THE EFFECTS OF THE ASSASSINA-

TION. The killing of Lord Cavendish and Under Secretary Burke will be very disastrous to Ireland. The reported conversation with Mr. Parnell shows that he fully appreciates the magnitude of the calamity. The better classes of the Irish people will no doubt repudiate all sympathy with the assassins. It was a most devilish deed, without any provocation, and with a certainty of entailing woes upon the country that was already suffering from the pangs and agonies of poverty, discontent and disorder.

What effect the assassinations will have upon the Gladstone Ministry we cannot pretend to anticipate. Strange to say, the tenure of the Premier's office was becoming hourly more delicate and uncertain, and al because he was a statesman of the most advanced reform views. If unhampered we have but lit tle doubt that Mr. Gladstone would have given Ireland home rule a year ago. But he is circumvented at every turn. He has had the old party of landlords-the Toriesfighting him in front all the time. whilst the Irish Home Rulers were attacking him on the flanks constantly. In addition, there were the Whig Lords-landlords also-who

#### REPUBLICANS AND THE MOREY LETTER.

E. W. L. MAR

The Republicans are showing wonderful zeal and pertinacity in their hunt after the fellows who got up the Morey letter conspiracy in 1880. If they were as zealous in behalf of honest, econominal government, and in bringing thieves and rascals to justice, they would be of very positive benefit to our whole country. In regard to the Morey letter they pretend to have discovered at last the forger, and they pretend further that they have traced the crime to the Democrats. The ringleader is said to be one H. H. Hadley, a Republican, by the way, who is said to have supported Hancock. Why did not these political ferrets manifest some solicitude for fair-dealing and honest sentiments when the Democrats were being swindled in 1876? It was all right to steal two States then, as it was all right to flood Indiana and other States with illegal voters and to resort to palpable bribery in 1880, to elect Garfield, but for a Republican pretending to support Hancock to for a letter was the greatest of all known crimes. John A. Davenport-"little Johnny," a well-known trickster-is the ferret who pretends to have unarthed the forger of the letter. Repesentative Hewitt is exonerated completely, says the Philadelphia Press, whilst another Republican, one H. G. Worthington, ex-Collector of Customs at Charleston, S. C., during Patterson's carpet-bag administration in that State, had full knowledge of the forgery. So the manipulators are not Democrats but Republicans pre-

tending to support Hancock. They brought with them the old tricks with which they were familiar and which they had practiced in the old. camp.

One of the unfortunate men of De Long's party was Dr. James M. Ambler, a first cousin of Rev. T. M. Ambler, Rector of St. Paul's Episcopal church in this city. He was about thirty-four years of age, and was a passed assistant surgeon in the United States navy and the son of Dr. Richard Cary Ambler, of Fauquier county, Virginia. In 1870 he graduated at the Maryland University School of Medicine, and for three or four years practiced in Baltimore. He was also for a short time engaged at the Marine Hospital during the administration of Dr. J. S. Conrad. He has a number of relatives in Baltimore, among whom are Mrs. W. H. bored, in having the sun in his face a good portion of the time and being exposed to a stiff breeze of wind, which interfered materially with his manuscript, and must have caused him considerable annovance. The speaker alluded to the conspicuous part the South took, consecutively, in the war of the revolution, the war of 1812, the Mexican war, and finally of their heroic struggle in the late great contest for independence, and spoke particularly of the part North Carolina took in

each, but more especially in our late struggle. He paid a glowing tribute to the self-sacrificing devotion of our troops throughout the great civil contest, and the deathless renown which they achieved on every battle-field from Bethel to Appomattox, and referred particularly to the fact that the first blood shed was that of a North Carolinian at Bethel, and the last gun was fired by a North Carolinian at Appomattox Court House, where the noble Lee surrendered to the victorious Grant the remnant

of his brave army. He also alluded in equally complimentary terms to the important mission performed by the women of the South, and particularly of North Carolina, in the great struggle which eventuated in the "Lost Cause."

The address was received with every evidence of appreciation.

The speaking concluded, the choir sang another beautiful Memorial Ode, which was succeeded by the doxology and benediction, after which the Marshal read the Roll of Honor. A salute was then fired by the Wilmington Light Infantry, under command of Capt. J. L. Cantwell, and the immense crowd dispersed.

