Supreme Court Decisions. Raleigh News-Observer. Battle vs. Mays.

A referee in his report should state his findings of fact and of law separately, and when the judge who hears exceptions to the report himself makes no special findings of facts, he adopts those of the referee. But he may modify, set aside or confirm in whole or in part the re-port of the referee, and appeals lie only from his rulings in matters of law. The only exception allowed to a finding of fact by a judge is whether there is any evidence to support it. Issues of fact are such as are put in issue by the pleadings, and a decision of which would conclude the controversy.

Where an equity case is referred to a referee in place of a jury trial, the issues of fact being found, the Supreme Court will not review the

John Bright,

Alone amid English orators of the first class, John Bright was a stranger to the influences and traditions of the great public school and the university. His speeches bear no marks of Greek and Latin studies; their charm is all native. their vigor is of the soil, Had he been an ancient Athenian or a modern Parisian, he could not have displayed a more complete indifference to foreign models and imported embellishments. As it is reported of Demosthenes that he many times transcribed the work of his fellow countryman, Thucydides, so John Bright drew his limpid and captivating eloquence from local fountains; for, as he once explained, it had been from youth his custom to store his memory with the thoughts and words of writers who have enriched the English tongue. So that when he came to speak in Parliament, his own thought and feeling clothed it-

Germany and Samoa. New York Sun.

A controversy having arisen between Germany and the United States about the encroachment of the former in Samos, it was proposed to have a full and fair discussion in the matter at Berlin by representatives of the three powers that have treaties with the Samoan Government. But now it would seem that Germany is seeking to forestall the decision of this conference by coming to a private understanding with England, and perhaps driving a trade with her. Since these two powers have a detailed agreement for parcelling out the South Seas, and have already determined what islands are to belong to each, and what shall for the present remain neutral, they might, apparently, run the risk of meeting the Yankees in convention without previously arranging for themselves a cut-and-dried programme.

A New Political Combination.

Dispatches from Columbus, Ohio, report a new Democratic combination, which has caused a stir in political circles. It is announced that the Payne and Thurman factions. which have been at war for many years, have decided to bury the hat chet, and as a result Mr. Allen W. Thurman, son of Judge Allen G. Thurman, is to receive the Democratic nomination for Governor, and Hon. Henry B. Payne is to be returned to the United States Senate. should the Democrats secure a majority in the Ohio Legislature at the election next November. What gives color to the report is that Mr. Thurman's formal announcement last week of his candidacy for the gubernatorial nomination was followed three days later by an interview with Senstor Payne, in which he made his declaration as a candidate for return to the Senate. That the Democrats of Ohio mean business this year is shown in the municipal nominations in Cincinnati, where a ticket of exceptional strength and excellence has been nominated. Mr. Calvin S. factions.

Whatever may be thought of the subtlety of Mr. Randall's mind by his especial admirers his game has long been an open one, and he has played it with much firmness and consistency whenever his physicial strength would allow. It is simply to serve the Republican protectionists so far as he can without absolutely getting out of his own party-an event that he wishes to prevent only because it would deprive him of the chance of further usefulness to those for whom he is working. Mr. Randall as a Republican would only be one sharp and unscrupulous politician in a great crowd, without special distinction beyond a certain honesty in private affairs that is not very common in the active men of either party, and perhaps without a constituency. A spy is always more serviceable than a deserter, and a secret traitor may be more serviceable than either.

Congressmen's Salaries. Baltimore American, Rep.

There does not appear to be any sound reason for the increase of Congressmen's salaries. Their present pay is full equal to, if not greater than, the average salaries of those in private life who fill positions of responsibility and trust of an analogous character. Five thousand dollars per annum is surely enough to maintain a man decently and comfortably while representing his constituents at Washington, and to leave something over for a rainy day. It is a larger salary than that received by any similar body of legislators in the world.

SENATE. WASHINGTON, March 28,-In the absence of the Chaplain the business of the nate was entered upon without the usual

Mr. Sherman offered a resolution (which also went over), for the appointment of s committee of two Senators to wait upon the President and inquire if he has any other business to lay before the Senate Mr. Cockrell, from the select committee to inquire into the methods of business in the executive departments of the government, made a second (and final) report, and made a statement in regard to the work of the committee and as to the condition of business in some branches of the public

At the close of Mr. Cockrell's remarks the Vice President said that the report would be laid on the table and printed.

While the Senate was sitting with closed doors the resolution allowing a clerk for Senator Vance was reported from the Committee on Contingent Expenses and adopted. The executive session of the Senate lasted between two and three hours, and was confined largely to the discussion of the nomi-nation of Murat Halstead to be Minister to Germany. Before that came up the nomi-nations of John C. New, to be Consul Gen-eral to London, and of Lewis Wolfley, to be Governor of Arizona, which were pending. were confirmed. The final attempt of the opposition to defeat New's confirmation was ased upon the assertion that his paper, the Indianapolis Journal, had published articles reflecting upon the private character of President Cleveland. This charge was warmly denied by Senator Voorhees, of Indiana, and the nomination was confirmed.

The Committee on Foreign Relations The Committee on Foreign Relations favorably reported all diplomatic nomina-tions of yesterday; but in the case of Halstead the report was not unanimous. On motion to confirm his nomination the nays were in the majority—Messars. Teller, Plumb, Ingalls, Farwell and Cullom voting with the Democrats.

