VERY IMPORTANT.

During the past two months bills have been mailed to about sixteen hundred subscribers to the WEEKLY STAR.

It is unjust to the proprietor to read his newspaper without paying for it—fully as much so as for the proprietor of the paper to eat the farmer's chickens and eggs and then fail or refuse to remunerate him.

HOW WILL IT BE DONE?

There will be when Congress meets a strenuous effort made to prevent the repeal of the State bank tax.

In some respects the national bank system is an excellent one, its chief excellence being the provision made for the security and redemption of the notes they issue.

But waiving any objection that may be made to them the question may be asked, how is this system to be perpetuated? In its inception it was intended to be temporary.

There are special reasons why this work should go over to the regular session. Delay will give color to the assertions of Republican editors and politicians that the Democrats are not anxious to begin their work.

But will the people stand the indefinite or perpetual issuing of bonds and paying interest upon them simply to let a certain number of men issue notes to lend at interest, while the mass of the people have to scramble around and get the money they need the best way they can.

THE WEEKLY STAR.

purchase of silver, or to the unlimited coinage of silver, making the silver bullion or the coined silver the basis of security for the redemption of the notes issued to the banks.

Whether the silver question, which may be given precedence, be disposed of quickly or slowly, the next thing in order will be the question of tariff reform.

Human nature is human nature the world over, and human nature has a good deal of selfishness in it wherever you find it.

The coming extra session of Congress will be a warm one, and will in all probability be a long one.

The extra session was called to meet in August for the special purpose of dealing with the Sherman bill, but it was simply anticipating by a month or so the extra session which it was generally believed would be called any early in the Fall.

The silver question is an important one and it is imperatively necessary that it should be settled in some way, but the tariff question is also an important one.

The public road question is receiving more attention in the United States now than perhaps at any other period, and there seems more of a disposition to recognize its importance.

NEW YORK MONEY MARKET.

Encouraging Reports—Two Leading Papers Take a Hopeful View of the Situation.

The New York Times of the 14th says editorially: "We have seen the last. We hope of exceedingly tight money. The rates are already easier and they are going to be easier yet."

Money was distinctly easier, particularly in the afternoon, when it was quoted as being abundant at 3 to 5 per cent.

The events of the day went far towards confirming the statements made by the World early in the week that the financial situation was then on the mend.

The monetary situation for some time has been responsible for the almost unexampled depression in financial and commercial circles.

The public cannot be too often warned of the danger of handling any sort of a wire in a community where the use of electric lights and motors make it possible that any wire may be accidentally charged with a death-dealing current.

THE LATE JNO. C. BORNEMANN.

Particulars of the Drowning Accident Near Charleston, S. C.

Mr. Jno. C. Bornemann, who was drowned with two others last Monday off Charleston bar (as reported in the STAR's telegrams) was formerly a resident of Wilmington, brother of Messrs. J. H. and C. W. Bornemann, and about 45 years of age.

George Rahde, a Norwegian sailor, had been living with his wife and child at 33 Wentworth street. He was formerly mate on the Rattlesnake Shoals light ship.

Some fishermen who went out yesterday picked up in Swath Channel the sail which had been used on Rahde's boat, and it is almost sure that the boat went down with all on board.
