- Weldon News: We have been informed that Senator Voorhees has promised to deliver the address at our next fair, which will be held here on the 5th, 6th, 7th, 8th and 9th of November next. There seems much misunderstanding and many erroneous statements about Hali fax. A reference to Prof. Kerr's map shows that Halifax county is thirty-nine miles long from the Warren line at Littleton to the Martin line at Palmyra. It is the nineteenth county in size, there being eighteen other counties in North Carolina larger than Halifax. Prof. Kerr's map shows that the State of North Carolina is fifteen miles longer and contains 2,000 square miles more territory than alloted to it by previous maps.

During the difficulty Briggs fell mortally wounded, dying of his wounds on the 13th inst. War-rants were issued and Mac Boon was arrested, the Metcal's having fled the State. -On Monday night of this week, at a grocery on Little Creek, in the same locality of the first disturbance, Henry and Cling Metcalf got into an angry rencontre; Henry drew his pistol and Cling his knife; Cling fell, shot through the left arm, the ball ranging near the heart, dying in a few min-utes. Henry was stabbed to the hollow, and there are no hopes of his recovery. The cause of this latter affair is said to have been liquor, both parties being under its influence. —Raleigh editorial correspondence: There are nineteen negroes in the two houses-3 in the Senate and 16 in the house-well-behaved men of good character, and of fair intelligence, but no fit representatives of such counties as New Hanover, Craven, Edgecombe, Warren, Halifax and other counties foremost in

Impurity of the Blood, Fever and Ague, Malaria, REGULATOR and all Diseases caused by Derangement of Liver, Bowels and Kidneys.

SYMPTOMS OF A DISEASED LIVER.

Bad Breath; Pain in the Side, sometimes the pain is felt under the Shoulder-blade, mistaken for Rheumatism; general loss of appetite; Bowels generally costive, sometimes alternating with lax; the head is troubled with pain, is dull and heavy, with considerable loss of memory, accompanied with a painful sensation of leaving undone something which ought to have been done; a slight, dry cough and flushed face is sometimes an attendant, often mistaken for consumption; the patient complains of weariness and debility; nervous, easily startled; feet cold or burning, sometimes a prickly sensation of the skin exists; spirits are low and despondent, and, although satisfied that exercise would be beneficial, yet one can hardly summon up fortitude to try it—in fact, distrusts every remedy. Several of the above symptoms attend the disease, but cases have occurred when but few of them existed, yet examination after death has shown the Liver to have been extensively deranged.

It should be used by all persons, old and young, whenever any of the above symptoms appear.

Persons Traveling or Living in Un-healthy Localities, by taking a dose occasion-ally to keep the Liver in healthy action, will avoid all Malaria, Billous attacks, Dizziness, Nau-sea, Drowsiness, Depression of Spirits, etc. It will invigorate like a glass of wine, but is no in-toxicating beverage.

J. GILL SHORTER, Governor of Ala.

Hon. Alexander H. Stephens, of Ga., says: Have derived some benefit from the use of Simmons Liver Regulator, and wish to give it a further trial.

"The only Thing that never fails to Relieve."—I have used many remedies for Dyspepsia, Liver Affection and Debility, but never have found anything to benefit me to the extent Simmons Liver Regulator has. I sent from Minnesota to Georgia for it, and would send further for such a medicine, and would advise all who are similarly affected to give it a trial as it seems the only thing that never fails to relieve.

P. M. JANNEY, Minneapolis, Minn. Dr. T. W. Mason says: From actual experience in the use of Simmons Liver Regulator in my practice I have been and am satisfied to use and prescribe it as a purgative medicine.

THE COMMON SCHOOLS.

Raleigh News-Observer.

From a glance at Superintendent Scarborough's report we gain some interesting facts. The receipts from taxation for schools last year were \$421,499.89, of which the polls paid \$174,732.97, and property \$162,095. 88. There was derived from licenses \$51,662.37, from fines and penalties \$13,205.98, There was on hand from 1881, \$292,628,23.

There was on hand at the end of the school year of 1882, \$212,417.25, and there was disbursed during the year \$509,736.02, of which \$374,-008.49 was paid to teachers. The county superintendents were paid \$18,732.

There are 463,160 children of school age in the State, of whom 233,071 were enrolled as pupils.

This shows an enrollment of only fifty per cent. of the children. The average attendance was only 132,546, or about 28 per cent. The number of schools taught was 3,578 white schools and 1,750 black. The average length of the school term was three months. The pay of the white teachers averaged \$24 a month, and that of the colored teachers \$20 a month. The number of teachers was 5,173, of whom 3,388 received instruction in Teachers' Institutes and Normal Schools. Of the disbursements \$297,000 was distinctively for the whites, and \$152,000 was distinctively for the blacks. The residue, about \$60,000 was for purposes applying alike to both races, and divided in proper proportion would probably be about \$40,000 for

whites and \$20,000 for the colored. So we may say the disbursements have been about \$337,000 for whites and \$172,000 for colored, or the proportion is one-third to the negroes and two-thirds to the whites. The negroes pay about one-third of the poll tax, or about \$60,000, and perhaps \$5,000 property tax for school purposes. Their total payments for school purposes is certainly under \$70,000, while the expenditure for colored schools is about \$172,000. The whites thus contribute \$100,000 a year towards the colored schools

besides paying for the white schools. The number of "stay at home" children is out of all reason. Of 286,324 white children, only 144,835 attended school last year. One-half of them do not avail themselves of the advantages provided for them. In round numbers there are 50,000 square miles in the State. Throw off 5,000 square miles for swamps, mountains and wilderness, and we have 45,000 square miles divided into 5,250 school districts, making nearly seven and a half square miles to a district. This makes the district average say three miles long by two and a half wide, and the school houses, if at all centrally located, are not more than two miles distant from any part of the district. This distance is not too great for children whose parents are anxious for them to go to school, especially if the weather be good.