Mr. Sherman moved to reconsider the

vote, and on that motion a long debate ensued, in the course of which the ground of objection to Mr. Halstead was disclosed. When the Senate refused to enter upon an investigation of the election of Senator Payne, of Ohio, Mr. Halstead, whose paper, the Cincinnati Commercial Gazette, had strongly urged the investigation, made uncomplimentary allusions to Re-publicans who voted against the inves-tigation. The feeling against him on the part of Senators who fell under his displeasure at that time is very bitter, and one of them is reported to have said to President Harrison this morning that Mr. Hal-stead could not be confirmed, that Senators whom he had criticized would not vote for him, The motion to reconsider was pending when the Senate adjourned. - How much misery may be abated, how much suffering may be removed, by the simple tone and expression of the human voice! Upon that heart that is lone and desolate, how sweetly falls the voice of sympathy and consolation! Why is it, then, since everything proves, and none are ignorant of the fact, that all must lie down in mother earth together, since all are travellers in this highway to deathwhy is it that each should be so sparing of that which costs him nothing, but which might raise the drooping spirits of his neighbor and cheer him on his journey—a few kind words and kindly looks?

We are to remember, with gratitude an praise always, that we have a great God and Saviour above us and behind us, whose gospel is always young, whose grace is always ready, whose providence is never baffled, never weakened, never wesried, whose heart in this gospel lives forever; whose divine enthusiasm for it cannot be uttered in words, but is pictured in prophecy, is attested by the cross, and is illustrated in the whole recent bistory of the word. I do not marvel that God loves the cross. The world shows his power, but the cross shows his hear!, his love and self-sacrifice. There is something in the work of every man which he values more than anything else, and it is that into which his heart has gone There is something that God values mor than anything else in that which he has wrought, and of which he has testified to mankind, and that is the cross. I do not marvel that he sets it up in the white, unfading snow on the breast of the mighty western mountain. I do not wonder that he blazons it in a resplendent constellation among the stars.—Res. R. S. Storrs.

- The proposal to carry out in the Protestant Episcopal Church of America the plan of provincial organization which exists in England and existed in the Church of the Roman Empire, has been under discussion for many years, and now is in a fair way of being realized in New York. The representatives of the dioceses into which that State is divided have met and dopted a plan for a Province of New York; but as yet nothing is determined as to the dignity and title of the head of the province, or the method of his selection. By ancient (not primitive) precedent Bishop Potter of New York would rank as the archbishop or patriarch of the province, he being the incumbent of the original or metropolitan see. But in the church system which leaves the Bishop without any church in which to set up his throne, (or athedra), it is hard to say how far ancient precedents can be assigned validity. The Low Church party, now much in the minority, are far from friendly to the new arrangement.—Phil. American.

OTTERBURN LITHIA AND MAGNESIA

WATER. IT NOT ONLY CURES "BRIGHT'S DISEASE,"

MANNBORO, VA., April 7, 1888. Manusono, Va., April 7, 1888.

Vor a year I have been suffering with a form of Kidney Disease which my physician. Dr. J. A. Hillman, thought was Disbetes, and advised the use of Otterburn Lithis and Magnesia Water. The quantity of urine passed was greatly in excess of the natural secretion, and I lost forty pounds of fissh in a few months. The use of the Otterburn Water corrected this excessive flow entirely in six weeks, and I am again a well man. I tried many medicines without avail, and 'I attribute my cure of this troublesome and cangecous disease entirely to the use of the Otterburn Water.

R. N. BLANTON. PERSONS OFTEN ASK, "WILL PT.KERP!"

I hereby certily that two years ago I obtained some of the Water of the Otterburn Lithia and Magnesia Spring for my wife in a demiloon, and recently, whilst moving to another home. I found that some of the Water had been left in the demilohn. I poured it out and drank some of it, and found it to be as pure and nice as when first taken from the Spring.

G. E. CRADDOCK. IT OURES RHEUMATIC GOUT.

AMRIJA COUNTY, VA., Peb. 24, 1888.

E. E. JEFFERSON, of Johnston, South Carolina, writes as follows of it:

A lady here has been entirely relieved of a severe attack of Rheumatic Gout.

She found such immediate relief she did not take any modicine or any other remedy at all, and while on the sixth bottle stated that she had been entirely relieved and needed no more Water; her general health also being greatly improved.

E. E. JEFFERSON,

MANNBORO, VA., March 17, 1888. Whes I commenced the use of the Otterburn Lithia and Magnesia Water, on the 28th of January last, I had no faith in any mineral water. I had been suffering for over three years with a disease that was pronounced by a prominent physician of Richwood to be an affection of the Kidneys, after making a solentific test.

I had only used the Water one week when I was entirely relieved of pain, which before had been constant and at times acute, and I have gained nineteen pounds in fiesh, with a restoration of strength and energy. I gave the Water a fair test, using no other water and taking no medicine.

H. C. GREGORY.

RICHMOND, VA., April 8, 1887. I have been suffering for years with a compli-cation of Liver and Ridney trouble, suffering great pain in the region of the kidneys; and hav-ing my attention called to the Otterburn Lithia and Magneda Water. I commenced to use it, and never experienced such relief from any-thing The very first half-gallon increased the flow of urine and cleared it up. My appetite has been restored, ann I feel that I cannot commend the Water too highly. R. F. WALKEK.

AMELIA C. H., VA., December 15, 1886. AMBLIA C. H., VA., December 15, 1888.

I have been a Dyspeptio for the past fifteen years, and lately have suffered with Derange ment of my Urinary Organs, evidenced by great difficulty in voiding the urine. About six months ago I commenced the use of the Otterburn Lithia and Magnesia Springs Water, and since that time there has been marked and gradual improvement in my entire condition and state of health. My digestion is better than it has been for five or six years, and the urinary trouble is entirely relieved, and has been for the past two months.
