New York Commercial Chronicle. NEW YORK, June 30. - The move ment of the crop, as indicated by our telegrams from the South to night, is given below. For the week ending this evening (June 30), the total receipts have reached 9, 288 bales, against 13,869 bales last week, 13,658 bales the previous week, and 15,624 bales three weeks since; making the total receipts since the 1st of September, 1881, 4,620,487 bales, against 5,684,683. bales for the same period of 1880-81, showing a decrease since September 1, 1881, of 1,064,196

The exports for the week ending this evening reach a total of 49,401 bales, of which 34,793 were to Great Britain, 1,820 to France, and 12,788 to the rest of the Continent, while the stocks as made up this evening are now 300,134 bales.

The speculation in cotton for future delivery has been more active in this market during the past week, and there has been an important advance in prices for this crop, with some improvement in the next. The speculation for the rise has gained strength from the probable interruption of supplies from or through Egypt, the reduced stocks of American cotton, with probable large drafts and small accessions to them for many weeks to come, and the growth of a considerable "short interest" since the crop accounts have begun to improve. The close on Thursday was irregular; the present crop showing an advance and the next a decline. There was considerable discussion of the probabilities of a "corner" on August contracts. Notices for July delivery were issued pretty freely early in the week, but by Thursday they were nearly all stopped. To-day the market was variable and unsettled, closing dull and easier. Operators were disposed to close accounts in view of the adjournment of the Cotton Exchange from to-morrow night to Thursday

Those who deaden sensation and stupefy the patient to relieve suffering make a grave mistake. They proceed upon the lief from pain by destroying physical sensi-bility. This method, carried to the last extremity, would kill the patient to end suffer-ing. It is not presumed that Lydia E. Pinkham's Vegetable Compound will raise the dead but it often does restore those who are given up as hopeless cases.

A CARD.

To the voters of the Third Congression District of North Carolina:

In reply to many inquiries and letters re-ceived, expressing a desire to know as to whether or not I am a candidate for renomination, I deem it proper to reply in this

Little more than two years ago the Democratic party, in convention in the town of Favetteville, tendered me the nomination for Congress under circumstances familiar to every voter in the District. I accepted I confess, with fear and trembling, because of the disorganization of the party, caused by its defeat in the former Congressional struggle. After a heated and bitter contest, with two political opponents in the field, with the aid of a united Democracy,

victory again perched upon our banner.

The nomination was unsolicited by me, as my friends well know. I have not sought renomination, nor have I requested my friends to influence conventions or ex-ecutive committees to appoint delegates in my interest to the Congressional Conven-tion, and will not. Let the people unin-fluenced nominate the men of their choice, victory will then be ours; otherwise defeat is inevitable. The people, not rings, must control our conventions if we expect our andidates to bear the flag to victory.

I thank the voters of the District for

their encouragement and support given me in the late contest. The thanks of the Democracy of the State are due you for redeeming the District and perhaps saving the party in the Old North State. Two years ago at your bidding I led a "forlorn hope," with what success you know. As to my candidacy for a seat in the Forty-Eighth Congress, I leave that with my friends, and shall be content to abide their decision.

VIRGINIA'S STATE DEBT.

Action of English Bondholders Rela-

A resolution was passed authorizing a committee in conjunction with the council of foreign bondholders to take steps to call in the for the purpose of protecting the interests of the bondholders, and directing that a memorial be addressed to President Arthundry drawing his attention to the facts attending the repudiation of a solemn obligation of the State of Virginia by the Legislature of that State, and praying the assistance of that State, and praying the assistance of the Federal Government to enable the bond-the Federal Government to enable the bond-the facts attending grieved to learn that Miss Flora B. London, July 4.—A Paris dispatch says matters are at a stand-still pending the result of the Porte's efforts to induce Arabi Pacha to come to Constantinople.

The Times says it is only reasonable that, on the necessity of an Egyptian expedition becoming obvious, government would avoid half-way measures, and immediately call out the army and militia reserve, which would add fifty thousand trained men to the fighting strength of the country.

A dispatch from Alexandria says a majority of the officers have informed Arabi Pacha that they are opposed to fighting.

is reason to believe that a decision will be reached in Egyptian affairs probably within twenty-four hours. The Cabinet met in Sir William Harcourt's room in the House of Commons, this evening, and consulted with the Duke of Cambridge, commandering thief of the army. It is rumored in the lobby of the House that Alexandria will be immediately bombarded.

London, July 5.—A dispatch from Alexandria says Admiral Seymour complained to the Governor of Alexandria regarding the placing of two large guns in position, threatening fleets, and the explanations offered were deemed unsatisfactory. nations offered were deemed unsatisfactory.
Admiral Seymour subsequently intimated that if the works were not stopped here. would promptly take measures to stop

The News' dispatch from Alexandria confirms the above, and says if Admiral Sey mour's intimation remains unheeded decisive action will be taken directly. The cor-respondent of the News, at Berlin, says the English and French Admirals at Alexandria have asked their governments to au-thorize she bombardment of the fort unless the works are stopped.

