N Y.Commercial and Financial Chronicle NEW YORK, Nov. 25 .- The movement of the crop, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening (Nov. 25) the total receipts have reached 249,388 bales, against 284,816 bales last week, 301,-600 bales the previous week, and 289,174 bales three weeks since making the total receipts since the 1st of Sept., 1887, 2,874,549 bales, against 2,437,874 bales for the same period of 1886, showing an increase since Sept. 1, 1887, of 436,675 bales.

The exports for the week ending this evening reach a total of 163,942 bales, of which 98,580 were to Great Britain, 21,774 to France and 43,588 to the rest of the Continent. To day a decided improvement in

Liverpool and reports of the burning of cotton gins and cotton in field by orest fires caused a further advance, but the market became quieter in the last hour. Cotton on the spot was dull and unchanged until Wednesday, when an advance of 1-16c was quoted, followed by an equal advance to day, middling uplands closing at 10 dc. The total sales for forward delive-

ry for the week are 576,400 bales.

A WAYWARD DEMOCRACY.

New Orleans States, Dem. We are sorry to learn by the following paragraph quoted from that able and sprightly paper, the Morn ING STAR of Wilmington, N. C., that the Democrats of the Turpentine State have gotten themselves into so untoward a frame of mind that they prefer untaxing the luxuries of whiskey and tobacco to freeing the food, the clothing, and the shelter of the American people from the heavy imposts now laid on them for the benefit of millionaire manufacturers and monopolists. This is what the Wilmington STAR says : --

The Louisville Courier-Journal, the Galveston News, the St. Louis, Republican, the New Orleans States, the Savannah News, the Augusta Gazette, the Macon Telegraph, the Consumption Cure.

An old physician, retired from practice, having had placed in his hands by an East India missionary the leading papers in the South. They are all warmly advocating a reduction of the war tariff and they all oppose the abolition of the internal tax. They do not favor taxing the common house hold necessaries and freeing from taxation useless, hurtful luxuries. In North Carolina these able leading papers would find themselves sus-Charleston News and Courier, and papers would find themselves sus-

membrance of a text-"Be not weary n well-doing." The States has for years been battling as best it could with opposing forces of a similar character, and the change for the better and the awakening in the sentiment of Louisiana which has been noticable of late has been our encouragement to continue. The STAR likewise will, one of these days, have the Democracy of North Carolina adopting the fiscal docurine which it advocates with consistency and vigor.

The Verdict Unanimous. W. D. Sult, Druggist, Bippus, Ind., testifies: "I recommend Electric Bitters as the very best remedy. Every bottle sold has given relief in every case. One man took six bottles and was cured of Rheumatism of ten years' standing." Abraham Hare, Druggist, Bellville, Ohio, affirms:
"The best selling medicine I have
ever handled in my twenty years' experience, is Electric Bitters." Thousands of others have added their testimony, so that the verdict is unanimous that Electric Bitters do cure all diseases of the Liver, Kidneys or Blood. Only a half dollar a bottle at W. H. Green & Co.'s Drug Store.

Lowdermilk vs. Bostic. In the construction of deeds the first rule is that the intention of the parties, if possible, is to be supported; and the second is that the intention is to be ascertained from the deed itself, that is from all the parts of it taken together. In general no expression can be contradicted or explained by extrinsic evidence and the intention collected from the four corners of the deed is to govern the construction of every passage.

The instrument sued on in this action discloses the intention of the parties to limit its effect to securing advances for the contemplated crop, and former debts are not within its operation.

A Woman's Discovery.

"Another wonderful discovery has been made and that too by a lady in this county. Disease fastened its chutches upon her and for seven years she withstood its severest tests, but her vital organs were under-mined and death seemed imminent. For three months she coughed incessantly and could not sleep. She bought of us a bottle of Dr. King's New Discovery for Consumption and was so much relieved on taking the first dose that she slept all night and with one bottle has been miraculously cured. Her name is Mrs. Luther Latz." Thus writes W. C. Hamrick & Co., of Shelby, N. C.—Gct a free trial bottle at W. H. Green & Co's. Drug

Better Have an Opinion.

