PRETTY PYROTECHNICS.

An immense crowd assers bled in front of the City Hall last night to witness the dis play of fire works, and they were fairly de lighted, for this was indeed one of the brightest features of the day. Some of the designs were both original and beautiful. but this reporter hazards the opinion that eliery fountain "took the cake." A very amusing part of this exhibition was the rocket duel between Messrs. Brown and AT THE FAIR.

The pyrotechnic display over, hundreds of the spectators took in the Fair. For several hours the beautifully decorated ball was thronged with visitors, and many were the compliments paid both the management and the exhibitors on the splendid success THE GRAND BALL.

The committees and managers acquitted themselves with credit, and the general verdict was that the management of the Fruit Fair scored another success in the grand ball.

ASHBURNHAM, MASS., Jan. 14, 1880. I have been very sick over two years. They all gave me up as past cure. I tried the most skillful physicians, but they did not reach the worst part. The lungs and beart would fill up every night and distress me, and my throat was very bad. I told my children I never should die in peace antil I had tried Hop Ritters. I have taken two bottles. They have helped me very much indeed. I am now well. There was a lot of sick folks here who have seen how they helped me, and they used them and are cured, and feel as thankful as I do that MRS. JUDGE BLACK.

Official Announcement of his Demise [By Telegraph to the Morning Star.] WASHINGTON, Aug. 20.—The following circular, announcing the death of Judge Black, was issued from the State Depart.

"Department of State Washington D. C.,
August 20.—The President directs the undersigned to perform the painful duty of announcing to the people of the United States that Jeremiah S. Black, formerly Secretary of State and distinguished by faithful services in various public trusts, de-parted this life at 2 o'clock on the morning of the 19th inst. As a mark of respect it is hereby directed that the Department of State be closed on Tuesday, August 21st, the day of the funeral; that the building be draped for thirty days, and that the flag be placed at half-mast until after the funeral.

FREDERICK F. FRELINGHUYSEN,
Secretary of State."

A similar notice was issued from the Department of Justice.

Those Western Cyclones.

Cyclone means a storm going in a circle.
But it is of extended area. A tornado, or
hurricane, is a storm going in a circle of
limited area. A cyclone does not have thun: der and lightning accompaniment. A tor-nado always has. Why then will people persist in calling those western storms cyclones? They are tornadoes, incident to summer, and in this respect they are very like the tempests which summer sets a going in the human body. Only there is no cure for the tornado: But Perry Davis's Pain Killer commands the situation so far as cerned. You needn't have your physical house upset, if you don't want to.ii x

REDUCE THE TAX AND ABOLISH THE BUREAU.

Goldsboro Messenger, July 12th, 1883. As long as the public debt remains to be paid, an enormous revenue must be collected from somewhere to pay it with. Reduction of custom duties below a certain point, while in the end likely to produce revenue sufficient, would have a deficit, perhaps a heavy one, in the beginning of the experiment. This is not to be thought of. The sage conclusion of statesmanship-in fact the dictate of common sense is to preserve just so much of the internal revenue duties as combined with a tariff for revenue, will support the Government and pay that part of the indebtedness which it is mandatory or desirable to discharge at an early date.

But we are told, and we know, that the internal revenue bureau in all its branches is an infernal bureau with the sulphur of the pit exhaling therefrom. We are urged, and the insistence is admitted to be just, to join in a crusade against an institution which is at once odious and useless. To this we consent. The bureau, except as a hive of corrupt energy for the Republican party, is not worth a row of pins. It ought long ago to have been abolished. The fraudulent reform of cutting down the districts decieves nobody. The machinery is made to work that much the more easily in the debauchery of voters. But what, it is asked. would you put in its place, if the tax is to be collected? There are several plans, but perhaps it is only neces to mention the mode of selling the stamps at Washington to the manufacturers. That will answer every purpose of the present complicated costly and vexatious system of collection. More money will be realized, less fraud perpetrated and better feeling will exist in the country. Try it.

THE OAKS OF NORTH CARO-LINA.

Washington C. Kerr, State Geologist. The oaks rank with the pines in value, and excel them in variety of uses, number of species and extent of distribution. While the pine (a single species) gives character to about one-third of the forest area of the State, the oaks dominate not less than two-thirds. There are twenty species in the United States, all of them found in North Carolina, with possibly one insignificant exception. Among these the most important are: The white oaks, of which there are several species, the most valuable, Quercus alba, Q. obtusiloba, (post oak and Q. prinus,) forming extensive forests in all sections of the State. On account of its strength and durability and great abundance, its uses are important and manifold, both for domestic purposes and for export in the form of staves and ship timber. The shipyards of Liverpool are already seeking their material in the forests of middle North Carolina.

Several other species of oak are also of wide and varied use, chiefly the red oak, (Q. rubra,) black oak, (Q. tinctoria,) and willow oak, (Q. phellos,) which are abundant throughout the middle and western districts, and often grow to a very great size. Live oak, (Q. virens,) is found only in the seaboard region, whose value in ship-building is well known.

