FRUIT AND VINE GROWERS. The Meeting of Their Association

The Fair to be Held at Greensboro, August 9th and 10th. Raleigh News-Observer,

The second meeting of the Fruit and Vine Growers' Association was held on Thursday in the Agricultural Building. The attendance was good, those present being directly interested in the business. Not less than \$1,-500,000 in capital was represented at the meeting.

On motion, the President appointed a committee to make arrangements for holding the fair as follows: J. VanLindley, D.W. C. Benbow, J. M. Ward, G. L. Anthony, J. S. Ragsdale, J. S. Armfield, J. A. Lineback. A constitution and by-laws were adopted, as reported by Messrs. C. B.

Root, B. P. Williamson and J. H. Enniss, committee. The present officers were continued in office until the regular meeting in

October. Mr. J. S. Ragsdale said that in a recent trip South he found that fruit was carried from South Florida 400 miles by rail to Savannah, and thence to New York by steamer, at \$1.75 per hundred weight, while the charges from Raleigh to New York were \$2.75 per hundred weight.

Professor Kerr said that President Buford had stated that when there was a large fruit crop the rates should be reduced.

Messrs. Wharton J. Green, W. C. Kerr, D. W. C. Benbow, J. A. Lineback, B. P. Williamson, C. B. Root, L. L. Polk, W. C. Stronach, Montford McGehee, J. J. Thomas, J. M. Heck and Judge Thomas Ruffin were appointed a committee to secure a re-

duction of freight on the fruit crop.
Judge Ruffin said that in 1866 he paid only 60c. per bushel freight on fruit, and in 1877 the rate was \$2. The secretary, as a matter of interest, read a telegram from J. S. West-brook & Co., of Faison's, stating that they had in the past thirty days

shipped 45,000 quarts of strawberries, and would ship this season 6,000 crates of peaches; the shipment of the latter had already begun. In answer to inquiries, Mr. Chapman, of Manson, stated that Amsden, Beatrice, Louise, Rivers and Early York were the best early

peaches for shipping. Mr. Bilyeu,of Ridgeway, added Mountain Rose. Col. Wharton J. Green stated that Norton's and Cynthiana were the best varieties of grape for wine, and the Champion for shipping.

It was reported that Guilford county would ship 60,000 crates of peaches; Favetteville 75,000 pounds of grapes; Wilson 10,000 crates of

Judge Ruffin gave as a practical remedy for pear blight, the following: Mix one pint of common salt with four times its bulk of ashes, spread around the roots a foot or more from the tree, being careful not to place it

Prof. Kerr said that to keep specimens of fruits in a natural condition glycerine should be used.
