tion for \$110,000,000 more revenue than the Government can use, in order merely to increase the profits of the comparatively small class of protected people. Every million dollars added to the tariff taxes adds three to five millions to the profits of a small class, about one-tenth of the nation's producers, whom it assumes to be the only worthy objects of its protection; and this fact alone is the cause of the outrage of so heaping up the surplus to the extent of \$110,-000,000 more than can be spent. There is no living man, protectionist or revenue reformer, who could, for his life, maintain any other pretext or apology in the world for sacrificing the interests of nine-tenths of the nation's producers, except the motive to bonus the productions of the tenth part of the producers.

N Y.Commercial and Financial Chronicle NEW YORK, April 29 .- The move-

ment of the crop, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening (April 29) the total receipts have reached 15,141 bales, against 14,222 bales last week, 21,-627 bales the previous week, and 29,308 bales three weeks since; making the total receipts since the 1st of Sept., 1886, 5,122,154 bales, against 5,039,198 bales for the same period of 1885, showing an increase since Sept. 1, 1886, of 82,956 bales.

The exports for the week ending this evening reach a total of 37.881 bales, of which 22,013 were to Great Britain; 358 to France and 15,483 to the rest of the Continent.

On Wednesday there was brisk buying for New Orleans account, and notices for May delivery did not come out with any freedom; the "shorts" consequently became free buyers to cover contrats, and a smart advance took place, but it was not fully maintained at the close. Yesterday, however, there was a fresh tative Democratic Government. advance, favored by a much stronger report from Liverpool. To-day an early advance was followed by some decline; New Orleans was apparently selling out and the close was unsettled. Cotton on the spot was only moderately active, the chief demand being from home spinners, but the deliveries on contract were somewhat larger. Prices remained nominally unchanged until yesterday, when there was an advance of 1-16c. Today there was more doing for export timony, so that the verdict is unani-and the close was firm at 10 11-16c. mous that Electric Bitters do cure all and the close was firm at 10 11-16c. for middling uplands. Fort Gaines (Ga.) Star. As a curious freak of nature we chronicle this week a fact given us by Mr. John Holmes and several other gentlemen, who wouch for its truthfulness. For years the Holmes' mark for their cattle has been a "swallowfork" in one ear. Whenever an acquisition was made to the herd the first duty was to give them this family mark. During the present winter and spring five or six calves have been born into this herd, and each one of them can be a set of the state is a set of the s

ing by "sacred promises," where does Mr. Lamar get his authority for such a statement? The demand of the Chicago Convention, which nominawhen I tell you that he was seen, acted Mr. Cleveland, was simply for "honest Civil Service Reform." No tually seen, mind you, in the state that the lady novelist describes as Democrat believed this to mean the being "dissolved in tears." The retention of Republicans in office. Honorable John was not literally As if to enforce the contrary, the dissolved, you know-that is only tenure-of-office act has since been figurative-but that he did cry a few repealed. LONDON, May 3 .- Home Rule agitation has been organized throughout the west of England. The Earl of Roseberry is announced to speak at Plymouth on the 20th inst, in favor of the movement. James Stansfeld, ex-president of the local govern-ment board, will make a Home Rule ad-dress at Newton Abbott, June 4, and Baron Wolverton and Sexton will jointly address a meeting in favor of Gladstone's policy at Exeter June 11

LONDON, May 4.- The Calcutta English-man confirms the defeat of the Ameer's troops. It says that the insurgents now, hold Khyber Pass and the surrounding hills, and declares that the Indian press has over rated the insurgent losses. All of the Ghilzai attacks have resulted in more or less of a success. Cabul is nearly denuded of troops.

PARIS, May 4.- The Diz Nisume Scicle dismisses as fictitious the ostensible reasons given by the German press for General Walderzes' tour along the frontier of Alsace-Lorraine, and says: "Everything warrants us in thinking and saying he is solely studying the best points of concentration for German troops in proximity to our eastern frontuers. We are surprised that the German papers should seek to mislead us in regard to the object of his journey.

Sr. PETERSBURG, May 4.-The seven prisoners condemned to death for connection with the recent plot to assassinate the Czar, are all men. The others who were convicted of complicity in the plot received various sentences to penal servitude, the most severe being twenty years. All of the prisoners, except the student Auliandroff, behaved quietly during the trial. It is pos-sible that the Czar may mitigate some of the sentences.

PERIN, May 4 .- The government has ordered that every foreign missionary in China must hold a passport from his own government in order that his nationality may be shown. All other passports are declared invalid.

LONDON, May 4. -In the House of Com-mons to-day, J. P. O'Connor condemned
