Sitting, knitting—
Winding backward, winding forward
Round the needles white and shining.
Whiter fingers intertwining
Fro and to the masy thread.
Knitting, sitting, lazy flitting
Sunbeams darting in and over.
Outside breath of bees and clover.
Fingers white and shining thread.
Not more shining, not more twining. Not more shining, not more twining.
Lightly left where breezes blow it.
Streaks of yellow sunlight through it.
The fair hair and fair bent head. hed weaves of gold," one said

Knitting, sitting— Winding forward, winding backward, Round those fingers, swift and glanding Naught was ever more entrancing. Something more than masy thread. Sitting, knitting, all unwitting, Something warm and strong and plead

ing.
Full return demanding, needing,
In the meshes of the thread.
All unwitting, simply knitting.
Recking not of needles glancing,
Nor of fingers, white, entrancing.
Ahl but lift that fair bent head,
the state of All unwitting," have I said? -Virginia Hayward Cornell in New York Sun.

A House In a Day. "Ready made houses are becoming the fashion," said a builder. "If you want a dwelling of your own nowadays, you do not need to wait half a year to get it put up. You can have it built in a day. You write to a firm engaged in the business for its advertising book, which contains pictures of houses that the firm is prepared to construct at prices all the way from \$150 to \$5,000, together with plans and specifications. Pick out your residence, and an order addressed to the firm will fetch at short notice all the requisite materials, deposited on your lot. Within 24 hours the dwelling is up and complete. You may have a cellar if you like, though most of the houses built in this way are without cellars. All of the parts are ready made and so matched and numbered that they can be put together in an enormously short space of time. This kind of building has become quite in vogue at summer resorts of late years. Nearly the whole of Cottage City, on the island of Martha's Vineyard, is constructed in that way. If you want a cheap place to live in summer, buy a little patch of cheap land near the beach in some secluded locality and put up a ready made house on it. The whole cost ought not to be over \$200."-Washington Star.

From the Mollusk Via the Monkey. It is permissible for a Catholic to believe that neither Noah nor Adam was the father of all mankind, and it further follows that a Catholic may believe that man came from the mollusk via the monkey. Being a Catholic, I am at once conservative and liberal. The truth lies between. As a conservative I cling to my parents, Adam and Eve. As a liberal I am inclined to believe that some of the human race came by evolution from the mollusk through the monkey to the stature and form, though not to the color or smell of the descendants

of Adam. In other words, I am inclined to believe that the white man is a descendant of Adam, a special miraculous creation, and the colored races, black, yellow and red, are the product of evolution and may boast of a more ancient ancestry than can you or L -J. Audley Maxwell in Donahoe's Magazine.

Not Yet Defined.

Ida asked, "What is the feeling of love?" Answer: Love is a very complex and complicated combination of sensations. There are more frost and fever, more bliss and agony, more smiles and tears and more exhibaration and desperation to the square inch in love than in all the other experiences of the human family. Philosophers and sages have tried in vain, ever since the world began, to find out just exactly what it is. It is altogether likely that Ida could answer the question quite as well as the prophets of old.-New York Ledger.

The name of Joliet has had so many pronunciations and has been the cause of so many puns that the Hon. H. V. Marsh of that city has written a poem in which he tells the school children how to pronounce it. The school board of Joliet has considered this poem of enough importance to have it printed and distributed in the public schools. The accepted pronunciation is "Jo-liet," accent on the first syllable. - Chicago Inter Ocean.

Working Days. The average number of working days in a year is as follows: In Russia, 267; in England, 278; in Spain, 290; in Austria, 295; in Italy, 298; in Bavaria and Belgium, 300; in Saxony and France, 802; in Denmark, Norway and Switzerland, 803; in Prussia, 805; in Holland and North America, 808, and in Hungary, 312.—London Engineering.

A prisoner in the Manchester jail amused himself by writing verses in microscopic characters on small pieces of paper, which he pasted on the backs of the roaches that infested his cell. The poetry eventually killed all the insects that carried it, not because it was bad, but because the paste fermented.

The Chinese woman usually blackens her teeth when she becomes a bride to keep away other admirers and show her entire submission to her husband. The present pretty empress as a wife has, however, set the example of wear-

It is said that the Historical Society of Pennsylvania has the most complete collection of American colonial laws in the United States. It was made by Charlemagne Towers and includes the laws of the Danish and British West

They say that money does not bring happiness. This is an experiment, however, which every one wishes to try for

Preparing For the Ministry. Mrs. Ada H. Kepley, editor of The Friend of Home, Effingham, Ills., says: "The Unitarians and Universalists always held to the Lord's law of the equal right of women with men under the divine and the civil and social law. Hence they have always ordained women to the sacred office of the ministry. Because of the need to emphasize this feature of woman's coming enfranchisement the writer of this article took holy orders. It gives her great joy to announce that one of her Band of Hope daughters, Miss Aurora Buckner of this city, will enter Lombard university next year to prepare herself for the ministry. This is the first young woman in this country to prepare to take holy orders. May more follow."

