the river has risen one inch in the last twenty-four hours and is now stationary.

Telegrams from Yazoo City report no change in the condition of affairs there. The steamer Carroll arrived there to-day with three hundred and fifty mules and other stock and one hundred and fifty refugees from the overflowed section. It is believed that the river at Yazoo City will be at a stand to-morrow. It has fallen an

be at a stand to-morrow. It has fallen an inch at the Rick's place above there.

The steamer Headlight, from Davis' Bend, brought to Vicksburg two hundred head of stock and three hundred peeple, the najority of whom are in the most destitute condition. She reports Kamock, Hurricane and Big Block Islands as completely submerged, not a strip of land being visible in that entire section. At Palmyra and Davis' Bend about three hundred myra and Davis' Bend about three hundred acres of land are still above water.

The steamer Dickson, from Eagle Bend, brought seventy five head of stock and seventy-five people. She reports that the levee immediately in front of Milliken Bend was broken last night. The crevasse is now one thousand yards wide.

When the steamer Belle of Memphis passed the Eddrington place, last evening, the water was running over the levee. A further rise of an inch or so will put that

fine plantation under water. Rise and Fall of the Waters-Negroes Drowned - Refugees Crowding the Levees - Damage Caused by Back-

water. [By Telegraph to the Morning Star.] VICKSBURG Miss., March 20,-The steamer Carroll strived this morning from Yazoo river She has moved about 1,000 horses and mules from plantations to Yazoo City. She reports the river at a stand at Schula

The water is rising in Delta, opposite this city. A strong current has set in through

erson Thomas was drowned at De terday. He was in a canoe loaded with provisions and it capsized. Two negroes were drowned Friday at Mrs. Jones' place, in Madison Parish, by the upsetting of a skiff. At Marcella one house has fiftyseven white people in it. Yazoo river is now on a stand at Burtomia and falling at the head of Honey Island. Tallahatchie riyer is also falling. At Talluh Landing, Miss., there is no water on the levee, and it is crowded with families from the back country. At Shiloh Landing, there is much trouble from back water, but the front of the levee is intact. At Almtree the levee

At Samuel Nelson's, in chute 97, the back water has commenced rising at the rate of eight inches in twenty-four hours. He has about seventy-five acres free from water, on which he has two hundred and thirteen persons needing rations. Also, one hundred head of mules and horses, two hunired head of sheep and two hundred head

At Tennessee landing the back-water is three feet higher than the river and is run-ning over the levee into the river. At Moqua Vista, the back-water commenced rising on Friday night and on Saturday night the water was running over

the levee into the river. In the house of Mr. Chapman, at this place, there are thirty people in the second story, and out-side there is not a foot of land visible. The water rose suddenly and there were many narrow escapes from drowning.

At Chotard the levee is all right, but the back-water is rising into the river. There are about two hundred negroes camped around the small church on the land at this

All this water is from Steele's Bayon, Deer Creek, and Sunflower and Yazoo rivers. There are at least ninety people between Chotard and Moqua Vista, mostly colored, who will have to be supplied with

At Brunswick Point the back-water is unning into the river and a large number of cattle have been lost. This is the first high water they have had there in fifteen

The whole of Eagle Bend county is under water. B. H. Kiger will lose fully \$5,000 worth of stock. Buckhorn Creek is at east half a mile wide and ten feet deep. The water is spreading all over the counry and people are on top of houses, waiting

James A. Stone and Jos. B. Stone, at Omega, rescued ninety people by means of

Vicksburg, March 20.-The levee at Lovell's Palmyra landing gave way last night, and there is fourteen feet of water there. The whole of Hurricane Island is now completely under water. Captain Leathers expresses the opinion that in three days there will not be an acre of land visible in Tensas parish. Passengers on the steamer White say that the levee at Milliken cannot possibly hold out if there is any further rise in the river. News from the tributary treams, the Yazoo, Tallahatchie and Sunlower, adds to the gloomy aspect of affairs. Cattle are receiving no attention, all efforts being directed to the preservation of horses and mules. Refugees and stock continue

o arrive at this point in large numbers. YAZOO CITY, March 20.-The water at this point is two feet above the mark of 1867, and has risen one inch in the last twelve hours. At this rate it will hkely reach its maximum point to-night or to-morrow morning. Boats from above report the water at a stand, and the excitement is subsiding; but each steamer brings people and stock. A large per cent. of the refugees are negroes, who with few exceptions are provided for by the merchants and planters who have them employed. Some have gone to the hills to work temporarily, and is yet there is no suffering. Some have re-

mained in town, refusing to work.

At this point to the overflowed business houses of this city have had scaffolds built in them and business continues, Yazoo City has an extra police force on duty, night and day, and with the exception of a few cases of petty larceny no violations of the law have occurred.

