Operations were suspended during May, but will be resumed early next month, continuing in the extreme South and Southwest until the middle of July. The acreage and condition in the two Carolinps is reported as follows : South Carolina-Acreage one-third more than last year; lowland slightly increased; upland largely. Lands in much better order than last year. Cool, dry weather has retarded growth. The rivers, especially the shorter ones, have been quite low and "salt," but are now nearly normal under tecent rainfall Stand ratner poor, out recovering under improved conditions. Harvest likely to be ater than usual. North Carolina-Acreage greatly en larged; about the same quantity of tidewater land cultivated, but nearly if not fully double upland. Seed going to many new localities, the low price of cotton drawing attention to rice and other substitute crops. Planters exercising more care this year in the selection of seed. OUR NOMINEE FOR GOVERNOR There are a great many Democrats in North Carolina who favored the nomination of Governor Holt for the double reason that he made a good Governor, and that he fully deserved the honor of succeeding himself. The strength which he developed in the convention shows that he has strong hold on the Democracy of this State, and that of itself is a recognition of which he may well be proud. He and his friends who stood so enthusiastically by him have cause to congratulate themselves that in choosing his successor the convention made such a happy choice as Elias Carr, whose nomination will give general satisfaction 'throughout the State.

Mr. Carr was not a candidate in the sense of desiring the nomination. and some time ago wrote a letter declaring that he was not a candidate, and declining to permit his name to be used in that connection, but he recognizes the right of his party to demand service of those in its ranks, and the duty of the Democrat when called to obey.

He is a farmer, of Edgecombe county, and one of the best in the State, one of the original organizers of the Alliance, but has always stood man of fine sense. straight within the party lines and

discountenanced any independent movement or third party talk. When the St. Louis platform was thrust before the Alliance in this State he unhesitatingly condemned it as not only irrational but antagonistic to the reforms for which the Alliance was laboring, and contended that there was no reform which the

Alliance sought which could not be better, more easily and more speedily secured through the Democratic party than through any other agency. Within the Alliance there is no

voice in the State more potent than his, for he has always been looked upon as an able, safe and sagacious counsellor. He has done as much. perhaps, as any man in the State to keep the Alliance within the landmarks and curb the revolutionary spirits that sought to lead it astray.

He is a graduate of the State University and is, we think, about fiftyfive years of age, enthusiastically devoted to his calling, liberal-minded, large-brained, and in every way well equipped to discharge the duties of

R. M. Furman, for Auditor, is an editor, formerly from Eastern North Carolina, but for some years resident of Asheville, where he publishes the Democrat. For many years he was engrossing clerk of the N. C. House

General, is now solicitor of the Eleventh judicial district, a resident of Charlotte, where he was born, and is a lawyer of recognized ability, in addition to which he is a very effective speaker. This is the ticket in the selection of which it will be noted that due attention was given not only to the personnel of the nominees and their fitness for the offices for which they were named, but also in the proper distribution to fairly represent the different sections of the State, East, West and Center. It was selected with admirable judgment

The choice for Presidential Electors at large was good, C. B. Aycock of Wayne, and R. B. Glenn, of For syth, being capital speakers and good campaigners. The delegates to the National

Convention are well known throughout the State. Ed. Chambers Smith, of Raleigh, s a lawyer, now Chairman of the State Democratic Committee.

Butler Rumor.

A report was current here yesterday that Marion Butler had determined to come out squarely for the State Democratic ticket in the next issue of his paper, the Caucasian. He should either to this or change the name of his paper. It is also rumored that he will support the National Democratic ticket.

- The STAR regrets to learn that Messrs. McMillan Bros. who are among its oldest subscribers and advertisers, lost property by the recent big fire in Savannah to the amount of \$30,000, on which there was insurance for only \$12,-500. But they are not the men to be overcome by adversity, and will soon re-

his South Carolina record. On his re turn trip from Georgia, near Tatum station, this State, he broke into a negro house in open day-time, and took a lot of clothing. He was pursued by a crowd

of negroes and overtaken about two miles from where the goods were taken in a negro house. Seeing his pursuers, when they got hear the house, he broke for the woods and was fired upon by the pursuers and wounded pretty badly, but made his escape. The tollowing night he entered the premises of Mr. Henry McColl, near where he was wounded and stole a mule which was unmanage to a buggy-and finding he could do neither, he led the mule about a mile and exchanged with Mr. McColl's neighbor, getting one (the property of the writer) that would both ride and drive and in his words "a good one;" and mounting the mule, after stealing a saddle at this place, he pursued his journey towards North Carolina. About two miles further on, he decided he must have a buggy, and so he entered Mr. B. F. McLaurin's premises and took possession of his buggy and harness, and on he went for North Carolina. He was pursued and overtaken two days lateron in Raleigh where he was captured He still had in his possession everything except the saddle. The day after Gilmore stole my mule, hunted him in his old stamping ground below Fayetteville, where every one knew him. I had men with me who knew him, and who said they would not halt him if they were to meet him, but would shoot him on sight. He was a perfect terror to that whole country. It cost me one hundred dollars to get him and my mule back, but I am willing to pay more to Miss Brunt. F. B. G.

The Peanut Crop.

A Norfolk correspondent of the Richmond Dispatch says: Advices from the peanut-growing sections received by the commission merchants here indicate that the peas are coming up badly, and

the outlook at present for a good yield is by no means promising, though the acreage in some counties has been increased. The dry weather and the cold have retarded very much the growth. A Visitor's Impression.

The Weldon News says: Mr. W. H Brown returned from Wilmington a day or two ago, where he attended the session of the Grand Lodge I. O. O. F., as representative from Weldon Lodge No. 1. He says his visit to the city beside the sea was very pleasant, and as for the hospitality of Wilmington people he could only say that that city surpasses all the cities he ever visited. He stopped with our friends and former townsmen. C. T. Bennett and W. H. Capell, who are now running so successfully the Purcell House. They treated him with

Lee died at his home in Burnesville township on the 10th inst., in the 86th year of his age. - Last Friday night at half-past three o'clock, the Central Hotel, at this place, was discovered to be on fire. The fire, when first located, was burning in an unoccupied room on the third floor, and could have been easily extinguished had the smoke not been so stifling that it was impossible to reach it. The fire was first discovered by Mr. Fred Hargrave. whose room was only a short distance from the one in which the fire started. He quickly gave the alarm, and, although there were quite a number sleeping on this floor, all escaped without injury.

The hotel was the only building burned. - Winston Sentinel: B. L. Pike, jeweler, who conducted a business for everal months in Salem, and who left here under mysterious circumstances, was brought back to Winston from Johnston county last Thursday and lodged in jail. Yesterday afternoon he appeared before Esquire Pegram to answer the charges of embezzlement. The Court recognized Pike in the sum of \$100 to appear before Esquire Pegram again on the 25th instant to answer the charges against him. Pike was brought back on a warrant for stealing a watch from Mr. Frank Harris. It is understood that there are several other charges against Pike for embezzlement, but as to whether any action will be taken is not learned. He has already pulled out for parts unknown and nobody believes that he will ever show up in Winston again. The \$100 therefore be used in the settlement of the claim for which he was locked up.
