- Pittsboro Record: It is reasonably certain that no State tax will be levied North Carolina Railroad from complying with certain provisions of their contract,

The main speakers were Beecher, David A. Wells, the eminent authority and writer upon economic questions, and the Hon. Henry Watterson, editor of the Louisville Courier-Journal. We cannot reproduce the outline of their speeches, but content ourselves with the following "pithy resolution," as it is characterized by the Herald, which was unanimously

adopted;

"Resolved, That in view of the enormous surplus revenue of the Federal Government, of the great temptation which it offers to extravagance and corruption, and of the oppressive means by which this revenue is raised, obstructing commerce, hindering the natural development of manufactures, and taxing the poor out of proportion to the rich, this meeting of citizens of New York respectfully urges upon Congress, at its approaching session, prompt and deci-sive action for the revision of the present sys-tem of national taxation. We believe that, instead of abolishing the internal revenue taxes upon whiskey and tobacco, the true remedy is to be found in a reduction of the present ill-adjusted and oppressive tariff so as to relieve manufacturers from the burden of taxation upon their raw materials, encourage American commerce by free ships, increase the demand for American labor by opening new markets for our products and reduce the cost of materials used in production and improve the condition of the poor, not only by the increased wages sure to follow this increased demand for labor, but also by a large reduction of the taxes now levied upon their food and clothing and upon the materials used in building their homes."

We call the attention of that portion of North Carolina Democrats who have so unwisely been clamoring for the abolition of the tax on whiskey and tobacco to the opinion of leading men in the great commercial metropolis on the subject of wiping out the tax on luxuries and keeping the tax on necessaries.

Inasmuch as a large majority of the leading men in the Congress in the Democratic party are not favorable to abolishing the tax on whiskey, beer and cigars, there is no probability that the North Carolina and Virginia clamor will be heeded. It would be a direful day for the party if the unwise resolution of the Democracy of North Carolina in 1882 was to be adopted by the party at large or by the majority in the next House of Representatives. It will not be done. Not one Representative in five can be found to support such a very unwise and unjust proposition.

THREE SOUTHERN WITNESSES." The Senate Sub-Committee on Education and Labor has been in session at Augusta, Georgia, where there are

most proper resource." We marked for future reference a His biographer would not have communication in the Raleigh Adwritten the following sentence if he vocate of the 14th inst., from Mr. R. had lived in North Carolina in the W. Best, of the "Division of Forest year of grace 1883. He says: ry" in one of the Washington de-"No one now will question that by all of partments. He is well known in this the best principles of political economy. Hamilton was right in his choice. * * The State of which he is a native. He revenue being essential, this was the least writes upon the subject of the Black urdensome way to raise it, and the subject Walnut. He writes in the line of was one which in its nature should always

many of our own editorials and as one who has 'a practical knowledge the excise on spirits as suggested by Ham ilton requires neither explanation nor deof tree planting. There is an increased demand for black walnut while the stock of trees is rapidly diminishing. There has been a vast destruction of these trees in our State. If the improvident and thoughtless owners had them now what a source of revenue they would

have. Mr. Best says: "It does not require a very large tree to nake a sufficient amount of lumber to bring a hundred dollars in New York: To illustrate, look at the following prices in that city \$125 to 150 per lood to choice Selected & seasoned. 150 to 175 150 to 160 5x5 6x6

160 to 170

7x7 175 to 180 8x8 180 to 190 Counters 22 to 28 cents per running foot. I do not know a better investment that the land owners in North Carolina could make than the planting of walnut groves. He enters upon the important sub-

ject of tree planting. Plant 500 nuts to the acre. In ten years cut out one-half. Those cut will fetch \$75 per acre. In eight years they bear 100 bushels to the acre, worth

\$1. This will last for 20 years. This amounts to \$2,000. The trees at the end of 30 years will fetch at least several large and flourishing cotton \$5 each or \$1,250 to the acre. He mills. Inasmuch as an effort is being says they may even double that. He

tied up The tax paid on sugar is from 55 to 70 per cent., according to the grade. Sirups pay 62 per cent. tax. So a family using from 50 to 500 pounds sugar, pays a good round tax for their "sweetning."

