IN NO FEAR OF THE ORGAN A North Carolina Editor Speaks his

Scotland Neck Commonwealth. The Virginia State Democratic Convention has declared in favor of abolishing all internal revenue taxes. The proposition literally stated amounts to this: The people of Virginia prefer a tax upon the ne-cessaries of life rather than a tax upon the huxuries. This may be sound political sagacity, but we are disposed to doubt it. It seems to us to be virtually a declaration in favor of a big tariff; for the Government is obliged to have revenue from some source, and if whiskey, tobacco, snuff, and cigars are not made to bear a portion of the burdens, then it seems to us that a high tariff follows as an inevitable consequence. The system of collecting these internal taxes has been so odious that the people are hardly prepared to reason on this subject. But it is high time for the Democratic party to cease yielding to expediences and superficial measures, in order that temporary good may come thereof.

It is impossible for the human mind to conceive of greater dangers to our country than those the continuance of a high protective tariff threatens. The more generally the wealth of a country is scattered the more liberty there is in that country; the more difficult it is to form combinations to oppress; less corruption is there: more virtue, more manliness, more independence is there. \* \* So the only wise thing to do is to put the great struggling toiling mass of mankind on an equal footing so far as can be done by the enactment of just laws that will bear equally upon all-by the repeal of the present unjust, oppressive, iniquitous, monopoly-fostering tariff law. The primary and fundamental object of taxation is to raise means necessary to carry on the government. The taxes ought to be so arranged as to bear equally upon every individual and every industry. Revenue, then, being the only object of taxation, we should take the best and most expeditious modes of raising the most taxes with the least oppression to the people. How can these results be best attained? By a low tariff for revenue that will permit the importation of foreign commodities, thus creating competition; or by a high protective tariff that will exclude importation, thus aiding monopolies? By the one method, an abundant revenue can be raised, and the burdens will be light. By the other, revenue can be raised, but it will be an unjust extortion from the people. In our judgment, a low tariff can only be brought about by the retention of the Internal Revenue

It is useless to say that the system of collecting these taxes cannot be done in a way more satisfatory to the people. It is useless for one part of the press to become sour, bitter and acrimonious in the discussion of this subject because the other part sees fit to express its views. We see no reason for strife and harsh language. Why not denounce a person for his religious views as well as for his convictions on this subject? The one would be as reasonable as the other. We think the people should be enlightened upon this subject as well as upon any other. We do not profess to be infallible, nor to be wise above what is written. We recognize the fact that the majority rules. We are Democrats. When the people speak through their representatives in convention assembled after this subject is discussed, if they are with us, we shall be better pleased and much rejoiced; if they are not, we will be pleased still, and we will not feel one particle worse for having advocated what our judgment led us to believe to be right.

SOUND VIEWS IN EASTERN CAROLINA.

The Star Indorsed-Change the Sys Elizabeth City Falcon.

It is not always our good fortune to be able to agree with the editor of the STAR, but our tariff views are identical. We claim to have said more on this question within the past two years than any weekly newspa-per in the State, at least any that comes to this office-for if we have any particular hobby it is a low tariff, adjusted so as to meet the legitimate expenses of the government. Our views, concisely stated, are:

A tariff for revenue only; money on imports to run the governmentnone for the enrichment of monopolists-and only so much tax for revenue as may be necessary after the in-ternal revenue taxes shall have been

present system of collection is justly odious and pernicious and should be changed, but let the taxes stand ! We fail to realize the great benefits that will come to us from cheap whiskey and tobacco. We are willing to pay two prices for these articles, for the purposes of revenue, but are unwilling to pay tribute on our hats and coats and shoes and salt and sugar and other necessary articles to greedy corporations and grasping monopolists.

REDUCE THE TAXES ON THE NECESSARIES FIRST.

MICA, GRAPHITE AND CO-RUNDUM IN NORTH CAR-OLINA.

Washington C. Kerr, State Geologist. A great many mines of this mineral have been opened in the last six or eight years, in some of the Western counties of the State, in the Archæan rocks. It is found in ledges (veins) of very coarse granite.

Many of the plates of Mica are of remarkable size, reaching three and even four feet in diameter. It is used chiefly in the mannfacture of stoves, and the mining of it is a very

profitable industry. Graphite is very abundant in the State, both in the middle and West, existing chiefly in large bedded veins, generally more or less earthy and slaty, but occasionally quite pure and crystalline. It has been wrought on a large scale at several points. One vein, a few miles from the capital, is having been traced fifteen miles.

