New York Commercial Chronicle. New York, April 13 .- The movement of the crop, as indicated by our telegrams from the South to hight, is given below. For the week ending this evening (April 13), the total receipts have reached 2,935 bales, against 78,708 bales last week, 86,999 bales the pre-vious week, and 105,062 bales three weeks since; making the total receipts since the 1st of September, 1882, 5,486,138 bales, against 4,368,336 bales for the same period of 1881-82, showing an increase since September 1, 1882, of 1,117,802 bales.

The exports for the week ending this evening reach a total of 99,262 bales, of which 38,868 were to Great Britain, 14,556 to France, and 45,838 to the rest of the Continent, while the stocks as made up this evening are now 769,570 bales.

To-day the opening was stronger, but the demand proved limited, and the early prices were not fully sustained, the market closing unsettled. Cotton on the spot has met with a better export demand, and stocks being comparatively small, have been held with increased firmness. On Monday and again on Thursday quotations were advanced 1-16c. To-day the market was firmer, but prices not quotably dearer, middling uplands, closing at 184c.

adding that he lived in Virginia. The mat-ter was referred to the Postmaster General, who declined to make the appointment, on the ground that Virginia's quota is now full, and that he did not think it proper to credit a resident of Virginia to the State of Iowa, notwithstanding that the application was endorsed by an Iowa Congressman. The prosecution in the Star Route cases to day closed the evidence in rebutal, and the question of an arrangement of the argu-ment to the jury was considered. Geo. W. Steelman, of the schooner Rus sell, reports that the weather was clear enough when the collision occurred, on the 11th, for him to see the vessel's light at a distance of a mile. When near the schooner the steamer suddenly changed her course and soon struck the schooner on the star-board side. Hailed the steamer and re-quested that she should lay by, but received no reply. After getting clear the steamer stopped and threw a bright light on the schooner, apparently to see what damage had been done, and then steamed away. The vessel filled in four hours, with all hands pumping constantly. The only part of the vessel not submerged was the top of the cabin house, upon which we all re-mained until the afternoon of the 13th, when we were taken off by the brig Robert distance of a mile. When near the schooner when we were taken off by the brig Robert Dillon.

How it was Done.

"How do you manage," said a lady to her friend, "to appear so happy and good natured all the time?" "I always have Parker's Ginger Tonic handy," was the reply, "and thus easily keep myself and fam-ily in good health. I am well, and I always feel good natured."