Richmond State, Dem. The proprietors of the Atlanta Constitution may think they are doing a sharp thing in a business way by their course in the prohibition contest, but looking at it from this poor standpoint, we think they are mistaken. One proprietor makes speeches on one side, the other makes speeches on the other side and the third says nothing on either side, while the paper editorially is dumb and the two debating editors' speech-

A paper cannot maintain its strength by having no opinions, or at least by not expressing opinions. The amount of knowledge flowing into any newspaper office gives the editors, if they choose to avail themselves of it, the best opportunity for sifting facts and educing therefrom opinious. Opinious made in this way are the most reliable of opinions, and, therefore, the editor, of all professional men, is least excusable f he has no opinion.

The Movement to Raise a Fund for His Benefit Abandoned at the Request of Mrs Davis.

By Telegraph to the Morning Star. AUGUSTA. Ga., Nov. 30.—Some time since a movement was set on foot at Macon to raise by popular subscription a Jeff Davis fund The project was heartily ap-proved by the press and people and bade fair to be a great success, but it has now fallen through. The following letter from Mrs. Davis brought about the abandonment of the project. It is addressed to Col. W. H. Ross, Macon, Ga., chairman of the committee having the matter in hand: "If anything could endear me to our friends in Macon, it would be the solicitude

manifested for our welfare through the love feit for my husband; but, my dear sir, let me entreat you to let us thank you for the effort, but deprecate the accomplishment of it. Both my daughter and I have received an education which would stand instead of money, were everything to be swept away-which I do not contemplateand the blessings of freedom and independence are dearer to us than wealth and ease, and we should not be comfortable under this monied obligation to those who have given a far greater boon to my husbasd already-their heart. Prince Ferdinand subsequently appeared on the balcony and thanked the people for the warm reception accorded to the Princess Clementine and

BERLIN, Nov. 27.-Emperor William to lay received the President and Vice President of the Reichstag, who came to ex-press the sympathy of that body with the Crown Prince. The Emperor, replying to beir address, said the ailment of the Crown Prince was a severe visitation, especially in view of his high position and his great abilities for continuing the direction of the policy of Prussia and Germany in a manuer which would have enabled the Emperor to close his eyes in peace. What Providence might further decree none could tell, but it was the duty of all to bow to God's inscrutible will. The universal sympathy which has been shown in such a remarkable degree was a great con-solation. He regretted that he was unable to open the Reichstag in person. He would have liked himself to have told the world that he desired peace, although Germany was perfectly prepared to meet attacks next alluded to the satisfactory state of the country's finances, which, he said, was also manifest in the individual States of the Empire. LIMERICK, Nov. 29 -An attempt, made in the city to-day to hold a demonstration in honor of the Manchester mertyrs, Allen, Larkin and O'Brien, was suppressed by the police. The unveiling of a statue to commercorate the hanging of men was set down as a portion of the proes are published in the advertising gramme. Pearing interference with the statue a guard surrounded it during the night. Mr. McInerney, of New York, who had been chosen to preside at the demonstration, was on the ground and addressed the people. The police then drew their batons and made an onslaught upon the crowd. This was answered by stone throw ing. The crowd was dispersed, subsequent-Wherever groups were found assembling the police charged upon them and seized their flags. In these encounters a number of people were hurt. Troops now occupy the thoroughfares. Mayor and municipal officers are actively engaged in quieting the people.

> LIMERICK, Nov. 27 .- A serious disturbance occurred to night The crowd stoned and hooted the police, who tried to clear the streets with batons and bayonets, but met with great resistance. Many civilians and constables were injured. The police acted in a reckless manner. The windows of the hotels on the streets where the trouble occurred were filled with on-look. ers. BAKING POWDERN.

Official Analyses of the Chief Brands hold in the south-Their Strength

and Varue Ascertained. The Ohio State Dairy and Food Com-missioner, Gen S . H Hurst, has made public (Circular Nr. 6) the results of the Commission's investigation of baking powder. This ommission was formed by the Legislature, with instructions to make an examination of the food supply of the State, and to give a report of such examination to the public. The examination of the baking powders was made by Professor H. A. Weber, State Chemist, and, relating as it does to an article of daily use in the food of almost every one, is of particular interest

The rather startling fact is brought out brands of baking powder analyzed, com-posing about all those sold in the State, wenty of them are made from alum, a substance declared by the highest medical authorities to be injurious to health when nsed in food.