Corundum has been found in large

quantities in several counties west of the Blue Ridge, and is now ex en-sively mined. Several valuable rubies and sapphires have been ob-tained, among them a crystal of 312 pounds, which is in the Cabinet of

Amherst College, Mass. The principal use of this mineral is in the manufacture of the finer kind of emery, for which purpose it has no equal.

> YEA! Tarboro Southerner.

The Wilmington STAR has propounded a series of questions on the tariff to the Democratic papers of the State. The subject matter referred to in these questions has been covered thoroughly in these columns. The Southerner is in full accord with the STAR's position with regard to each of them, and to that position

our answer then is-yea and amen! In this connection we quote from and endorse the following from the Goldsboro Messenger, one of our most level headed of exchanges:

"We are surprised that the News Observer should for a moment doubt whether the Wilmington STAR 'will abide by the action of the State Convention of the Democratic party,' and should ask the STAR whether it 'will support the platform and declarations of principles adopted by that Convention.' The STAR's record of the past sixteen years certainly does not leave a particle of room to doubt its position in the next canvass."

If newspapers cannot advise the people of their interests, cannot point out evils in bodies politic without first getting the sanction or approval of the party, they are not entitled to respect or confidence, nor can they possibly fulfill their mission as edu-

The STAR is stannelly Democratic, and as true to Democratic principles as the north star for fixedness, and for which there is no fellow in the State Press.

SILVER, LEAD, ZINC AND COPPER IN NORTH CAROLINA.

Washington C. Kerr, State Geologist. Silver, lead and zinc have been mined to some extent for more than thirty years in the Middle region, chiefly in Davidson county, at Silver Hill and the neighboring mines, and recently they have been discovered in several of the Western counties. Copper has been found in more than a dozen counties, and a large number of mines have been opened in the last twenty - years throughout the middle and mountain regions, and were wrought quite extensively before the war. Four or five of them have been re-opened since, and one, Ore Knob, in Ashe county, has been put in operation on a large scale. Its ores occur in rocks of both Laurentian and Huronian age, chiefly in a gangue of quartz, but also in hornblende slate, syenite and tremo-lite, and in talcose and argillaceous slates. Most of the gold veins of the State contain copper in large part, and some of the mines of copper were first opened as gold mines. It exists mostly in the form of copper pyrites, although the other common ores are of frequent occurrence,

WEST VIRGINIA Eleven Stubborn Men on a Jury at

Wheeling. WHEELING, Aug. 11.—One month ago yesterday the trial of pilot Kellar, of the steamer Scioto, which came in collision with the steamer John Loomis, July 4th, 1882, by which nearly sixty-eight lives were lost, was commenced at Parkersburg, in the U. S. Circuit Court. On Tuesday evening last it was given to the jury and yesterday the jury was discharged without agreeing. Eleven stubborn men are said to have caused the disagreement.

THE BEST DE TOW OF ALL FOR MAN AND REAST.

For more than a third of a century the Mexican Mustang Limiment has been known to millions all over the world as the only safe reliance for the relief of accidents and pain. It is a medicine above price and praise—the best of its kind. For overy form of external pain the

Mustang Liniment is without an equal.

It penetrates flesh and muscle to the very bone—making the continuance of pain and inflammation impossible. Its effects upon Human Flesh and the Brute Creation are equally wonderful. The Mexican

Liniment is needed by somebody in every house. Every day brings news of the agony of an awful scald or burn subdued, of rheumatic martyrs re-stored, or a valuable horse or ox saved by the healing power of this

hich speedily cures such ailments on HUMAN FLESH as

Rheumatism, Swellings, Stiff oints, Contracted Muscles, Burn Joints, Contracted Muscles, Burns and Scalds, Cuts, Bruises and Sprains, Poison our Bites and Stings, Stiffness, Lameness, Old Sores, Gleers, Frostbites, Chilbians, Sore Mipples, Caked Breast, and indeed every form of external discase. It heals without scars. For the Brute Creation it cures Sprains, Swinny, Stiff Joints, Founder, Harness Sores, Hoof Discases, Foot Rot, Screw Worm, Scab, Hollow Horn, Scratches, Windgalls, Spavin, Thrush, Ringbone, Old Sores, Poll Evil, Film upon the Sight and every other ailment to which the occupants of the Stable and Stock Yard are liable. The Mexican Mustang Liniment always cures and never disappoints; and it is, positively.

THE BEST FOR MAN OR BEAST.
