

fail to accept Mr. Tucker's amendment to favor home people after extending it in their report to foreign ship owners. But tell it not in any sensible community, for the Reds have begun to filibuster over it. The Richmond Dispatch's correspondent at Washington writes: "The Democrats will urge that if recommended the committee shall be instructed to report the Tucker amendment. The fact is that Mr. Tucker has thrown a bombshell into the Republican camp, and they know not what to do. He tells them in this forcible way that the bill unamended will give British ships an advantage over those flying the American flag, and turn over our carrying trade to the former. He says it is to the interest of the American ship-builder that he shall be able to sell our own people ships just as cheaply as he can to his foreign patrons. Some of the Massachusetts Republicans say Mr. Tucker is right, but the bulk of the party agree with Mr. Haskell, of Kansas, who says that if the amendment is adopted he will vote against it, though he voted in committee to report the original bill. All this shows how little real sympathy the ordinary Radical Congressman has for the real interests of the people. He considers it as his mission to take care of the plethoric monopolists and to let the over-taxed people take care of themselves as best they can. "My Dear Hubbell" has sent out another precious campaign, Paul-Pry circular. It is sent to the fire-tried throughout the country. It is easy to see from a copy that it is before us that the Reds are as cunning and as unscrupulous as ever. They wish to find out where to spend the money. Their design is to debauch the electors and thus debauch the ballot. We publish the circular. It will be seen from paragraphs numbers 3, 4 and 7 what their little game is. North Carolina is to be carried by the free use of a corruption fund. The Radical committee are in search of Mongrels or of disgruntled and hungry Democrats. The game is indisputable. There is not a spark of principle or decency in it. It is to corrupt the voters and buy up the purchasable inferior material in the Democratic party. Here is the way Vance stated his case the other day in his much praised little talk in the Senate. He showed he was a lawyer by the way he "doctored" his cases. Here it is as stated by the Washington correspondent of the Richmond Dispatch: 1. Bank Capital and Deposits vs. Farming Capital and Implements. 2. Bank Checks vs. Trace Chains. 3. Rat Extremators, Bug Powders & Co. vs. Camphor, Opium and Chloroform. 4. Lakin's Extract, Cinnamon Drops & Co. vs. Sell. 5. Buchu, Rosalids and Cundurango vs. Cotton and Woolen Machinery. 6. Playing Cards vs. Horseshoes, Nails and Stoves. 7. Steel Rails for Railroads vs. Hoes, Axes, Planes and Saws for Workingmen. 8. Cigars and Cigarettes vs. Cotton Ties and Cotton Bagging. The reader will perceive at once that Mr. Vance was bartering the bill presented by the Republican caucus to reduce the internal taxation. Mr. R. W. Goode, of Windsor, N. C., has been victimized in Baltimore; but he got off easy. A sharper met him and told him he was from the same State and that his name was W. H. Morgan. They took several drinks together, became warm friends and then a second party appeared on the scene and said to Morgan, "I have sent your goods to the depot and here is the bill for them." The bill was \$47.50. Morgan had not money enough to pay it, and asked Goode to cash a draft for \$750, and the latter not being able to do it was then induced to lend Morgan \$20. They were then a short distance from the depot, when suddenly Morgan remembered he had \$900 in a valise at the station and asked Goode to look after it while he went up the street for a few minutes. That was the last seen of Morgan. "What mean the military reunions now going on at the head of which stand Colonel Wharton J. Green and Colonel L. L. Folk, every one of which Colonel Bennett has arranged to address?" - State Journal, Radical. What means this gathering, in one Mongrel party, of the "military" heroes, Colonel Folk, General Clingman, General Leach, "Kurnel" Johnston, "Kurnel" Dockery, "Kurnel" Charles Jones, "Kurnel" Isaac J. Young, Captain Price and the other sundry titled office-seekers. What does it mean? Mischievous to the people. We have received a copy of the speech from Gen. A. M. Scales, delivered in the House on the 23d of June last, on "Internal Revenue Taxation." We have not taken time to read it. It will aid him in his canvass against Gen. Leach.