The Commissioner classifies the baking powders into three general divisions, according to their value: 1st. Cream of Tartar Baking Powders: 2d Phosphate Baking Powders:

3d Alum Baking Powders. The object of baking poweers is, when mixed in the flour and subjected to moisture, to generate a leavening gas in the dough, which will raise the bread and cause it to be porous and light. The Commissioner explains that the best baking powder is that which, the ingredients being healthful, gives off the largest amount of leavening gas and leaves the smallest amount of residuum in the bread, A small amount of carbonate of ammonis, which is considered healthful, is used in some of the cream of tartar powders to give them a higher strength. The Commission say that pure slum is undoubtedly a burtful salt, and that the resultant salts from its combination with sods as formed in the bread, can scarcely be less hurtful. The report ranks the powders and shows the mount in each of inert resultants, which in using it would appear as residuum in the

The large amount of inert matter or 1esiduum in both the phosphate and alum powders will be noted This in the phos-phate powders is largely of lime; in the alum powders it is chiefly alum. It will be gratifying to the public to observe that the powder in most general use, the Royal, is also the purest. In comparing the first two powders on the list, for instance—the Royal and Dr Price's-the inert matter in Price's is seen to be about five in seven nore than in the former, a difference of 71 8-7 per cent, the Royal being purer than

Price's by a corresponding figure.

The carbonic or leavening gas produced by the powders indicates their strength; and their true value may be ascertained by considering the amount of this gas in connection with their inert matter or residuum as shown above. The higher the percentage of gas and the lower the percentage of residuum the better the baking powder, These percentages, as found in some of the most familiar powders, are given as fol-

With the foregoing explanation the study of these figures will readily give consumers a knowledge of the comparative value of the different brands. To illustrate with the per centages given the two powders before compared: the Royal containing 11.8 parts of leavening gas to 10.5 in Price's, its excess of strength is 1.3 in 10.5, or 12 4 per cent. Royal is therefore 12 40 per cent. stronger, as well as 71 per cent. purer than Price's, etc. The relative strength and purity of al

INFANTILE SKIN DISEASES.

Our oldest child, nowsix years of age, when an infant s'x months old was attacked with a viru lent, melignant skin disease. All ordinary remedies failing, we called our family physician, who attempted to oure it; but it spread with a most incredible rapidity, until the lower-portion of the little fellow's person, from the middle of his back down to his knees, was one solid rash, ugly, painful, blotched, and malicious. We had no rest at night, no peace by day. Finally, we were advised to try the curiousa firmaniss. The offect was simply marvelious. In three or four weeks a complete cure was wrought, leaving the little fellow's person as white and healthy as though he had never been attacked. In my opinion your valuable remedies saved his life, and to-day he is a strong, healthy child perfectly well, no repetition of the disease having ever occurred.

GEO. B. SMITH,

Att'y at Law and Bx-Pros. Att'y, Ashland, O. REPERENDE: J. G. Weist, Druggist, Ashland, O. THOUSANDS OF CHILDREN

Are born into the world every day with some ec-zematous affection, such as milk crust, scali head, scurf, or dandruff, sure to develop into an head, sourf, or dandruff, sure to develop into an agonizing eczema, the itching burning, and disfiguration of which make life a prolonged toriure unless properly treated.

A warm bath with Curicuma Soar, an exquisite Skin Beautifier, and a single application of Curicuma, the Great skin Cure, with a little Curicuma RESOLVENT, the New Blood Purifier, are often sufficient to agrest the progress of the disease, and point to a speedy and permanent cure. Hence, no mother who loves her oblidren, who takes pride in their beauty, purity, and health, and in besiowing upon them a child's greatest inheritaanse,—a skin without a blemish, and a body nourished by pure blood,—should fail to make trial of the Curicuma Remedies.
