## MISGUIDED PEOPLE.

GEO. A. SHUFORD, OF BUNCOMBE

It is said, and apparently with some reason, that there are a great many Alliance men in this State who will vote for the Democratic State ticket, but will not vote for Cleveland. They will vote for Weaver and Field in preference to Cleveland and Stevenson. We are not surprised that there is more or less prejudice against Cleveland, for the papers in this State which advocate the third party or have third party proclivities, have for the past two years done all they could to misrepresent Cleveland, and make their readers believe that his sympathies were all with the moneyed interests as against the farmer and the laborer. All the ground there was for this was that Cleveland was opposed to the free coinage of silver as at present proposed, and had the honesty, candor and manliness to say so.

Not satisfied with misrepresentation on that account some of these organs, notably the Progressive Farmer and the Salisbury Watchman, both edited by the same writer, while they do not positively assert it, insinuate and try to create the impression that he is quite as much in favor of the Force bill as Mr. Harrison, which they know is as untruthful a fabrication as was ever uttered. They couldn't if their lives depended upon it produce one line or one word that Cleveland has ever written or spoken which by the most violent distortion could be construed into anything bordering upon an endorsement of anything that bore the slightest resemblance to the Force bill of the last Congress or any other Force bill. To assert even by sneaking insinuation that he was or is, and to thus take advantage of the confidence of their readers, who rely upon their veracity, is superlatively mean

and dishonest. It is legitimate to attack him on his silver views, because they differ from him in these views, and they have as much right to their opinions as he has to his, but they have no right to misrepresent him and because he with thousands of other Democrats does not believe that the free coinage of silver as at present proposed is a wise or an expedient measure hold him up as the attorney of the Wall street money kings or as the associate of the advocates of a centralized despotism who are endeavoring to get possession of the ballot box through Force bill devices.

Whatever prejudice there may be amongst men in North Carolina and other Southern States against Cleveland is the result of this studied, presistent and unscrupulous misrepresentation, the alleged facts being believed by confiding readers who do not suspect that they are being deceived.

Prejudice is the hardest thing in closed the eyes and the ears, so that the prejudiced will neither see nor hear, it is hoped and we believe they ger of the course they are pursuing | packed type. and unite with their brother Democrats not only in the effort to keep North Carolina in good safe hands, but to keep the electoral vote of North Carolina out of the hands of the Republicans. A Republican plurality will be the sure consequence if the third party ticket gets any considerable number of display last Saturday evening is aswhite votes in this State. The wild- sociated with the sun spots, in which est visionary in the so-called People's there was unusual activity on that party has not the scintilla of a hope day, one of them undergoing several of electing Weaver and Field, even if changes and finally disappearing. the election should be thrown into We don't think there is any doubt

giving, in as far as they can, a new lease of power to the Republican party, which many of the men who now declare their intention to support the third party have been zealously and honestly fighting for years.

Suppose they do differ from Cleveand on the free coinage question; suppose further that they prefer the Omaha platform to the Democratic platform, what have they to gain by the election of Harrison who stands on a platform as far removed from everything they seek as a platform could be? They believe in standing by the Democratic State ticket to keep North Carolina in the hands of her own white people and yet so inconsistently vote on the National ticket as to aid in the election of a Congress and a President who will do all they can if elected to take the other by his brother Dr. Cyrus North Carolina out of the hands of Thompson. Both gentlemen made very her white men who have administered her government since 1872 and put her under mongrel black-andtan control. That's what the election of Harrison may result in, and that's what these misguided men will aid in making possible if they cast their votes for Weaver and Field.

Gen. Chalmers, Rep., of Mississippl, Gen. John S. Mosby, Rep., formerly of Virginia, now of California, and ex-Congressman John S. Wise, Rep., formerly of Virginia, now of New York, seem to be in accord on Benjamin Harrison. Chalmers declares that his nomination knocked the vitals out of the Republican party in the South, Mosby says he ought not to have the support of any Southern man, nor of any liberal-minded man anywhere, and Wise declares that the South has been and will be no more a part of his administration than Hayti, Cuba or Jamaica. In fifty years, he says, Democracy couldn't deal the Republican party in the South such deadly blows as Harrison has dealt it in the three years he has been in power. Wise objects to Mr. Harrison treating Southern Republicans like yellow dogs, or any kind of dogs, which is the way he has been treating them.

