LONDON, July 18.—The replies of Powers to Bulgaria's note, asking their ap-proval of the election of Prince Ferdinand of Saxe-Coburg-Gotha as Prince of Bulgaria are evasive. CONSTANTINOPLE, July 18.-Kiami Pacha, Grand Vizier, has resigned. This resignation was the consequence of a vio-lent article published in the Misam, attack-ing the Grand Vizier, Cabinet and the whole administration, which was inspire by the sultan, in order to excite public in dignation against them, and thus cover his own responsibility in connection with the

Egyptian convention. Paris, July 18 .- Mr. Lowe, member of the Chamber of Deputies, to whom Gen. Boulanger wrote the letter which has caused so much talk during the past two or three days, is the man who went to Berlin at the time Mr. Schnaebles was arrested by the German police on the frontier, and interested himself in behalf of the prisoner. Many people are convinced that Gen. Boulanger knew that the letter would be published. The Cabinet were divided on the advisability of taking cfilcial notice of the letter. Gen. Fennen, Minister of War, contends that as the letter was a private communication, no action against Gen. Boulanger is possible. Mr. Ramier, Prime Minister, adopts a contrary view, and wishes to call Gon. Boulanger to account for the letter. It is stated that Deputy Laisant received from Gen. Bouanger a similar letter to that published

by Mr. Lowe, but he refuse to divulge its LONDON, July 18 -The Times' correscondent at Vienna has had an interview with Prince Ferdinand of Saxe-Coburg-Gotha. The Prince said he had not de cided whether he would go to St. Petersburg to personally request Russian recognition of his election to the Bulgarian throne. He would not allow himself to be enticed into taking any course that would e likely to further erstrange Russia and Bulgaria. He said he was disappointed that Prince Alexander of Batenburg, late ruler of Bulgaria, had omitted to congratu-

late him on his election to the vacant King Milan, of Servia, in an interview with the same correspondent, expressed the belief that Russia would never sanction the occupancy of the Bulgarian throne by Prince Ferdinand. Alluding to the idea of the federation of Servis and Bulgaria under himself, King Milan said he was willing to enter into such a project but only under Turkish protection.

LONDON, July 18 .- The Mark Lane Express, in its review of the British grain trade during the past week, says: English wheat continues to decline, although deliveries are small. Sales of English wheat during the week were 20,248 quarters, at 34 shillings, against 28,759 quarters, at 35s 4d during the corresponding week last year. The foreign wheat market is deadly slow; values are in favor of buyers.

In the Liverpool market prices are 1d per cental lower. Flour is steady. Oats are against buyers. Twenty-four wheat were sold, 13 were withdrawn, and eight remain. At to-day's market, wheat was very quiet. Flour was slow and depressed. Corn, barley and beans dull.

London, July 18.—Walter Hume Long, Conservative member of Parliament for the Devizes division of Wiltshire, called the attention of the House of Commons this afternoon to a breach of Privilege committedion Friday last in the lobby by Dr. Charles Kearnes Deane Tanner, Parnellite member for Middle Cork, in calling him (Mr. Long) a "damned snob." Continuing, Long said he had by letter warned Dr. Tanner of his determination to bring the matter before the House. Notwithstanding this, Dr. Tanner was now absent, although he had full knowledge that his presence was required to defend himself. The facts of the case were, Mr. Long having heard that Dr. Tanner had complained that his vote had not been recorded in a certain division, and meeting him in the obby, asked him what was the matter and if anything was going wrong in the record of the division? Dr. Tanner replied 'You're Tory, aren't you? I wish to God that you wouldn't speak to me. I have told you damned Tories never to speak to me. [Irish cheers ] Talk to your own damned lot." Long answered, "I wasn't iware you didn't wish to be spoken to.'

Dr. Tanner then went on-"Keep your damned tongue in your mouth. Don't make a blasted fool of yourself." [Laughter by the Parnellites.] As Long was hurrying away, Dr. Tanner called out: 'There goes a camned snob' Long, after giving this history of the incident, said he would rather have passed over the affair with contempt, but as it occurred within the precincts of the House and in the presence of several members, he felt it to be his duty to bring the whole matter before the House.

Mr. W. H. Smith, Government leader,

said that in view of the necessity to maintain decorum, he would move that in consequence of his disorderly words, Dr. Tanner be suspended for a month. Sexton said he considered such a proceeding scarcely less disgraceful than the language complained of. Dr. Tanner had frequently requested Conservative members not to address him. Mr. Long would have acted wisely if he had not spoken to Dr. Tanner at the time. The Doctor was excited over his exclusion from the division; was accorded, and Dr. Tanner did not deserve the severe penalty proposed. As to his absence, he was in Ireland, keeping a public engagement. He would meet the accusation any day appointed for him to do so. Sexton moved to adjourn debate until a time when Dr. Tanner should be present. Smith reminded the House that no request for detail nor any apology had been offered by Dr. Tanner. He had had ample

notice that his conduct was to be brought before the House. Parnell submitted that there was no precedent for suspending a member for s month without giving him' a chance to be heard to repel the charges against him. Gladstone said he thought that the proposed punishment for the offence was supported by ex-parte evidence only, and a de-

BALTIMORE & OHIO. The Big Deal Off-All Negotiations with the Syndicate Absolutely at an End.

