

FORGIVENESS.

KATR A BRADLEY

Love in a field a day raised her head, And, knowing that the sun above had shed His warmth and light for her sweet sake...

To teach her that the value of his grace The sun, in pride and anger, had made, And loathed to sorrow for her lover's gaze...

But still, to prove her quick repentance He stole his heart with resolution new And sank behind the world without one side...

Up with the day he rose his love to greet, And lay his hand and pardon on her feet, But, ah! no tender face returned his smile...

THE HIGH TARIFF IN GER-MANY.

The high protective tariff of Germany calls forth remonstrance in business circles, and there is no doubt the sentiment opposed to it would be more powerful...

in the Union since 1865, and has been in sore straits for the greater part of that time...

It was not claimed that prices are as low as they might be, but that they are lower than they were nearly thirty years ago...

The reduced cost of food need not be discussed at length. Food is produced on the farms, and one claim of the Protectionists, when it suits their purpose...

But what of railroad building? The Southern States are among the foremost in this field of development...

It is not so easy to conceive why the people of Georgia and other Southern States should take any particular delight in the process by which they are robbed...

THE PRESIDENT.

Arrival at Kansas City—Grand Parade. Lays the Corner Stone of a New U. S. Building—Witness the Wonderful Progress of the City and Makes a Speech in Response to the Mayor's Welcome.

By Telegraph to the Morning Star. KANSAS CITY, Oct. 13.—The demonstration in honor of the President of the United States, is a tumultuous and noisy proceeding, but is attended with more order than is usually the case.

"Kansas City stands the test of this rule, for during the six months ending June 30, 1887, the number of building permits issued and the value of the buildings they covered kept pace with the population of the city."

"I am reminded by these suggestions how dependent, after all, communities, no less than individuals, are upon not only the quality of their government, but upon the character of their public men."

"In the busy activities of our daily life we are not to neglect the instrumentalities of our government, and the most important of these is moulding our moral character. Among these, and challenging but little notice compared with their more obvious duties, are the Christian Association scattered throughout our country."

While the ceremonies were in progress a number of the ladies of the city followed the Presidential party throughout its tour, and many of them were seen in the streets.