STEAMBOAT TAXATION.

The Railroad Commission Directs Attention to the Question. Raleigh News and Observer.

Major J. W. Wilson, chairman of the Railroad Commission, has addressed the following letter to Gov. Holt : His Excellency Thos. M. Holt, Governor

of North Carolina: DEAR SIR-The Railroad Commission created for the supervision of railroads. steamboats, &c., as you are aware, was also created a Board of Appraisers. The law, however, does not clearly define its duties as such. It appears that there are a number of steamers doing business exclusively within the waters of North Carolina but list for taxation elsewhere, if at all. These boats should, in our opinion, be taxed in this State. but cannot see that it is in our province

As to the liability for taxation we are sustained by many authorities, but would case cited in 9th Alabama, page 234.

There are other boats plying partly in the waters of this State and partly in the waters of another. North Carolina is entitled to a proportion of the taxable value of such as was decided in the case of the Pullman Car Company versus the Commonwealth of Pennsylvania. The values involved will amount to several hundred thousand dollars from which the State has never received any revenue. We have taken the liberty of calling your attention to it as chief executive officer, knowing that you will place the matter in the proper channel for collection, should the views of the Commission meet with your approval.

Most respectfully submitted for the

cordent on the Northeastern Railroad Near Florence-Two Men Killed and Others Wounded.

An accident, caused by a washout, occurred on the Northeastern Railroad, about five miles from Florence, S. C. about haif-past 1 o'clock last Sunday morning. Train No. 27, known as the fast mail, pulled out of Florence at 1.25 a. m., with three sleepers, a first and a second-class coach, a baggage car, express car and mail car. About twenty-five passengers were on board. The entire train, with the exception of the engine and one tender, was derailed. The wrecked train was running at the rate of thirty-five or forty miles an hour, and when it struck the washout, which was not very wide, the engine passed over safely. WASHINGTON, D. C., July 18 .- The Ways and Means Committee of the House this morning adopted a resolution providing for the final adjournment of Congress on the 25th, one week from to-day. The resolution will soon be called up, and in the present temper of the House there is little doubt that it will pass. The Senate is equally anxious to bring the session to a close, so that nothing short of an emergency likely to cause any extension by Senate of the date fixed in the resolution.

Otherwise, a later day will be named. The meeting to-day about completes the work of the Ways and Means Committee for this session. There has been no renewed discussion with referenbe to the report of additional tariff bills. The policy on the part of some of the Democratic members favorable to postponement of further attempt at tariff revision has prevented action on sugar, salt, lumber, iron ore and other proposed bills, and the probability of adjournment at an early date makes their position almost impregna ble. The improbability of any additional tariff bills emerging from the Ways and Means Committee is increased by the fact that Republican members of the committee are not disposed to assist the Democrats on the committee to se

Word was received by the Democratic nembers that the Republican members rould not attend any sessions of the committee except for consideration of the adjournment resolution reported today. A number of Democratic members are absent, and the effect of this refusal on the part of the Republican members makes it impossible for the committee to do anything. This refusal, if persisted in, besides preventing a report of additional Tariff bills, will render impossible an adverse report on the sub-Treasury bills, which Alliance members of the House are fighting to have reported in some shape, and also on Mr. Dalzell's esolution of inquiry with reference to osses sustained through National and

FORMALLY NOTIFIED OF THEIR NOM! NATION FOR PRESIDENT AND VIGE-PRESIDENT.

Tremendous Gathering of the New York Democracy at Madison Square Garden-Great Entrusiasm-Mr. Cleveland's Address to the Committee of Notification By Telegraph to the Morning Star.