Senator Hill is passing away under the tortures of a horrible disease that are borne with a fortitude and resignation that are very touching and impressive. The whole country sympathizes, and is reminded of the illustrious sufferer of 1881, who was carried to his grave after prolonged agony and which he sustained with heroic fortitude. Mr. Gladstone on January 29, 1833, took his seat in Parliament. He has been in every Parliament since. He was elected on December 13, 1832. It is proposed to celebrate his half century of Parliamentary life on that day, and the Liberals will make it national in character. England has had few abler statesmen and never a purer one. Westgate or O'Brien, (he passes by both names), acknowledges that he was concerned in the murder of Lord Cavendish and Mr. Burke. He is a Scotchman. He was boasting, as he sailed ten minutes before the murderers occurred. He has been arrested. Gen. Clingman wishes to organize a "Washington party." Col. Jones, the alleged Democrat, of the Sixth District, will join that party certain, for he is just crazy to go to Washington. There was an aged man who said, I have conceived a delicate pie, To be given to each fellow, Who is so very mellow. And saying, "what a good boy am I!" - From the Mongrel Campaign song book. Alleged Horse Thieves Arrested. The Teboe brothers of Brunswick county, who, on Monday, the 17th inst., went to the livery stables of Messrs. Merritt & Hollingsworth, of this city, and hired a horse and buggy, giving their names as Williams, and who failed to return the property, which was subsequently traced to South Carolina, where the buggy had been sold to Messrs. Todd & Vaught, of Nixonville, were arrested yesterday at Abbottsburg, Bladen county, a telegram to that effect having been received by Solicitor Moore, of the Criminal Court. A few days ago we mentioned the fact that Messrs. Merritt & Hollingsworth had received information as to the whereabouts of their horse, and later on we stated that Mr. Merritt had visited South Carolina and recovered the property, and now the parties charged with the theft of the horse and buggy are in the hands of the law. Constable T. O. Bunting went up to Abbottsburg yesterday afternoon, for the purpose of bringing the prisoners - Joseph and J. R. Teboe - to this city, where they will be jailed to await their trial at the approaching term of the Criminal Court, provided they do not give the bond which will be required of them. Wiry Walter. Walter Harrison, well known, alas! too well known, to many of our friends here, is still alive. A gentleman of Wilmington says that he saw and talked with him at Coney Island a few days ago. He exhibited a letter purporting to be from a prominent Republican of this city named Black, in which the opinion was expressed that the Radicals would carry North Carolina next November, and in that event that Walter would be provided for. No doubt Walter wrote that letter himself. And we think he will be provided for anyhow if he will come to Wilmington during the next term of the Criminal Court. Foreign Shipments. The foreign shipments yesterday were as follows: German barque Friederike Weyer, Capt. Krieger, for Stettin, Germany, with Messrs. E. Peschau & Westerman, with 8,330 barrels of rosin, valued at \$6,500; and the Norwegian brig Hardt, Capt. Nielsen, for London, by Messrs. D. R. Marchison & Co., with 1,638 casks spirits turpentine, valued at \$35,918; and the German barque Lydia Peschau, Capt. Barker, for Ham burg, by Messrs. E. G. Barker & Co., with 2,418 barrels of rosin and 101 casks spirits turpentine, valued at \$15,022.68. Total value of foreign exports for the day, \$28,405.68. Pic-Nic and Sociable. A correspondent, writing under date of July 21st, gives a glowing description of a picnic at Mr. W. J. Cromartie's Mill, near South River, Bladen county. It was a large gathering, embracing the youth and beauty of the neighborhood, and mirth and pleasure reigned supreme. Our correspondent adds that the farmers, encouraged by the prospects of a beautiful harvest, were out in full force. Friday night there was a sociable given by Mr. Luther Cromartie, to which all the young folks were invited. The Star has been favored with a box of grapes which though green grapes were neither sour grapes nor unripe grapes. As soon as we took good look at them we saw that they were good Democratic grapes, and we soon got on the very best of terms with them. The Norwegian barque Walle, Capt. Walle, was cleared from this port for Hamburg, yesterday, by Messrs. Paterson, Downing & Co., with 5,365 barrels of rosin, valued at \$10,973.89.