IBy Telegraph to the Morning Star. PHILADELPHIA, July 20 .- The Record will to morrow publish the following: Elberon, N. J., July 20, 1887.—Hon. Wn phia: Dear Sir-In reply to your courte ous inquiry as to the real status of the negotiations called by the press "The Balti-more & Ohio Deal," I beg to say that all such negotiations are terminated. The syndicate which was to acquire a block of stock of the Baltimore & Ohio Railroad Company in such a way as was believed would be beneficial to all parties and railroads concerned, did not at the appointed time comply with their engagements, and all arrangements or negotiations with them are now absolutely at an end. I have not purchased the stock of Johns Hopkins Uni versity, as stated in some of the newspapers I had an option on that stock and also upon that of several other holders, but I have not exercised these options; nor do I now intend to do so. Great Pire at the Standard Oil Works -A Merchant Wakes an Amin -Third Avenue CarHorses Poiso

(By Telegraph to the Morning Star.) New York, July 20.—By 6 o'clock this morning the great fire at the Standard Oil Works, at Constable Hook, N. J., which broke out at 12:80 was under control. Two large warehouses, three immense tanks, large warehouses, three immense tanks, four big docks and over ten thousand barfour big docks and over ten thousand barrels of oil were destroyed. At one time it
looked as if several warehouses, a dozen or
more tanks in the neighborhood, a large
brick storehouse, the docks along the river
front and the manufactories of the Bayonne chemical works, the Oxford Copper
and Sulpur Co., the Standard Match Co.,
and the farge lumber yard of A. W. Booth

for assistance. Five powerful tugs were sent from that place, and they arrived at Constable Hook at half past one o'clock. Though the firemen kept throwing powerful streams upon it, the tanks which were all that separated the large frame warehouse also used as a cooperage, from the flames, also caught fire and was blazing. For about half an hour the firemen kept the destroying element from crossing a dozen feet that still intervened, and they might have saved the threatened building had not the pipe at the base of the tank burst and hurled the burning fluid upon the structures and fired it. As it was started with inflammable material it was soon licked up by the flames which then got beyond control and swept lown toward the river. At the docks there had been a large number of vessels. These had, however, been towed out into the stream, but none too soon. First one pier took fire, then another and another, until four large piers were also in flames, casting a lurid glare upon the waters of New York bay. By this time the tugs had and they fought the fire from the water, By this time the tugs had arrived the burning piers and it was only the efforts of the men on the tugs that checked s spread of the flames and saved the factories

CONSUMPTTION CURED.

An old physician, retired from practice, having had placed in his hands by an East India mission-ary the formula of a simple vegetable remedy for the speedy and permanent cure of Consump-tion, Bronchitis, Catarrh, Asthma and all Throat tion, Bronchitis, Catarrh, Asthma and all Throat and Lung Affections, also a positive and radical cure for Nervous Debility and all Nervous Complaints' after having tested its wonderful curative power in thousands of cases, has felt it his duty to make it known to his suffering fellows. Actuated by this motive and a desire to relieve human suffering, I will send free of charge, to all who desire it, this recipe, in German, French or English, with full directions for preparing and using. Sent bymail by addressing with stamr, naming this paper W.A.Nores, 149, Powers's Block, Rochester, N. Y.

MRS. WINSLOW'S SOOTHING SYRUP.—Ray STLYANUS CORN thus writes in the Beston Christian Freeman:—We would by no means recommend any kind of medicine which we did not know to be good—particularly to infants. But of Mrs. Winslow's Soothing Syrup we can speak from knowledge; in our own family it has proved a blessing indeed, by giving an infant troubled with colic pains, quiet sleep, and the parents unbroken rest at night. Most parents can appreciate these blessings. Here is an article which works to perfection, and which is harmless; for the sleep which it affords the infant is perfectly natural, and the little cherub awakes as "bright as a button." And during the process of teething its value is incalculable. We have frequently heard mothers say that they would not be without it from the birth of the child till it had finished with the teething slege, on any consideration whatever. Sold by all druggists, 25 cents a bottle.

A COMPLETE CURE. I have suffered all my life with skin diseases of different, kinds and have never found permanent relief, until, by the advice of a lady friend. I used your valuable Curicuna REMEDIES. I gave them a thorough trial, using six bottles of the Curicuna Resolvent, two boxes of Curicuna and seven cakes of Curicula Foar, and the result was just what I had been told it would be a complete cure.

BELLE WADE. Reference, G W. Latimer, Druggist, Rich-

Liverpool advices probably contributed in a measure to the early improvement, but the market is generally looked upon as mainly subject to local manipulation.