Further Reports From the Submerged Districts - Reports of Fearful Dis-

BATON ROUGE, LA., March 21.—General York, agent appointed to distribute forage, telegraphs the government from Troy, La., reporting the distribution of forage on Black River. He says that the country is in fearful distress. There is much stock on the Black, Tensas and Little river, which must be fed to says them. which must be fed to save them. Corn and oats shipped by the steamer St. John will be distributed to-morrow on Tensas. Gen. York advises the shipment of forage for stock on all the streams above mentioned; also on Macon and Bartholomew bayous. He reports that the river is rising rapidly, and says that he chartered a steamer to remove the stock.

LITTLE Rock, March 21.—Dispatches received here this morning announce that the levee at Terrene, Miss., caved in last night. Several stores were washed away. No particulars have been received.

Vicksburg, Miss., March 21.—A heavy

wind and rain storm occurred here last night and a strong northwest wind is blowing to-day, producing heavy swells on the river, which it is feared will cause new

All the boats bring large numbers of refugees, mostly colored; laborers at Mayes-ville are being supplied by planters and the will be ready to go to work as soon as the water falls.

The Tallahatchie and upper Yazoo rivers are declining rapidly. There are large numbers of acres of land free of water. At Greenwood the water is falling, though the place is still submerged and the court house filled with people.

The Waters Subsiding-Stories of Distress and Suffering -- Government Relief Measures-A Helief Organization Formed at New Orleans.

[By Telegraph to the Morning Star.]
VICKSBURG, March 22.—The river is falling at this point and also along the Yazoo, nflower and Tallahatchie rivers. At Chotard, nearly opposite Alsatia, the cre-vasse water has fallen about eighteen inches. Capt. J. S. Loud, U. S. A., who arrived on the steamer Commonwealth, says that at Lake Providence and vicinity there are about 1,500 persons, and from the Arkansas line to the Southern line of East Careoll Parish, not less than 3,000 whites and blacks, who will require rations for the next thirty days; and that in Madison Parish there are at least 2,000 persons who will have to be assisted for the same period.

St. Louis, March 22.—A newspaper correspondent on the government relief steamer Anita, up the Sunflower river and some of its tributaries. gives a graphic description of the scenes along their banks among the poor people who for many days have been camping on dry spots of ground or up in the lofts of houses, or huddled on roofs. Many of them were suffering from hunger, and all were utterly destitute, having lost everything they possessed. Up to Sunday night, the Anita had picked up and taken to what are known as "Harris' Mounds," which are large and high, nearly 1,000 people, mostly negroes. They are camped in the open air, but they will be supplied with food until the flood subsides and they can take care of themselves.

New Orleans, March 22.—To date ra-

NEW ORLEANS, March 22.—10 date rations have been issued to 22,000 people for fifteen days, which will soon be exhausted. The commissioners have applications for rations for 40,000 people. This number cannot be supplied unless additional donations are received. Provisions will be shipped daily by outgoing steamers until all are supplied or the supply is exhausted. Stock is reported to be dying by hundreds. Apwith energy and industry.

be able to plant their crops, even if the water recedes in time, on account of the

The Cotton Exchange, Produce Exchange, Board of Trade and Board of Brokers, have appointed relief committees. By invitation delegates from these committees and other prominent citizens met Gov. McEnery to-night and appointed an Executive Relief Committee, representing these organizations and the business community generally. Systematic relief work will be commenced at once and contributions solicited throughout the city.

FOREIGN.

Demolition of the Tuilleries-Prince Bismarck's Contemplated Resigna-tion — A Naturalized American in

Trouble. [By Cable to the Morning Star.] PARIS, March 22.—In the Chamber of Deputies, yesterday, a bill appropriating 50,000 francs for the demolition of the ruins of the Tuilleries was carried by vote of 376 to 16.

London, March 22.-Dr. Edward Nathan Grantz, who was recently committed for trial with a view to his extradition to the Netherlands, where he is charged with fraud in obtaining money under false pre-tences, has obtained a rule nisi for a writ of habeas corpus, claiming that he is a naturalized American.

BERLIN, March 22.—It is again reported that Prince Bismarck contemplates resigning the Chancellorship, because of the rejection by the Economic Council of the tobacco monopoly bill.

A Small Pox Preventive.

A correspondent sends in the following There is no better or surer protection from small pox than Darbys Prophylactic Fluid (as unfailing as Fate): a wonderful healing remedy and most powerful disinfectant that will effectually eradicate the germ of disease, prevent its spreading and effect a cure, and is perfectly safe to use. It is en-dorsed and recommended by eminent phy-sician and chemists."

MASSACHUSETTS.

The Strike in the Pacific Mills at Lawrence.