NEW YORK, July 20 .- Grover Cleveland and Adlai E. Stevenson have been officially notified that they are the choice of the Democracy of this great country

to lead it either to victory or defeat. The notification ceremonies took place to-night in the presence of a large crowd of people that surpassed in enthusiasm and numbers even that vast throng that on September 6th, 1888, at the same place gave greeting to Allen G. Thurman. The great Amphitheatre of the Madison Square Garden was crowded as it never had been before, and the thousands and odd electric lights twinkled in wonder as they looked down from their lofty perches upon the sea of heads and gesticulating speakers. Outside the air was warm and sultry. side the thermometer was like the enhusiasm of Mr. Cleveland's friends-at lood-heat. But no one thought of the

Madison avenue, Twenty-sixth, Tweno-seventh streets and Fourth avenue were crowded as early as 6 o'cleck. It was a struggling mass of humanity, dashing like waves against the rocks-the rocks in this instruce being burly policemen who showed no favor and took no back-talk, simply pushing people back until the management saw fit to open the portals of the great hall. When the doors were open people over-rode the police, clubs and all; they made one tranic rush for seats and in the remarkable short period of ten minutes all the room in the building that remained vacant were the reserved seats on the platform and the boxes.

Mr. Stevenson was first to appear, but Mr. Cleveland soon followed. After vaiting some time for an opportunity to be heard, and for the uproar of applause to subside, Mr. Cleveland arose, and Mr. Wilson notified him in a speech of ten minutes' duration that he had been nominated for the Presidency. It s well to state what Mr. Wilson was dong, as it is doubtful whether more than fifty people heard a word that was The reason for this was because of Mrs. Cleveland's appearance in another part of the house in an open box, and the crowd had a chance to look well at her. In the same din secretary Nicholas Bill, of the Notification Committee, read the official letter of notification. Mr. Cleveland then rose to reply, and

again pandemonium reigned. It was one terrible roar, and to add to the excitement, the immense Standing crowd of 10,000 people swayed back and forth and crashed in upon the press enclosure. Mr. Cleveland began to speak in the midst of the noise, and his voice could not be heard ten feet from the platform. People were not aware that he had begun, and when it gradually dawned upon them that they were losing the best part of the meeting, they quieted down and the resonant tones of the ex-President were heard in every part of the house. He was listened to attentively and interrupted but seldom. The applause came at the end of his speech. In delivering his arraingnment of the Republican party. Mr. Cleveland's tones grew a trifle harsher and his delivery more emphatic which evidently found an echo in the sentiments of the audience. When he said, "Let us tell the people what we believe," his voice rose even higher, and he lifted his his hand in an impressive way above his head.

It was 9.10 o'clock when the ex-President finished. He concluded with cheers and cries of "Four, tour, four years

The next speaker, ex-Lieutenant Governor Stephen M. White, of California, had more success with his speech notifying General Stevenson of his nomination, than did Mr. Wilson in his effort. Mr. White's voice was most powerful, and he quelled the disturbance by his very loudness. Every word was heard. As in the case of Mr. Cleveland, during the delivery of Mr. White's speech, Gen. Stevenson stood opposite him, but at the other side of the speaker's table. When he had finished Mr. Bellagan read the convention nomi-

Mr. Chairman and Gentlemen :- The nessage you delivered from the National Democracy arouses within me emotions which would be well nigh overwhelming if I did not recognize here assembled the resentatives of a great party who must share with me the responsibility your mission invites. I find much relief in the reflection that I have been selected merely to stand for the principles and purposes to which my party is pledged, and for the enforcement and supremacy of which all who have any right to claim Democratic fellowship must constantly and persistently labor. Our party responsibility is indeed great. We assume the momentous obligation to our countrymen when, in return for their trust and confidence, we promise them the rectification of their wrongs and the better realization of the advantages which are due to them under our free and beneficent institutions. But if our responsibility is great, our party is strong. It is strong in its sympathy with the needs of the people, in its insistence upon the exercise of governmental powers strictly within the coastitutional permission the people have granted, and in its willingness to risk its life and nopes upon the people's intelligence and patriotism. Never has a great party, intent upon