Methodist Desconesse

At the recent meeting of the Methodist preachers of the north and south Atlanta districts of Georgia. Rev. Howard Crumley created a sensation by declar-ing that he thought there should be deaconesses in the church. He said women did a great deal of good and deserved the title. The more conservative brethren were shocked and dissented. Nevertheless it is only a question of time when the Methodist church of Atlanta will have deaconesses as well as the Methodist churches in other parts of the world.—Boston Woman's Journal.

NOTHING FOR THE BIBLE. n Aged Man's Vain Errand In a New York

In a Bowery pawnshop a man shuffied up to one of the clerks with a big bundle which he wanted to pawn. The man was old and decrepit. His hair and beard were long, white and unkempt. His clothes were ragged as the wrap-pings of his bundle. He laid the bundle down on the counter, pulled off the wrappings and displayed a Bible of what is known as the "family" sort. It had large, heavy covers stamped in gilt and looked as if it might be illustrated with full page steel engravings. 'What'll you give me on that?" said

he to the clerk. "Nothing," replied the clerk, with the most discouraging accent imaginable and apparently without even a glance at the Bible. "Oh, yes, you will," said the old

"No," answered the clerk, "not "But I've got to have it," pleaded the old man. "I haven't had anything

to eat today. Give me 50 cents." "Nothing to drink, you mean," said the clerk, with another glance at the trembling old man. "I won't give you anything. We don't take Bibles any-

The clerk turned to talk to a man who wanted to pawn a ring. The old man hesitated a minute and then renewed his effort. "Well, give me 25 cents then," he

said. "I've had more than that on this before. "Not here," answered the clerk. "I tell you we don't take Bibles. Go on,

The old man gathered up his Bible and shuffled away. The man who was pawning the ring looked on with evident nterest. He was thinking of the many stories he had heard of men who would pawn the family Bible for drink money and reflecting that here was a pawnbroker whose heart was not as stony as tradition makes believe, who had some taint of sentiment, if not of reverence, left in him.

"Is that a rule of the house?" he said to the clerk who was making out the ticket.

"What?" asked the clerk. "That you don't take Bibles."
"No," with a laugh. "That was just bluff. We take anything. But that Bible was worn out and wasn't worth a cent."-New York Sun.

Superstition of the Turks. The superstition of the Turks is nowhere so apparent as in their fear of the "evil eye." Jugs placed around the edge of the roof or an old shoe filled with garlic and blue beets (blue glass balls or rings) are a sure guard against the illusion. Whenever a pretty child is playing upon the street the passersby will say, "Oh, what an ugly child!" for fear of inciting the evil spirit against its beauty. The peasant classes in Turkey are of course the most superstitious because they are the most ignorant. They have no education whatever and can neither read nor write. which they know. Paris is a term signifying the whole outside world. An American missionary was once asked, "In what part of Paris is America?" Yet it can be said that they are generally honest and always patient. They earn from 6 to 8 cents a day. This will furnish them with ekmek and pilaff. and that is all they expect. They eat meat only on feast days, and then only mutton. The taxgatherer is their only grievance. They look upon him as a necessary evil. They have no idea of being ground down under the oppressor's iron heel. Yet they are happy because they are contented and have no envy. The poorer, the more ignorant, a Turk is the better he seems to be. As he gets money and power and becomes

he deteriorates. - "Across Asia on a Bicycle" in Century.

'contaminated' by western civilization

The Biblical Locust. "You have read about John the Baptist living on locusts and wild honey, said Mr. Wiley of Lewiston, who is recently home from Central America. 'Well, here's a locust," and he produced from his pocket a-well, a locust. It didn't hop or jump and had no sem-blance of life because indeed it was nothing but a great pod, looking like a huge cranberry bean pod, fully 5 inches long and almost as big around as a banana. It had a deep mahogany colored skin of hard consistency. "I have eaten bushels of them," said Mr. Wiley. "They grow on trees as big as elms and fall to the ground when ripe. Split them open, and they contain a yellow substance looking like mustard. Mixed with water, it makes a very delicious and nourishing drink that will sustain life for a long time. One of these pods will make a quart of the drink, and everybody uses them. They may not be the locusts of John the Baptist, but I

understand that the tree grows in that land of the Bible."-Lewiston Journal. Roots With Air Chambers. In the Sunderbands, a tract of swampy forest in the southern part of the Ganges delta, large numbers of the trees are provided with curious root suckers, consisting of woody processes growing upward at irregular points along the course of the roots, and projecting one to three feet above ground. The object of these suckers is to protect the tree from the uprooting effect of winds. They also contain air chambers for the aeration of the roots, but never produce buds, and cease to grow when the apex

has reached the level of the highest spring tides.—St. Louis Post-Dispacth. The Source of Iridescent Happiness. "Belinda," said the young man tenderly, "be mine, and our life shall be as an iridescent dream."

"First, Charles," said Belinda severely, "will you kindly inform me what will be the quantity of the metallie medium which is to supply the iridescence?"-Chicago Record.

