THE DANGEROUS TENDEN. CIES AND PRINCIPLES OF THE REPUBLICAN'PARTY.

(From Judge Merrimon's Speech Before State Convention.)

Raleigh News-Observer's Report.

A due observance of the organic law and a just and faithful administration of government are matters of the highest moment to the citizen, and yet in times of peace we are for the most part indifferent to their observance. We feel no pressure on us to regard them, and as long as peace prevails and there is nothing to shock the sense of the country and arouse the people, they put off the consider-ation of these questions from time to time. This was wrong. We must always seek to preserve and perpetuate free government. There is no greater truism than that eternal vigilance is the price of liberty, It ought to be inculcated that men should regard it as a sort of religious duty to uphold the fundamental system of their government. Our government was worthy of being perpetuated, of being handed down to the remotest generations. It was a system consis-tent with the highest liberty and greatest happiness of the peo-ple and permitting the fullest development of individual action and individual prosperity. One of the chief reasons why he opposed the Republican party was, the foundation principles of that party looked to the overthrow of our system of government by concentration of all governmental powers in one head. It sought to centralize the powers of government in the hands of Federal officers. To the Federal government had been committed certain well known functions relating to such affairs as affected the common interest of all the States. The local affairs of the State, more nearly affecting the happiness of the citizen, were particularly retained in the State governments. But the Republican party sought by gradual ap-proaches to abolish the State governments, to render them useless, to wipe them out of existence, and invest all power, the power of administering our domestic concerns as well as inter-State matters, in the Federal government. This unnatural absorption of the rights of the States was going on continually. Unless checked it would inevitably result in the absolute annihilation of the State governments. The result would be the establishment of an empire in America, and an empire means despotism. The practices of the Republican party all tend to that end. They lead to that result. No barrier is sufficient to check their progress. Laws that stand in their way are broken or repealed. The constitution they disregard entirely whenever its provisions are an obstacle to the attainment of their purpose. They bend and twist it to meet the exigency of any case, and if need be they ride rough-shod over the plainest provisions. During the war, when there was much excitement and danger, and the public mind was easily influenced to excuse all things because of the necessities of the case, the Republican party began this practice, and since the establishment of peace they have not departed from it. Nothing stands in the way of the attainment of their purpose. As a means to this end they have sought to make the Federal Government dominating and controlling, and to dwarf the State governments, and they have created at Washington a magnificent government with a host of officials sustained from the Federal Treasury, administered with great extravagance and profusion of money, increasing its functions and extending its powers and influence far beyond the legitimate purposes of its creation. Their vast outlay necessary uses finds no parallel in the history of the world. And to the same end they have created large corporations with dominating influences, controlling the action of public men, shaping legislation, affecting public affairs and guiding the destiny of political parties. They have subsidized a part of the press, and by the lavish use of public moneys have stifled many voices that might other-

they at once began again all manner of schemes to expend the public money for the benefit and welfare of

money for the benefit and weffare of their party, without regard to the rights of the people. We see, then, where we are drift-ing. We see what the course and practice of the Republican party is, and what is its ultimate aim and pur-

pose, and the several means it em lovs to debauch public sentiment and allay antagonism on the part of the people. But will the people not awake to a realization of the danger?

The question is, whether we shall, without a struggle, allow this gradual sapping of our institutions, the overthrow of our State governments and the enlargement of the Federal Gothe enlargement of the Federal Go-vernment until the spirit of liberty shall depart and our free institutions be merged into a consolidated em-pire? Let me remind you that one night republican France slept—in the morning the people awoke to find that an empire had been established.

New York Commercial Chronicle. NEW YORK, July 7 .- The move-

ment of the crop, as indicated by our telegrams from the South tonight, is given below. For the week ending this evening (July 7), the total receipts have reached 9,-586 bales, against 9,288 bales last week, 13,869 bales the previous week, and 13,658 bales three weeks since: making the total receipts since the 1st of September, 1881, 4,630,073 bales, against 5,703,846 bales for the same period of 1880-81, showing a decrease since September 1, 1881, of 1,073,773 bales.