The Late Baptist Convention.

Before his sermon Sunday morning, Rev. Dr. Pritchard, of the First Baptist church gave his audience a short but comprehensive sketch of the doings of the recent State Convention at Edenton. He said the Con ention was not very largely attended. there being very few delegates present from churches west of Raleigh; but there was a good attendance and it was a good Convention; the utmost harmony and good feeling characterizing all the proceedings and deliberations. The reports showed a very gratifying condition of the finances, including an unusually large mission fund raised during the year and the \$100,000 endowment fund for Wake Forest College. Altogether, the Convention was a very satisfactory one, and the good people of the Albemarle region knew how to entertain its members.

Dr. Pritchard stated that he presented request for the Convention to meet next year in Wilmington, but Raleigh was final ly decided upon. He thought it altogether probable, however, that Wilmington would be taxed before anything else and as heavily as it will bear. On economic principles, have a showing next time.

Foreign Exports.

The following were the foreign shipments from this port yesterday: Danish Before Hamilton made his second barque Galleon, Capt. Kalsboll, for Hull report recommending that a tax on England, by Messrs, Alex, Sprunt & Son, spirits be laid, several of the States with 2,865 barrels of rosin, valued at \$5, had laid and collected a tax on the 000; the Norwegian barque Lindola, Capt. same. The States regarded the tax Rastrup, for Liverpool, England, by on spirits just as any other tax. Messrs. Alex. Sprunt & Son, with 1,300 Hamilton's Excise bill-to tax casks spirits turpentine and 1,027 barrels of rosin, valued at \$25,500; the Norwegian spirits-passed the Congress in 1791. barque Margrethe, Capt. Hansen, for London, England, by Messrs. Paterson, Down-"Its passage was the signal for the ing & Co., with 1,000 casks spirits turpenmediate display of a lawless and riotous temper in Western Pennsylvania, where the tine and 2.121 barrels of rosin, valued at 20.570; the Norwegian brig San Juan, manufacture of whiskey was chiefly carried on, and therein it spread rapidly through Capt. Bache, for Glasgow, Scotland, by the similar regions of Virginia and North Messrs, Paterson, Downing & Co., with 250 casks spirits turpentine and 2.467 bar-History repeats itself. In 1791 it rels of rosin, valued at \$7,452; and the was regarded in Pennsylvania, Virschooner Timothy Field, Capt. Bellatty, for ginia and North Carolina as a great Arroyo, P. R., with 140,894 feet of lumoppression to tax whiskey, the most ber, 50,000 shingles and 6 barrels of tar.

A hundred years nearly thodist Church are perfectly devoted to have not taught them the sound their venerable pastor, Rev. T. Page Ricaud, and great regret is expressed on all and simple principles of political sides on account of the fact that his four economy. The great financier of years have expired, and that it will be ne-America taught that spirits should cessary for Conference to send him to anbe taxed. The States had so thought other field of labor. It was hoped at one for they had taxed them. Hamilton's time that he would locate here, and many opinion ought to be of weight with would be glad to see him fill the posit

the wharf and sunk and the man was washed overboard, but was quickly rescued by persons on the wharf. At last accounts efforts were being made to save the wood and turpentine on the flat, which had been whee

- In the case of the steam-yacht Mermaid, which was found anchored off Frying Pan shoals on Monday the 19th inst., by the pilot boat Gracie, Capt. Newton, of Smithville, and subsequently brought up to this port; Captain Emery and the crew of the yacht having been found on board of the light ship, we learn that a compromise has been effected whereby the pilot boat receives \$300 for services rendered. A special agent, Captain Nash, of Boston, came on to look after the interests of the boat. The yacht was bound from New Haven, Conn., to Jacksonville, Florida, and will coal up and proceed to her destination to day. The Mermaid, we understand, is to be run in connection with a hotel at Jacksonville.

Robbing a Store.

on Front street was entered Monday night and robbed. The first intimation had of the fact was when the store was opened yesterday morning, when the iron shutters to a window opening on an alley were found unfastened. The only things missed are a gun, two pistols, a case of pocket knives and a package of papers, the latter being valuable to Mr. Jacobi, but to nobody else. It is supposed that the thief was concealed in the store when it was closed for the night.