[By Telegraph to the Morning Star.] LAWRENCE, March 22.—This city is very quiet. At the Pacific Mills only the printing and dyeing departments are being operated. The work of changing machinery and repairing buildings has been begun in earnest, and a large force of machinists are engaged. The Spinners' and Weavers' Union held a meeting this morning, at which it was decided to canvass the city for financial aid. Agents from other cities are here offering employment to the strikers and others who are out of work. All the other mills are running with a full complement of hands and no disaffection exists among their employes.

THE HORSFORD ALMANAC AND Cook Book sent free. Rumford Chemical Works, Providence, R. I.

Railroad Travel Interrupted by Snow Storms-Accident to a Construction

[By Telegraph to the Morning Star.] CHICAGO, March 22 .- A heavy storm of snow and wind has raged for two days along the entire line of the Northern Pacific Railroad in Dakota. Travel was suspended from Sunday until to-day. An engine and two cars filled with construction laborers went through a bridge over Hart river last night, and a number of the laborers were injured, but none were killed. The storm has now abated and traffic has

When a lecturer has worked the ladies of his audience so near to the weeping point that they have gotten out their handkerchiefs, and then suddenly changes his tone and speaks of the merits of Dr. Bull's Cough Syrup he is bound to rouse a feeling

FINANCIAL.

New York Stock Market - Prices Irregular. [By Telegraph to the Morning Star.]

NEW YORK, March 21, 11 A. M.-The Stock market opened strong and 1@1c higher than yesterday's closing prices, St. Paul, Minnesota & Manitoba and Richmond & Danville leading the advance. In the early dealings a fractional advance in the general list was followed by a decline of @1c, in which New Jersey Central and Denver & Rio Grande were the most prominent. A recovery of 1@1c subsequently took place, the latter for Lake Erie & Western. At 11 o'clock the market was some-

TWINKLINGS.

-Steel rails are now quoted low as \$45, a decline of \$10 within a few weeks, which means a saving of from \$800 to \$1,000 per mile in the construction of

- It is now understood that the reported earthquake in the South was caused by a St. Louis girl thoughtlessly umping from a buggy to the sidewalk .-

- Parents at Fall River, Mass. have been detected in issuing forged school cards misrepresenting the ages of their young children, so as to keep the little ones at work full time in the mills.

- When Jumbo arrived in London from Paris, seventeen years ago, he was not more than four feet high, He is now over eleven feet, and is expected to attain nine inches more by the age (about 32) that he stops growing. The first record of an elephant in England was of one brought thither by Cæsar in 54 B. C. In 1258 the King of France presented one to Henry III.

- In one of the corridors of the alleged Palace of Justice an old advocate sees a young and alleged learned brother at a distance walking alone, gesticulating ner-vously and talking to himself. "That man must be as crazy as a loon—a lunatic, I should say," he remarked to a companion. "Why so?" "Can't you understand? Sir, a lawyer who talks to himself is as bad as a confectioner who eats his own candy!"-French Fun.

SOUTHERN ITEMS.

- Representative Hauk, of Tennessee, has introduced 119 bills in the House during this session. -Sigmont Zulawsky, one of Stuart's cavalry officers and a brother-in-law of Kos-

suth, was killed on the rail near Savannah w days ago. - Miss Emma Key, eldest daughter of Ex-Postmaster General Key, who was thrown from a buggy Saturday after-

noon, is still in a critica - Mr. Benjamin Rush Floyd, nephew of the late Gen. John B. Floyd, died in Tallahassee, Fla., Saturday last, of consumption. He graduated with the highest honors at the Virginia Military Institute in 1880, and was afterwards professor of mathematics and tactics.

- The Atlanta Constitution mentions the case of A. M. Camp, who, starting with a capital of \$25 about ten years ago, is now a manufacturer doing a business amounting to \$350,000 a year. This illustrates the possibilities of the manufacturing interest in the South when pursued

MRS. WINSLOW'S SOOTHING SYRUP.—Rev Sylvanus Cobb thus writes the "Boston Christian. Freeman": We would by no means recommend any kind of medicine which we did not know to be good—particularly for infants. But of Mrs. Winslow's Soothing Syrup we can speak from knowledge; in our own family it has proved a blessing indeed, by giving an infant troubled with colic pains, quiet sleep, and its parents unbroken rest at night. Most parents can appreciate these blessings. Here is an article which works to perfection, and which is harmless; for the sleep which it affords the infant is perfectly natural, and the little cherub awakes as "bright as a button." And during the process of teething its value is incalculable. We have frequently heard mothers say they would not be without it from the birth of the child till it had finished with the teething siege, on any consideration whatever. Sold by all druggists. 20 cents a bottle Shelled peannts 5c per lb. STAR OFFICE, March 22, 1882. SPIRITS TURPENTINE—The market opened firm at 52 cents, with sales reported ter of 75 casks at 58 cents per gallon, losing firm.