The exports for the week ending this evening reach a total of 38,796 bales, of which 21,117 were to Great Britain, 10,979 to France, and 6,700 to the rest of the Continent, while the stocks as made up this evening are now 255,323 bales.

Our Cotton Exchange was closed the past week from Saturday evening till Thursday morning, and, of course, business has been materially obstructed. The speculation in futures on Saturday last was quite moderate, but was attended by the somewhat notable feature of a decline in this crop and an advance in the next. The reopening of the market yesterday was in a strong speculative spirit, with the evident purpose to "corner" this crop and force a general advance, which was so far successful that, this

crop closed 28@33 points dearer, and the next 15@21 points dearer. To-

The Democratic County Conven-tion, according to appointment, met in the town of Jacksonville July 3, 1882, to appoint delegates to attend the Congressional Convention at Warsaw, July 20, 1882. Dr. C. Thompson being temporary Chairman, called the meeting to order, and Charles Gerock, Jr., was called to act as Secretary.

The roll of delegates was then called, and delegates from the following precincts answered to their names: Cross Roads, Haw Branch, Swansboro, Aman's Store, Angola, Catherine Lake and Richland. There not being a quorum of dele-

gates present, a motion was made and seconded, to resolve this Convention into a mass meeting, whereupon Elijah Murrill was appointed perma-nent Chairman, and Charles Gerock, Jr., permanent Secretary. The meet-ing was then called to order by the

Chairman. It was then moved and seconded, that as there is only a minority of the delegates present who have held

their precinct meetings, that those precincts which have held primary meetings and sent their delegates be entitled to elect their own delegates, and those which have failed to hold their meetings and which have no delegates present, that the Chairman of this meeting, with the aid of any one from such non-represented pre-cincts, appoint the delegates for such precincts.

The following delegates were then appointed. [We omit list of delegates for want of space.-ED. STAR.] It was then moved and seconded that a committee of five be appointed to draft resolutions expressive of this meeting, whereupon the following

Resolved, That while there are several very worthy gentlemen seek-ing the Democratic nomination to Congress from the Third District, the Democrats of Onslow, in massmeeting assembled, take especial pride and pleasure in recommending for renomination our countyman, Hon. J. W. Shackelford, who, after redeeming this district from Radical representation, has made his constituents an earnest, faithful and efficient join us in bestowing upon him, who,

the House of Representatives, we forced a reduction of expenses of \$40,000,000. And the next year of ten more millions, and so on, as long as we had the power. And so it happened that, because of the re-trenchment which a Democratic Congress secured and maintained, there arose a surplus of funds in the Treasury which has since enabled us to and y which has since enabled us to pay off so rapidly our national debt. And yet, when by mal-adventure the Republicans gained possession of the House at the present Congress, and by a corrupt bargain with Mahone obtained control of the Senate,

Persons recovering from wasting diseases, such as malaria, fevers, etc., will be greatly benefitted by the use of Brown's Iron Bit-ters, a true tonic. THEN AND NOW IN NEW ORLEANS.—The fortunes of the Crescent City in a commercial financial, social and sanitary point of view were at a very low e b in 1968, the great terror of yel-low fover rendered a residence extremely unde-sirable, and the entire absence of money vastly crippled the celebrated Charity Hospital. Now every thing there is booming, and The Louisians State Lottery Co. has by contract for its franchi-ses agreed to pay \$1,000,000 to the Hospital. The Lottery (although fought with uncalled for pre-judice) has met with such unprecedented suc-cess, owing to the integrity and ability in man-agement, as to cause would be aggressors to hide their heads in shame, and now on the second Tuesday of every month divides \$165,500 on an enlarged scheme, with \$5 tickets, and \$1 sub-didood this lift ROSADALTS Gentl Contains full Reports of the Wilmington Man COTTON MARKETS, Cures Nervous Debility.