Criminal Court.

This tribunal convened yesterday, Hi Honor, Judge O. P. Meares, presiding, and Solicitor B. R. Moore prosecuting for the State. The grand jury were charged and a few sci. fas. were disposed of, which was all the business transacted. The following comprise the grand jury: Roderick McRae, foreman: A. J. Walker, Jacob Scott, J. F. Woolvin, D. J. George, W. B. Turlington, J. A. Fore, Robert Green, C. W. McClammy, John E. St. George, Charles Craig, W. H. Flynn, Henry Reeder, Nick Hul len, J. N. Mohr, John F. Garrell, Geo. E. Berden and John Quick.

Death of a Policeman.

Private T. Jeff. Motte, of the police force, died at his residence, on Fifth, bevalued at \$2,885.34. Total valuation \$61,

Pender Court House.

der what circumstances has not been earned-cut her body up and packed her remains in a trunk. This trunk he wheeled towards the river, but found no oppor tunity to throw it in unobserved, and ed it to Ruddy's house, and Ruddy

helped him carry it to his room. Mrs Ruddy testified that Samsn brough that Samsn brought the trunk there. The next morning she heard a noise in the kitchen and on going there saw her husband dead on the floor. Samon struck her several times with a hatchet, and she dropped to the floor and feigned death. The child cried and Samon went to the room where it was killed it with the hatchet brought it to the kitchen, laid the father and child beside the mother, placed a feather bed on them saturated it with kerosene oil sat fire to it and immediately left. Mrs Ruddy sprang out of the window, and was found as before stated. She may possibly recover. The supposition is that Samon sought Ruddy's aid to get rid of Mrs. Ford's body, but the latter refused, and was accordingly killed, to prevent him from exposing the murder. Sa mon then conceived the idea of murdering the whole family and disposing of the bodies of all, including Mrs. Ford, by burning the building. He is very cool and flatly denies all of Mrs. Ruddy's state-

MICHIGAN. An Innocent Farmer Arrested by a Crank for the Murder of the Crouch Family. JACKSON, Nov. 26 .- Yesterday evenin man, representing himself as Col. H. P. Perry, of Pinkerton's detective force, Chicago, applied to C. B. Bush, Superintendent of the Michigan Central Railway, for a special engine to go to Mason, a small town thirty miles north of this place, in quest of the murderer of the Crouch fami-

v. Superintendent Bush, supposing him to be as represented, granted his request. Perry went to Mason, secured the assist-

ance of the sheriff of Ingham county, and arrested a farmer named Andrews, living eight miles west of Mason, and bringing him to Jackson at midnight. Considerabl excitement was caused by the arrest, and thousands crowded to the depot awaiting the arrival of the special engine, with threats of lynching the prisoner. The en-gine was stopped outside the city limits, and the prisoper was conveyed to jail in a hack to avoid the mob. Perry turns out to be a crank and an ex-convict named Howard, and Andrews a respectable farmer, who stopped at a hotel on the night of the murder. Sheriff Winney "examined into the facts and sent Andrews back to his home.

EVACUATION DAY.

Celebration of the Centennial at New York-Business Suspended-Military Display-Salutes-Decorations, &c. [By Telegraph to the Morning Star.]

NEW YORK, November 26 .- The cele ration of the centennial of the evacuatio by the British was carried out with faithful adherence to the published programm in spite of a drenching rain nearly all day. At sunrise the forts and ships fired a salute of twenty-one guns, followed in half an hour with a successful effort of all the steam whistles in the bay and on the rivers to make the most disagreeable noise ima-ginable, thus emphasizing the wonderful ifference between the navigation of 1788 and 1888. The decorations on land and water were elaborate, though much bedraggled. The stars and stripes prebut flags of nearly every dominated. nation of the earth were to be seen at intervals. Places of business were closed, and the entire populations of Manhattan and Long Island gave themselves up to the enjoyment of the patriotic occasion Points of historic interest were surrounded by crowds anxious to recall the scenes of