Deputy Sheriff Wm. Hand, of Pender, arrived here yesterday afternoon's train with three colored prisoners to be confined in our county jail, as follows: Jonah Batts, charged with stealing sheep, and required to give a justified bond in the sum of \$100 for his appearance at the next term of the Superior Court of Pender county, which he failed to furnish; Quincy Durham, a State's witness in the above case, who was required, but failed, to give bond in the sum of \$50 for his appearance; and Larkin Parrish, charged with the larceny of an ox, who was required to furnish bail in the sum of \$100 and failed. The two first named were sent under commitments from Justice T. A. McLendon, and Parrish under a commitment from Justice R. H. Murphy. It is said that the ox stolen was the property of a man now serving out a term in the penitentiary. The Glories of the West. Dr. S. S. Satchwell, of Pender, who was in the city yesterday, returned a few days since from a visit to the Western part of the State on professional duty; having accepted an invitation to address the normal schools at Newton, in Catawba county, and Franklin, in Macon county, on the subject of "Hygiene in Families and Schools." The doctor speaks in glowing terms of the beautiful spots, the magnificent scenery, the towering mountains and the unbounded resources of our Western counties, and says if he had the time and the inclination he could write volumes on what he saw and heard during his brief absence. A Compliment Well Deserved. The following from the Farmer and Mechanic is a deserved compliment to a worthy official, whose long continuance in the Postoffice here has been generally characterized by just such acts as our contemporary so heartily commends: "We commend the activity of Postmaster E. R. Brink, of Wilmington, who has recently laid traps and captured two rascals who were robbing the mails. The press should take notice of all such efforts: because anything that tends to purify the postal service, and render absolutely safe the transmission of mail matter, will serve to encourage the use of the pen - a thing very much desired at the South." Personal. Capt. V. Richardson, Chairman of the Democratic Executive Committee of the Third Congressional District, was here yesterday making arrangements for the mass meeting to be held at Smithville, Saturday, August 5. Capt. Richardson is full of hope and energy, and expects to devote much time to the details of the canvass in this district. He predicts a Democratic majority of 600 or 700 in Columbus. Roll on the ball. Opening the Ball. A grand Democratic mass meeting is announced to take place at Smithville, Brunswick county, on Saturday, August 5th, which will be addressed by a number of distinguished gentlemen, including Governor Jarvis and Col. Wharton J. Green, our candidate for Congress. Col. R. T. Bennett, our candidate for Congressman-at-Large, has also been invited. The ball has been opened with a vim which shows that our candidates and their friends are alive to the interests of the party and the importance of success in the campaign now before us. Both the Passport and the Minnehaha will leave for Smithville Saturday morning, charging 50 cents for the round trip. Recovered Their Property. Mr. Merritt, of the firm of Merritt & Hollingsworth, who left for South Carolina a few days ago to recover the horse and buggy stolen from them, returned yesterday, and reports that he got possession of the property, after considerable hard riding, and sold both the horse and buggy in South Carolina. The two young men who committed the theft have not been arrested, but will be. For Smithville. The Passports, which does not usually make a morning trip to Smithville on Saturdays, will leave her wharf at 8 o'clock A. M. on Saturday, August 5, for the accommodation of the large crowd expected to attend the Democratic mass meeting at Smithville on that day. The Minnehaha will also leave the same morning, and probably at the same hour, in order to be in time for the meeting. Mr. Marsden Bellamy has just returned from a visit to some of the Western counties and he confirms the reports of his brother, Mr. J. D. Bellamy, and others who have recently visited that section, in reference to the splendid crops and the abundance of fruit, under which latter the orchards are literally groaning. We have received a neat pamphlet containing the rules and regulations, list of premiums, etc., of the second annual fair of the Eastern Carolina Agricultural Association, to be held at Rocky Mount, N. C., on Tuesday, Wednesday, Thursday and Friday, October 24th, 25th, 26th and 27th. Mr. G. W. Harper, of Greenville Sound, says the proceeds of his sales of watermelons and cantaloupes so far this year foot up \$428; all from two acres of ground. Mr. Lawson Skipper, of Brunswick, formerly a leading Greenbacker, but who is not taking much stock in politics just now, reports magnificent corn crops in his county. He says they are finer than they have been for many years before.

