of Xerxes and did not become part of a grand and mighty empire. It fared otherwise with us, but we did mighty things, and suffered muchand you are right in finding therein the genesis of the present creative era in Southern literature. J. B. W. New York April 23, 1887.

BACTERIA IN ICE.

Sanitary Era.

Dr. T. Mitchell Prudden, a specialist in the study of bacilli, lectured before the New York Academy of Medicine, March 16th, on "Bacteria in Ice, with Special Application to the Hudson River Supply." Wa-ter with more than fifty bacteria to the cubic centimeter, was pronounced dangerous unless filtered. It was the same way with ice. A small piece of clear ice might hold a million and a half of fever bacteria, without one's suspecting it in the least. One cubic centimeter of ice, frezen for seventy-seven days, had still 72,000 of typhoid fever germs alive in it. New York's ice supply is drawn chiefly from the Hudson River, between Poughkeepsie and Albany. Three millions of tons are gathered there. - Only 350,-000 tons come from the lakes and ponds. Two-thirds of the Hudson nver ice is cut within thirty miles of Albany, one-fourth of it within have us to believe it to be. After twelve miles of Albany. Yet from Troy and Albany 14,000,000 cubic centimetres of sewage are let into the river every day. There is little current and much stagnant water behind the islands below Albany. A half-pint of water from the river here contained over 500,000 bacteria. The average number of bacteria in a cubic centimetre of transparent ice this fact without paying as much to know it as I did. I am quite deter-18 398; in a cubic centimetre of snow ice 9,187. Dr. Prudden suggested mine to spend the remainder of my that the State Board of Health should life in the old North State. begin a rigorous inspection of the ice making on the Hudson. In Albany and Troy there were 75 deaths a year from typhoid fever, and the bacteria had been allowed to pass through the sewage into the Hudson. Freezing

did not kill them. Greatly Excited.

Not a few of the citizens of Wilmington, N. C., have recently become greatly excited over the astounding lacts, that several of their friends who had been pronounced by their physicians as incurable and beyond all hope-suffering with the dreaded monster Consumption-have been completely cured by Dr. King's New Discovery for Consumption, the only remedy that does positively sure all throat and lung diseases, Coughs, Colds, Asthma and Bronchitis. Trial bottles free at W. H. Green & Co.'s Drug Store; large bottles \$1.

COTTON.

N. Y. Commercial and Financial Chronicle NEW YORK, April 22 .- The movement of the crop, as indicated by our telegrams from the South to-night, given below. For the week ending this evening (April 22) the total receipts have reached 14,222 bales, against 21,627 bales last week, 29,-308 bales the previous week, and 34,115 bales three weeks since; mak-ing the total receipts since the 1st of

4,998,88 1885, Sept. 1 The of bales, o Britain, to the To-di

engine having kept the track. ---

MICHIGAN. A Domestie Tragedy at Cold Water.

(By Telegraph to the Morning Star.) COLD WATER, April 27 .- Last night Thomas Johnson of Knoxville, Tenn., for-merly of this city, mortally wounded George W. Gardiner and slightly wounded Mrs. Gardiner, his former wife, and then killed himself. Johnson had been separated from the woman several years and Gardiner had been married to her about two years. Johnson had teen here a week in an effort to see his children which Mrs. Gardiner denied to him, and the result was this tragedy.

PENNSYLVANIA.

Strike of Workmen in Glass Factories al Pittsburg.

By Telegraph to the Morning Star. PETTSBURG, April 27.-The tessers and Rep. mixers in all the window glass factories of this district struck to-day for an increase in wages averaging ten per cent. Fourteen factories have closed down and nearly 1,000 men are idle. Manufacturers say they will resume operations as soon as they can secure men enough to run the factories.

WASHINGTON.

Receipte and Expenditures of the Government. (By Telegraph to the Morning Star.)

can, Dem. WASHINGTON, April 27 .- The total re ceipts of the Government so far this month are \$27,124,000 and the total expenditures are \$11,622,253; being a net gain for the month of \$15,501,845. Heavy receipts and comparatively light disbursements indicate correspondingly large reductions in the public debt for the month, now estimated at between twelve and fifteen million dol-Mugwumps becoming more Democratic, or

It is gua-ranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For sale by W. H. Green & Co.

-- Raleigh News-Observer: Ever since the burning of the cotton seed oil mills in this city, which occurred March 27th under such circumstances as to excite suspicion of incendiarism, detectives have been hard at work in trying to discover the guilty party. The investigations have been quiet and systematic, and late on Saturday night led to the arrest of Noah Evans, colored, who was employed at the mills as day watchman. The detective work so far has been done by Wren's Detective Mora so the has been done by Wren's Detective Agency of Richmond. — Yesterday at Forestville, about 3 o'clock p. m., occurred a shooting accident that resulted in the death of a colored boy named Bobbie Ligon, about 13 years of age. Parties from Forestville report the facts as follows: Mr. M. E. Vann port the facts as follows: Mr. M. E. Yann and the depot agent, together with Ligon were in one of the rooms of the depot handling a Flobert rifle, when Mr. Vann told the boy to run. The boy ran into the waiting room and closed the door, when Mr. Vann quickly raised the rifle and fired. The ball went through the door and struck the how in the templa causing instant struck the boy in the temple causing instant death. — Lt. Winslow has been doing some good work recently for the oyster-growing interest of the State by means of letters in the Baltimore Sun on the possibilities of our eastern waters in that direction at Carthage, Moore county, to day, and last evening Capt. Ashe, the president of the Nems-Observer Company, and sundry other witnesses down to attend it. Col. T. C. Fuller and Maj. J. W. Hinsdale, are coun-
