meaning of the word. That definition agrees with its history. The Democratic party has always and unflinchingly been on the side of the people.

And what is Republicanism? It is a synonym for all that is vicious and venal and unconstitutional and unwise in politics. It is the party of the Rich Man. It is the party of the Machine. It is the party of Boodle. It has always been the enemy of the people and the pliant tool of Wealth and Monopoly. The Money Devil owns it.

The struggle that has just terminated disastrously to the Democracy was a fight between Low Taxes and High Taxes. High Taxes won the day. It was a contest between Honest and Pure Government within strictly Constitutional limitations and a strong and Corrupt Government acting beyond and above the Constitution. Time will show as to the correctness of this assertion. Do not get in a hurry to decide as to the correctness of our statement until you have seen what Republicanism will do as the next Presidential elecion approaches. If they do not vioate law and decency, and justice and ne rights of freemen, or attempt to it, in the general elections of 892, then you can write us down a se prophet.

Why do we say this? Why prohesy evil? The Republican party as a most damning record. It violated law at will in the Grant days. It dragonaded States, throttled Legislatures, passed coercive and revolutionary laws, and persecuted and hounded the Southern whites at every turp. /

The Republican party is far more base and corrupt to-day than it was in Grant's day, for most of its respectability and men of character have gone out from it in disgust. Now as to why we phrophesy evil. Gen. Sherman is the most distinguished of Northern living soldiers. He is their purest model and idol. He wields a great influence. He has declared in his article in the North American Review what he favored. We have commented with proper severity upon that infernal offspring. In all our political literature, all things considered, there has not been so devilish, so despicable a document months of the present term lauded sent out to the country. In it he and magnified all that he did. The tries to incite the negroes to a war STAR failed not to criticise his letter of butchery and burning, promising to the ninety members of Congress them the aid of the Republicans in | before he had taken his seat; it failthe North. taxation. It is that to the politica victors belong the political spoils. Democrate who have been coquetting with the humbug will see under Harrison precisely how little honesty

there is in the professions of the Republican party as to Civil Service Reform. How many Democrats in Wilmington now holding Federal positions will be in office six months after Harrison takes his seat? We suppose all will have been bounced for the outside fellows are well-nigh famished and they will beat loudly and long at Harrison's door demand-

ing a speedy change. The grandest humbug Democrats ever favored was the doctrine that it makes no difference as to who holds the offices. Zeb Vance and the STAR never took to that Beresy in politics.

That there should be constitutional barriers in the way will not affect Ingalls or his tribe in the least. But Democrats need not be surprised if Ingalls, backed by his party, should attempt to pass by the presence was an annoyance if not an votes of several Southern States.

As Harrison has a clean majority the reason for resorting to such an unconstitutional and high-handed course is not so apparent, but confident in the backing of the country the Radicals may feel warranted in doing anything they choose.