The French Cabinet and the Chambers-Murder Trials in Dublin -Wrecks on the British Coast.

Paris, Jan. 27.-In the Chamber of Deputies to-day, towards the close of the sitting, M. Fabre read the report of the committee on the question of excluding pretenders. M. Bourges, Bonapartist, protested, and moved the previous question. M. Cuncod, Bonapartist, also protested. The previous question was rejected by a vote of 99 to 440. Debate on the report was fixed for Monday. After adjourn-ment of the Chamber, members of the Left held a meeting and decided to oppose all bills or resolutions affecting members of former reigning families and not associate themselves with any motion for a secret ballot when such questions are put to a

M. De Cassagnac writes in the Pays that ex-Empress Eugenie did not, during her visit in Paris, request him to modify his attitude toward Prince Jerome. Those who affirm that she associated herself with Prince Jerome's policy, he says, insult her. Her journey to Paris was simply an act of family solicitude and chivalrous generosity.

La France says that the Judge D'Instruction having charge of the insulting the prince of the tion, having charge of the investigation in Prince Jerome's case, to-day transmitted his report in relation thereto to the Court, which will decide within five days as to the

proceedings to be taken in the matter.

Paris, Jan. 27.—At a Cabinet Council to-day the Ministers decided to accept the compromise between the Government and the committee of the Chamber of Deputies on the question of excluding pretenders, based upon M. Fabres' proposal, which also prohibits pretenders from exercising the elective function. Admiral Jauriguibery then resigned. General Bilot, Minister of War, announced that he should oppose the measure, but consented to remain in office, provisionally, in order to avoid a ministerial crisis. Nothing is known regarding the opinion of M. Duclerc, who is still unable to receive any one. The committee, on being informed of the resolution of the Cabinet, agreed by a vote of 6 to 5, to support Fabres' proposal. M. Marcon then resigned the post of reporter of the committee. M. Fabre, who was chosen in his place, was instructed to submit the report to the Chamber of Deputies before the close of the day's session.

Dublin, Jan. 27.—Joseph Brady, Timothy Kelly, Lawrence Hanlon, Jno. Dwyer and Myles Kavanaugh appeared in Kilmorham Court House to-day, charged with a conspiracy to murder Field. The Court was crowded and carefully guarded. Alice Carroll, aged 17, deposed that on the even-ing of November 27th, shortly after 6 o'clock, she saw a car with three passengers and a driver, stop in Hardwicke street. She knew two of them. They were Kelly and knew two of them. They were Kelly and Brady. She frequently saw them at Mullet's public house. Saw them follow Field, whom Brady stabbed. She saw the glitter of a cane-sword or dagger. Two other men were behind Brady when Field fell. He was again stabbed by Brady or Kelly. The three men got in the car and drove off. Kavanaugh was the driver. The witness positively identified Kelly, Brady and Kavanaugh. A long cross examination followed but the testimony of the witness was not broken down. Counsel for the Crown stated that he intended only to prosecute the five prisoners in the dock for prosecute the five prisoners in the dock for the attempt to murder Field. A fine collection of Quartets and Anthems of a novel and striking character, by such composers as Gounod, Stainer, Rubenstein, Sullivan, Rheinberger, Franz and Schubert, in all about 50 pieces, by about 40 noted musicians. Compiled and arranged by W. M. RICHARDSON and J. E. BURGESS. The solo singers are well remembered. **Price** \$1.25. Dobson's Universal BANJO INSTRUCTOR.

The Banjo is getting to be quite a fashionable instrument, and deservedly so, in its present improved form. Messrs. H. C. and G. C. Dobson have provided in this new instructor all that is needed, including 57 bright Reels, Jigs, Hornpipes, Walk-Rounds, Waltzes, Polkas and Schottisches, and 25 popular songs. **Price \$1.00**. Ruth and Boaz. A new Sacred Cantata, of a charming charac-ter, fairly easy, and just the thing to give in a yestry by such a chorus as can be easily formed.

Scenery and costumes simple and not expensive By E. A. Andrews. **Price 65 cents, or \$6** Per dozen.
The CHORAL CHOIR, (\$1.00)) for Choirs, and the PEERLESS, (75 cts) both by Dr. W.O. Penkins, for Singing Classes, are the newest and best books of the kind. OLIVER DITSON & CO., Boston.

A Word to Our Readers

When you read of a medicine that will cure all diseases, beware of it, for every scientific physician on earth knows how fallacious such statements are. But when you read of a medicine compounded by a regular physician and surgeon of high standing, that claims to cure only a certain disease, and furnishes high proof that it does this, you can safely try it, and with the assurance that it will cure you. DR. V. R. STONE, late physician and surgeon of the U.S.A., has placed before the public a preparation called APEPSIA:

which no doubt is the greatest scientific results.

which no doubt is the greatest scientific preparation yet discovered for the cure of dyspepsia, in all its forms, and refers to thousands of ladies and gentlemen of the highest respectability that have been cured of cases pronounced incurable by the best physicians in the country. The following references should be sufficient to convince the most sceptical.