Owing to a change of policy which was announced last week, there is also another threatened defection, and just as the Government was about to submit to a thorough discussion of the new policy, and the censure, comes this terrible crime in Dublin, by which two members of the Government are murdered in open day. Whether the Tories will seize upon the critical moment and endeavor to use the assassinations as a lever to hoist the Liberals from power, or whether the murder of Lord Cavendish and Mr. Burke will not serve to unite the Liberal forces, bring back to them the recalcitrant Whigs, and even attract to their support the Irish Home Rulers, will be made manifest within a few hours. We are rather inclined to hope that the murders will strengthen the Liberal Government at home. Upon its continuance in power depend the future prosperity and peace of Ireland. Owing to a similar difficulty to that which affiicted our visitors-a press of matterwe were unable in our last to devote that attention to the trip to Wrightsville on Tuesday, and the manner in which our friends of the Grand Lodge were enterserved. A large number of vehicles of different descriptions, including wagonettes and ambulances, were brought into requisition, and the large crowd were not long in finding themselves in sight and sound of "Old Ocean." Arriving at "Pine Grove," Capt. E. W. Manning's beautiful place, our visitors and their friends rested and cooled off awhile, in which latter operation they were materially assisted by a delightful salt sea-breeze, freighted with health and vigor, and then oysters were announced in order. All the paraphernalia for roasting and opening were at hand, and soon all were regaling themselves with these salt water luxuries, which was soon after succeeded by a sail over to the banks, where our up country friends, some of whom had never been on the sea coast before, had a full and unobstructed view of the ocean, with its white-capped waves rolling shoreward and breaking on the sandy beach. A sufficiency of boats were in readiness to transport the visitors, some propelled by sail and others by oars. On their return from the beach dinner was announced, when the guests seated themselves and did justice to a most sumptuous repast, of which the luscious and far-famed pig fish formed an important feature. There was nothing lacking in this part of the entertainment to make it all that the most fastidious could wish, and in fact Capt. Manning's arrangements for the accommodation, entertainment and delectation of his numerous guests could

scarcely have been more complete. The large party returned home shortly after 5 o'clock in the afternoon, all delighted

The county road leading into the north eastern limits of the city is the only avenue of approach for a large number of country people from portions of this and the surrounding countics, and is also used by people going to and from the County Poor House. Taking this fact into considera tion it has been suggested that the city should remedy the condition of that por-tion of the road from Hutaf's store to the vicinity of Little Bridge, which is diffi-cult to travel on account of the deep sand. A good hard road for the distance mentioned would be a great convenience to a large number of people, and it is hoped the authorities will take the matter under advisement.

suits brought against the Carolina Central Railway Company by the families of per-sons who lost their lives in the dreadful accident at the Indian Creek trestle, near Lincolnton, in December, 1880, did not come to trial at Lincoln Superior Court last week, compromises having been effected in all of them. To Mrs. M. W. Goodson, of this place, widow of Captain S. Goodson, whose body was consumed in the burning of the wreck made by the train falling through the trestle, was awarded damages in the sum of \$7,500. The mother of Mr. Smith, the New York drummer who lost his life in like manner, gets \$7,000; Mrs. Bloom, of Charlotte. vidow of the route agent who was burned up with the mail car, \$1,200; and the fami-nes of each of the negroes \$1,250. In this case the cost to the railroad company is \$18,200 as above, and this takes no account of its losses from a fallen trestle and a train of cars destroyed.

Wooten was in the city yesterday, and informed us of the murder of Henry Haddock, near Haddock's Cross Roads, Pitt county. The facts are as fol-lows: Henry Haddock was in the habit of taking too much king alcohol, and was very fussy while under its influence. Wil-liam Haddock, who is his brother, chastised him for his noisy and fussy habits, and at the time the murder took place, Henry came to William's house full of liquor and pitched at him for a fight, and as Henry was much stronger he overpowered him and while he had him down pelting him a son of William's, 14 years old, came out of the house with a shot gun, and aiming at his head, fired and the contents entering his head, effecting a wound from which he died instantly.