THE WAR IN EGYPT. Affairs at Constantinople - The Conference - Troops Destined for Egypt - The French Chambers Refuse Credit Demanded by the Government and the Ministry Resign - Destruction of Forts and Magazines by the British - The Situation at Port Said - Beliefs - Efforts to Protect the Canal. (By Cable to the Morning Star.) CONSTANTINOPLE, July 29. - The Sultan, replying to a representative of Lord Dufferin, British Ambassador, requesting immediate issue of a proclamation against Arabi Pasha, stated that such a demand cannot be made by England alone, but should proceed from the conference of the Powers, in which it would receive due consideration. Herr Von Hirschfeld, German Consul, was instructed yesterday from Berlin to recommend the Sultan to proclaim Arabi Pasha a rebel, as demanded by the Powers. Moubkat Pasha has made arrangements which will enable the Porte to dispatch 20,000 men to Egypt in successive detachments. LONDON, July 29. - A dispatch from Constantinople, to the Times, says: The Russian Charge d'Affaires has been ordered by his Government not to attend any more meetings of the Conference until he has received detailed instructions. PARIS, July 29. - In the Chamber of Deputies, France, up to the 27th inst., a second vote of credit declared that it was a question of confidence in the Cabinet. He said that without the mandate of Europe, intervention properly so called, would be neither a duty nor a prudent operation could lead to no conflict with Europe. France would occupy the ends of the canal with 4,000 men, and would show to England that she possessed the sympathy and moral support of the French people. The French ambassador, an intention of dispatching troops to Egypt, this was not a moment to refuse the grant. Such a course would be prejudicial to the interests of France in Egypt, and to her prestige in the eyes of the Mussulman world. The Powers were reverting to the idea of collective protection of the canal, and the Conference was about to consider this phase of the question. Both France and England would be disposed to participate in this collective action. In conclusion, DeFreycinet said: The Government made a direct appeal to the confidence of the Chamber. In this the ministers are unanimous. Notwithstanding DeFreycinet's appeal the Chamber, by a vote of 45 to 1, rejected the credit demanded by the government. After the vote the Ministers went to the Elysees and tendered their resignations. - President Grevy. He requested the Chamber to continue to prize more than their offices pending the appointment of their successors. LONDON, July 29. - The Times, in a leading article, says: "It appears that France adheres to the policy of abstention from intervention in Egypt, and that if she takes any action it will be confined to providing for the security of the canal. It is, however, clear that DeFreycinet's timorous policy does not command universal assent in France, and even if the Ministry should weather the storm it is likely to undergo important modifications." A dispatch to the Times from Constantinople says that the military commission is of the opinion that the expedition to Egypt should consist of an advance guard and three divisions with an effective force of 12,000 men each. The Daily News has the following dispatch: PARIS, July 27. - M. De Lesseps, in the belief that the English aim to control the Suez Canal, continues to oppose every plan for insuring its safety. In an interview with the late Governor he said that he believed in an advance guard and the hands of the English, and that England's sole aim was to obtain control of the canal. He has telegraphed to Arabi Pasha, saying that he had just sent a telegram to De Freycinet telling him that the Khedive and the agents of the Powers were incorrectly informed as to the situation here; that the canal was in no danger; that he had prevented the landing of French and British forces, and that if the Khedive would make him representative of France here, he would insure the safety of European life and property, and security of the canal. Arabi replied that he would do all in his power to provide for the safety of the canal, and that an England respected its neutrality. The Times has the following dispatch: ALEXANDRIA, July 28. - The dam across the Mahmoudiah canal is very strongly fortified, and is well adapted to resist the passage of four carriages abreast. The position is fortified with more than 100 guns, some of them being Krupp cannon. Delesseps has applied for and received 'safe conduct' from Arabi Pasha. It turns out that the steamer Sultan, which was sent out under the supposition that she was capable of condensing large quantities of water, is only fitted with empty tanks, without the proper condensing apparatus. The Globe reports Sir Garnet Wolseley seriously ill. ALEXANDRIA, July 28. - Osman Pasha, Rifi and twenty-six Circassian officers