the promotion of right and justice, had a better incentive for effort than is now presented to us, Turning our eyes to the plain people of the land, we see them burdened as consumers with a tariff system that unjustly and relentlessly demands from them in the purchase of the necessaries and comforts of life an amount scarcely met by the wages of hard and steady toil, while the exactions thus wrung from them build up and increase the fortunes of those for whose benefit this injustice is perpetuated. We see the farmer listening to the delusive story that fills his mind with visions of advancement, while his pocket is robbed by the stealthy hand of high protection. Our working men are still told the tale, oft reapeated in spite of its demonstrated falsity, that the existing protective teriff is a boon to them, and that under its beneficient operations wages must increase, while as they listen scenes are enacted in the very abiding place of high protection that mock the hopes of toil and attest the tender mercy the workingmen receive from those made selfish and sordid by unjust

Governmental favoritism. We oppose, earnestly and stubbornly the theory upon which our opponents seek to justify and uphold the existing tariff laws. We need not base our attack upon questions of constitutional permission or legislative power. We denounce this theory upon the highest possible grounds when we contend that in the present condition its operation is unjust, and that laws enacted in accord ance with it are inequitable and unfair. Ours is not a destructive party. We are not at enmity with the rights of any of our citizens; all are our countrymen. We are not recklessly heedless of any American interests, nor will we abandon our of fairness and justice, which belongs to true Americanism and upon which our Constitution rests, we insist that no plan of tariff legislation shall be tolerated which has for its object and purpose forced contributions from the earnings and income of the mass of our people, to swell directly the accumulation of the favored few. Nor will we permit the pretended solicitude for American labor or any other specious pretext of benevolent care for others, to blind the eyes of the people to the selfish schemes of those who seek through the aid of an unequal tariff law to gain unseasonable advantage at the expense of their fellows

We have also assumed in our covenant with those whose support we invite, the duty of opposing to the death another under the guise of protecting suffrage covers but does not conceal the design thereby to perpetuate the power of party afraid to trust its continuance to the untrammelled and intelligent voters of the American people. We are

pledged to resist legislation intended to complete this scheme, because we have not forgotten the saturnalia of theft and brutal control which followed another Federal regulation of State suffrage, be party which did not scruple to rob the people of the President would not hesitate to use the machinery created by such legislation to revive corrupt instrumentalities for partisan purposes; because an attempt to force such legislation would rekindle ani mosities where peace and hopefulness now prevail; because such an attempt would replace prosperity with discouragement and dread throughout a large section of our country, and would menace everywhere in the land the rights reserved to the States and to the people, which under-lie the saleguards of American liberty.

I snall not attempt to specify at this time the other objects and aims of Democratic endeavor which add inspiration to our mission. True to its history and its creed, our party will respond to the wants of the people within safe lines, and guided by enlightened statesmanship, so troubled and impatient within our membership, we com mend continued unswerving allegiance to the party whose principles in all times past have been found sufficient for them, and whose aggregate wisdom and

patriotism their experience teaches can always be trusted. In a tone of partisanship which befits the occasion, let me say to you as equal partners in the campaign upon which we your business are only important as they are related to the fate of the principles they represent, and to the party which they lead. I cannot, therefore, forbear reminding you and all those attached to the Democratic party or supporting the principles which we profess, that defeat in the pending campaign, followed by the consummation of the legislative schemes our oppenents contemplate, and accompanied by such other incidents of their success as might more firmly fix their power, would present a most discouraging outlook for future Democrati supremacy and for the accomplishment of the objects we have at heart, Moreover, every sincere Democrat must believe that the interests of his country are deeply involved in the victory of our party in the struggle that awaits us. Thus patriotic solicitude exalts the hope of partisanship and should intensity our determination to win suc cess. This success can only be achieved by systematic and intelligent effort on the part of all interested in our cause. Let us tell the people, plainly and honpose to serve the interest of the entire country, and let us, after the manner of true Democracy, rely upon the thoughtfulness and patriotism of our fellow

countrymen. It only remains for me to say to you in advance of a more formal response to your message, that I obey the command of my party, and confidently anticipate that an intelligent and earnest presentation of our cause will insure popu-lar endorsement of the action of the body you represent.

We call speciai attention to the advertisement in our columns of the Medical College of Virginia.