The Decision of the Conference. By Cable to the Morning Star.1 LONDON, July 5,-A dispatch to the will probably come to a decision to-day to request the Porte's intervention in Egypt,
The principal of collective action has been
already resolved upon, if the Porte refuses
to consent to the proposed conditions. If
its execution becomes necessary it is probable that several Powers will participate, but
the share of Frederick will be greater the share of England will be greater than that of any other Power.

TBy Telegraph to the Morning Star.] CHARLESTON, July 4 .- S. W. R. Blair a prominent Greenbacker, was shot and in-stantly killed at Camden, where he lived,

A special to the News and Courier shows that a bad feeling had existed for some time between Blair, who was the Greenback candidate for Governor in 1880, and Capt. J. L. Haile, who lives near Camden To-day the two met in Camden, when Blair called Haile a liar and refused to retract, whereupon Haile armed himself Blair still refused to retract and motioned to draw a pistol, when Harte fired three times, killing Blair instantly. Harte is in jail. The verdict of the coroner's inquest is that Blair came to his death by wounds inflicted by Haile.

Heavy Rise in the Missourt River-Ravages of Small-Pox Among the Indians.

[By Telegraph to the Morning Star.] Sr. Louis, July 3.—The rise which has been coming down the Missouri river for a few days past is being pretty seriously felt here. The advance to-day at this point has been fully eighteen inches, and the rise tonight is something over thirty-two feet above the low water mark. No serious damage has yet resulted, but a rise of two feet more would inundate thousands of acres

and cause great destruction." Special dispatches report that the small pox is prevailing so extensively in the In-dian Territory as to be a perfect scourge at Muscogee. There have been two hundred cases and nearly all have been fatal,

Mr. Leroy Crafton, of Hamilton, was the unfortunate one who first attempted to pass, and without knowing what had taken place, was shot and almost instantly killed.

County Government plan is a concession to the Democratic East; that with perhaps a large majority of her voters it is a pet scheme, and that to change this plan at this time would cause great dissatisfaction.

There is no doubt that a majority of the Democrats in the East desire a retention of the present County, Government system, but they ought to have manhood enough in them to demand it as a matter of right and not as a concession, to be paid for by a withdrawal of all other material rights.—

The dishonest absurdity of the "Liberals" is plainly seen in the fact that they charge the Democrats with the whole responsibility of the prohibition enactments of the last Legislature. They know it is a lie. The leading men of the Republican party know it is false. Who has forgotten Billy Smith's ringing letter claiming for his party paternal interest in it? Who has forgotten Judge Dick's declaration that if his party took sides with the anti-prohibitionists and became identified with them as a party, he was done with it forever. Or who has forgotten that more of the Republicans in the Legislature voted for the prohibition act, in proportion to numbers, than Democrats, and that Judge Reed was the high priest at the altar on this measure? But what of it! Did they do wrong in this business? Certainly not.—Salisbury Examiner.

POLITICAL POINTS.

WHY THINGS GO UP.—If you will multiply \$30,000 and \$10,000 by \$34, you will have the result \$75,000, \$25,000. So the grand capitals of The Louisiana State Lottery have gone on with the increase of cost of whole tickets for the monthly drawings, which have gone from two dollars to five dollars apiece. A single dollar sent to M. A. Dauphin, New Orleans, La, , will have the same chance as before of getting \$15,000. Two dollars sent may bring you \$30,000; but five dollars sent may bring you \$75,000. One reason for the change was the fact that the managers could never supply the demand, to the vexation of its regular paply the demand, to the vexation of its regular patrons. For further information write to M. A. Dauphin, New Orieans, La., and be sure to do so before July 11th next.

THE FLORENCE NIGHTINGALE OF THE NURSERY.—The following is an extract from a letter written to the German Reformed Messenger, at Chambersburgh, Penn.: A BENEFACTRESS. Just open the door for her, and Mrs. Winslow will prove the American Florence Nightingale of the Nursery. Of this we are so sure, that we will teach our "Susy" to say, "A blessing on Mrs. Winslow" for helping her to survive and escape the griping, colleking, and teething slege. Mrs. Winslow's Soothing Symur relieves the child from pain, and oures dysentery and diarrhosa. It softens the gums, reduces inflammation, cures wind colle, and carries the infant safely through the teething period. It performs precisely what it professes to perform, every part of it—nothing less. We have never seen Mrs. Winslow—know her only through the preparation of her "Soothing Syrup for Children Teething." If we had the power we would make her, as she is, a physical saviour to the Infant race. Sold by all druggists.

Gentlemen:—For years I have been a great sufferer from Dyspessia, and could get no relief (having tried everything which was recommended) until acting on the advice of a friend, who had been benefitted by Brown's Iron Brateres, I tried a bottle, with most surprising results. Previous to taking Brown's Iron Braters, everything I are distressed me, and I suffered greatly from a burning sensation in the stomach, which was unbearable. Since taking Brown's Iron Braters, all my troubles are at an end. Can east any time without any disagreeable results. I am practically another person.

Mrs. W. J. Frank, 30 Mayerick St., E. Beston.