who were implicated in the recent plot to assassinate Arabi Pasha, arrived here today from Constantinople, having been telegraphed for by the Khedive. They were received with great ceremony. Capt. Fisher has constructed a shoring iron-clad, on rails, similar to those used during the American civil war. 1.30 Evening - Explosions were heard here throughout the day, caused by the British destroying cannon and powder magazines in the forts. Two armed parties started to-night from the Alexandria passenger station to repair the railroad cut by the rebels on the Alexandria side of Mahalla Junction. Major Gordon has been appointed Chief of Police, vice Lord Ch. Balfour. Arabi Pasha has arrived here. CONSTANTINOPLE, July 29. - The Porte denies that it has received any telegram announcing the submission of Arabi Pasha. Fifteen thousand troops have been ordered to proceed to Egypt next week. PARIS, July 29. - The Journal des Debats says: There has been a number of deaths during the past four days and the disease is regarded as epidemic. Col. Soto, of the Mexican regular army, lost his wife and daughter, and is now dying himself. Brownsville, Texas, and Matamorras have been quarantined against by the lower Rio Grande towns. Great excitement and consternation exists throughout the States of Tamaulipas and Nueva Leon, Mexico. News was received here yesterday that the coast cities will be quarantined against immediately, as ships have been freely plying between Matamorras and other Gulf towns. A dispatch from Austin confirms the news given above, and says that the State of Texas has notified the New Orleans board of his action and will picket the Rio Grande with rangers, if necessary. He who is drunk with the love of the world is never free from temptation; he will pull down his soul to build up an estate. - Thomas Watson.

THE DYING STATESMAN. The Horrors Attending the Approach of Death of Hon. Ben Hill - His Resignation and Christian Philosophy - The Treatment Used to Alleviate His Sufferings - His Death to be Expected at any Moment. (By Telegraph to the Morning Star.) WASHINGTON, July 28. - An Atlanta dispatch says: "In modern annals there has not been a death so full of horrors as that which Benjamin Harvey Hill is now suffering; nor has the resignation and Christian philosophy exhibited been excelled. Slowly dying of one of the most loathsome of diseases, he is yet cheerful, patient and resigned. The patient is put to sleep every night about 8 o'clock with hypodermic injection of morphia, and does not awake until 11 o'clock the following morning. Three grains of morphia are administered daily, the patient never being allowed to come thoroughly from under its influence. His food consists of milk, into which yolks of eggs have been beaten and a little whiskey stirred. About this mixture this mixture is passed into the patient's stomach every day through a tube, none of the fluid touching his palate. The cancer (for such it is acknowledged to be) by all but those who have not had any connection with the case, has destroyed all of the tissues of his throat and mouth. On the left side, as well as the lower jaw, or sub-maxillary bone, the opening is so large that two or three fingers can be thrust up into the mouth, from below, and the salivæ can be seen when the patient is lying down and one approaches him from the feet. The outer carotid artery is exposed, and the pulsation is very seen. The other connective tissues has been eaten away, and only such tough elastic substances as compose the walls of the artery are left intact. What is left of the tongue is attached to the right side by a tender ligament, and constant fear is felt that it will become detached and fall into the patient's throat when asleep, and thus end his sufferings. While yet sufficient strength exists for a further continuance of the contest with the dread destroyer, his mouth is kept filled with absorbent and antiseptic cotton, which is frequently changed, as is the dressing on the outside. No internal remedy is now given, nor has any been administered since the death of the patient. The French cure, which consisted of an injection into the blood of purified carbolic acid, the object being to destroy the cancerous germs in the blood. The final change, it is now thought, will be made from ether evaporation. If the morphia treatment was suspended he would soon sink from the effects of pain. Now all that can be done is to alleviate his suffering and prolong life for a few days, which, in spite of his terrible condition, he is anxious to prize more than those upon which he gained his glory." CRIMINAL RECORD. A Bank Defaulter Arrested - Execution of a Murderer - Extra-Work of 575. S. District Court - Conviction with Forgery and Embezzlement - The Star Route Trials - Fraudulent Accounts Presented by a U. S. Marshal. (By Telegraph to the Morning Star.) DETROIT, July 28. - Frank