Distinguished American.
YORK, PENN., August 19. Judge
Jeremiah Black died at ten minutes past 2 o'clock this morning. Al-though not unexpected, his death was sudden and was a shock to the community. On Saturday morning he seemed somewhat better, but the improvement was too slight to justify hope for his recovery. An unfavorable change began about 4 o'clock in the afternoon, and he gradually grew worse, but remained conscious almost to the end and died peacefully. From the beginning of his illness Judge Black believed that he would never recover, and was perfectly resigned. His wife, Lieut. Governor Chauncey F. Black and wife, Mr. Henry Black Mr. and Mrs. Hornsby, A. B. Farquehar and his daughter, Mrs. Enhelder, were present. Numerous telegrams of condolence have been received. The funeral will take place on Tnesday at 5 P. M. His remains will be interred at Prospect Hill Cemetery.

Dr. Powers, of the Christian Church, Washington, has been sum-moned and will probably officiate at the funeral. Shortly before Judge Black died he said to his wife: "How can I fear to cross the dark river when my Father waits for me on the other shore." And added: "Would I were as comfortable about all I leave behind unfinished in this world, And then he breathed the following earnest prayer: "Oh, thou beloved and most merciful Heavenly Father, from whom I had my being and in whom I have ever trusted, if it be Thy will grant that my suffering end and that I speedily be called home to Thee; and oh, bless and comfort thee, my Mary."

ECHOES OF PUBLIC OPINION.

The Star Takes the Consistent Course,"

Concord (Cabarrus County) Register. "Tariff for revenue only" is the true doctrine of a Democratic govrnment. Tax luxuries-whiskey. brandy, tobacco, &c., and relieve the necessaries of life-that with which the people feed and clothe themselves, of the burden of tariff duty, in order that those "narcotics" that iniure and deprave health and morals may be made so costly that the people will not use them; and relieve the necessaries of life that they may be abundant, and so cheap that the poorest will be able to buy them. The Wilmington STAR takes the consistent view of this question.

No Abolition of the Internal Tax.

Rockingham (Richmond county) Rocket. And it is all because the STAR has the boldness and candor to utter its objections of the Democratic platform as adopted in 1882. This the News and Observer consideres a departure from the Democratic party and seems to doubt the STAR's ad hereance to Democratic principles. This is altogether wrong. How is the purity of the Democratic party to be preserved if its errors are not pointed out and its mistakes corrected? How is this to be done if the papers are to keep silent? We believe it would be an unwise step for the Democratic party to incorporate in its platform for 1884 a plank for the abolition of internal revenue, and we think the STAR is perfectly right in pointing out the fallacy of such a course. We believe, furthermore, that the STAR's Democracy is as sound as that of any paper in the State, and that it will do as much effectual work for the party. Again, we believe that the News and Observer will do the Democratic party more harm in trying to "read out" the STAR than it will ever do it good.

upon any subject, political or otherwise, and it is an imposition upon the temper and privileges of an editor to have his sentiments unwarrantably scrutinized by one of the same profession. It is not to be understood that we denounce the practice of agreeable and instructive editorial controversies; this we deem a pleasure and a privilege, and we take pride in reading sensible and agreeable controversies in the press. this question was regarded by the STAR as being very uncalled for and unpleasant. The record of the STAR for the past sixteen years of its existence answers strongly the ques-tion in the affirmative. We do not think Mr. Ashe intended any insult very much in that light, and were he to weigh the equity of it, he would find that he acted too hastily. The

editor of the STAR, we are glid to say, has treated the question in a prudent way. We agree with the STAR on the tariff question, and still we are Democratic to the core, yet. Mr. Ashe's opinion is a good one, but we hope he does not think that all the editors who agree with that all the editors who agree with Mr. Kingsbury on the tariff, are Re-publicans, Mahoneites or of any other political faith than Democratic.

LOST FAITH IN PHYSICIANS,—Why is it that so many persons use proprietary medicines, or patent medicines, as they are commonly called? Is it because people lose faith in their physicians? Well, this is, no doubt, frequently the case. There are innumerable instances where cures have been effected by Bosadalis, the Great Southern Remedy for all diseases of the blood, when they had been given over by their physicians. It is one of the best remedies ever offered to the public, and as it is prepared with the greatest care, as a specific for certain diseases, it is no wonder that it should be more effectual than hastily written and carelessly prepared prescriptions made by incompetent physicians. Take ROSADALIS for all disorders arising from impure blood. It is indorsed by leading professional men as well as by eminent physiciaus and others. Try it. LOST FAITH IN PHYSICIANS, -Why is it tha

EARS for the MILLION Foo Choo's Balsam of Shark's Oil POSITIVELY RESTORES THE HEARING, AND IS THE ONLY ABSOLUTE CURE FOR DEAFNESS KNOWN.

This oil is abstracted from peculiar species of small White Shark, caught in the Yellow Sea, known as Carcharodon Rondeletti. Every Chinese fisherman knows it. Its virtues as a restorative of hearing was discovered by a Buddhist Priest about the year 1410. Its cures were so uninerous and many so seemingly miraculous, that the remedy was officially proclaimed over the entire Empire. Its use became so universal that for over 300 years no deafness has existed among the Chinese people. Sent, charges prepaid, to any address, at \$1.00 per bottle.

Hear What the Deaf Sav. It has performed a miracle in my case. I have no unearthly noises in my head and hear I have been greatly benefited.

If have been greatly benefited.

My deafness helped a great deal—think another bottle will cure me.