Bigelow, former receiving teller of the National Bank of the Republic, Washington, was sentenced to prison for the embezzlement of \$25,000. He was sentenced to prison for the embezzlement of \$25,000. A reward of \$1,000 had been offered for his capture. He was in Canada, and virtually gave up his life, saying he was tired of being hunted from place to place. CINCINNATI, July 28. - A special from Lexington, Ky., says that Isaac Turner, colored, was hanged there this morning for murdering another colored man in June of last year. The execution was private, and everything was done decently and in order. RICHMOND, Va., July 28. - A warrant was issued some days ago by U. S. Commissioner Pleasant for the arrest of John R. Popham, until recently clerk of the U. S. District Court here, on charges of forgery and embezzlement. The warrant was placed in the hands of R. P. Hughes, but was returned by him yesterday not executed. Popham having no domicile, owing to his removal to Washington some months ago, where he also holds the position of superintendent of the folding room of the House of Representatives, the warrant was thereupon forwarded to U. S. District Attorney Corkhill for execution. Popham is said to be forging the name of Judge Hughes, of the U. S. District Court, in the matter of several bankruptcy cases, thereby obtaining about \$2,100 in money and appropriating it to his own use. WASHINGTON, July 28. - The presentation of the presentation of evidence in the Star Route cases to-day, excepting as to that of ex-Senator Spencer, of Alabama, should be found. A writ has been out for him for some weeks, but the presentation have been unable to find him. The case is adjourned to Monday, as the witnesses were unprepared to go on pending an arrangement among numerous counsel of the order of business. The Department of Justice has been informed that Capt. G. S. Corp of engineers are, we learn, in the neighborhood of Red Springs, Robeson county, slowly working their way in this direction. At their present rate of progress - half a mile a day - it will take them the middle of September to reach Fayetteville. Dr. J. W. McNeill exhibited to us a few days ago a piece of adipocere, being a piece of a hog which fell into a ditch some thirty years ago in the lower part of the county and was converted into a sort of waxy matter known by the name given above. The grain of the skin is well preserved and also a few of the bristles. On Sunday, about noon, George Granger and Charles Simmons, two colored men, got into a difficulty over a game of cards, which resulted in Granger's getting pretty severely gashed by Simmons with a razor. On the 10th inst., the dwelling house of Mr. R. B. Luterlogh, of this town, located at Haslam, Georgia, was struck by lightning and considerably damaged. The Democrats of Cross Creek townships held a spirited meeting last night for the nomination of Col. W. Green for Congress. George M. Rose, Esq., Col. Green, R. S. Husack and W. C. Troy, Esq., made effective speeches. It was resolved to organize a Bennett and Green committee. Tom Drake, a respectable colored butcher, of this town, has maintained his position under the market house as a dispenser of beef for half a century. He commenced on the 29th July, 1832, and will complete his fifty years day after tomorrow. For thirty-five years he has been a member of the F. I. L. Infantry, performing, until of late years, the duties of drummer. We find in the Reading (Pa.) Herald a well written letter from Mr. J. M. Spahn, who is engaged with Mr. A. S. Rowland in the spoke works in this vicinity. He says: "The Southern people are the most generous I have met with in all my travels through some twenty States in the Union. With regard to safety of life and property I venture to say it is safer to travel here in the night than in the North by daytime."

NEW YORK. Excessive Mortality - Deaths for the Week 1217. (By Telegraph to the Morning Star.) NEW YORK, July 29. - The mortality for the week ending at noon to-day reached the appalling figure 1,217. As large a number of deaths has not been reached in a single week in ten years. The deaths for the day numbered 218; one-third of the victims were infants, who succumbed to cholera infantum, due to the heat. Five sunstroke cases were reported in Brooklyn to-day. New Berne Nut Shell. Jas. E. O'Hara commenced the canvass for Congressman of this district last night by making a lengthy and very able speech in Five Points.

THE STAR has been favored with a box of grapes which though green grapes were neither sour grapes nor unripe grapes. As soon as we took good look at them we saw that they were good Democratic grapes, and we soon got on the very best of terms with them. The Norwegian barque Walle, Capt. Walle, was cleared from this port for Hamburg, yesterday, by Messrs. Paterson, Downing & Co., with 5,365 barrels of rosin, valued at \$10,973.89.