Annie Besant's Crusade. Mrs. Annie Besant's eloquence and sincerity have produced something like a revival of Hindooism wherever she has gone in India, a revival upon the ancient basis rather than on the modern principles now generally adopted by Hindoo reformers themselves. The Christian missionaries are girding on their armor against this perfervid protest in favor of eastern as against western forms of faith. "I plead to you for your old faith," runs one of the quotations from her preaching. "Be not recreant to the ancient faith." It is by such appeals to the national sentiment that most great movements have been initiated. By her eloquent use of them Mrs. Besant has succeeded in stirring the hearts of her audience to depths never reached by a western propagandist in India.-London Graphic.

Three Prize Winners. In the sixty-ninth exhibition of the National Academy of Design in New York, which opened recently, three of the prizes have been awarded to women. The second Hallgarten prize of \$200 goes to Edith Mitchell for her "Hagar," the third Hallgarten prize of \$100 goes to Mrs. J. Francis Murphy for her "That Difficult Word," and finally the Norman W. Dodge prize of \$800 for the best picture painted in the United States by a woman, without limitation of age, goes to Clara T. McChesney for her picture of "The Old Spinner."

FLOUNCES IN CASCADES.

Although the double skirt has not yet prevailed over the single variety, skirts on the whole are trimmed rather than plain, at least here in America. Parisiennes still cling in many cases to the perfectly plain skirt, and it does not always flare very much either. The flare is, in fact, said to be reducing itself, as indeed it must if

INDIA SILK GOWN. skirts only 81/2 yards in circumference a

accepted as quite in the mode. Four yards have been the narrowest limit for some It is stated that haircloth facings are t be dispensed with, and if stiffening is in-sisted upon it shall be in the form of a haircloth petticoat stitched into the prop-er shape. Petticoats trimmed with ruffles having corded hems are also recommended as holding out the dress skirt satisfactorily. All thin summer silks have the skirt el-ther double, draped or more or less trim-med. Flounces, both circular and straight, are employed, with lace, ruchings, rib bons, festoons and all manner of devices that show to advantage in light weight goods. The fullness of the skirt is rranged nearly all in the back, the front being rather closer fitting than during the winter. Bodices are very much trimmed in every imaginable way. They are made both with and without high collars, while sleeves are anything except plain, although sleeves tight from shoulder to wrist have been solemnly predicted by the authorities in such matters. At present they spread as far out between the shoulder and elbow as the quality of the goods will permit. The sleeve may be in gigot style, or the upper part may consist of one, two or three cuffs or ruffles while the lower part is tight. There is even a revival of the sleeve puffed throughout its length, either around the arm or lengthwise of it. This is a pretty fashion for gowns of muslin, india silk or

other thin goods.

A sketch is given of a summer costume of figured india silk. The skirt is trimmed with circular flounces arranged in cascades, the top of each being finished with a ribbon bow to match the color of the goods. The round bodice is laid in plaits at the waist and has a square yoke and standing collar of lace. The tight silk sleeves have lace cuffs at the wrists and a silk puff above the elbow which is decorated with bows and bands of ribbon. A ribbon bow with two long ends is fastened at the right side of the corsage, and a ribbon bow adorns the left side of the waist.

A Feat In Begging. A man named Bailey, who was described at Lambeth police court as "a most plausible beggar," was given seven days' hard labor for soliciting alms from the public. His zeal for collecting money in this way was in no way damped by his apprehension, for a police officer remarked to the magistrate, "While waiting to come before the court he collected 3 shillings from his fellow prisoners, doubtless a feat unparalleled among the begging fraternity.—London Mil-

Cleaning a Straw Hat, The real Italian leghorn strawmay be cleaned with a nailbrush and castile soapsuds. Rusty black hats may be renovated with the liquid dressing or polish sold for ladies' shoes. White or yellow hats may be bleached by washing them in clear water and placing them in a box with burning sulphur, the fumes of which, uniting with the water, form the acid which

bleaches. — Ladies' Home Journal. Killed by a Gust of Wind.

Harold Steping, 14 months, was being carried by Mrs. Jeffs of West Norwood, who had charge of him, over Auckland hill, West Norwood, when a sudden gust of wind took the infant's breath away. Before it could recover itself it became black in the face and expired.-Westminster Ga-

Whoever raises himself to a higher stature in character, in intelligence, in skill, in industry, in health of body, in vigor of mind and in fidelity to the best that he can discover is in so doing fulfilling a large part of the debt he owes the world.

GRAIN AND PROVISIONS.

Wheat Strong and Higher-Corn and Oats Active at an Advance in Prices-Pork Products Closed Higher. By Telegraph to the Morning Star.

CHICAGO, June 6.-Wheat made such n advance to-day that even the bulls lost their breath. Yesterday there was strong feeling in the market and the crowd went home bullishly inclined made sore by the predictions of the Weather Bureau that there would be rosts before morning in several States These indications were not fully realized and some of the bold front was lost. To the surprise of both sides prices opened right on "Neals" and from that time until the bell tapped at 1.15 p. m., the talent were treated to a genuine bull market. The Kansas State report was the sensation of the day. It reported a decline of from 35 to 45 per cent. in the condition of the crop in that State. This document opening, although some people were lucky enough to have it in advance at that hour. Its effect was instantaneous as shown by the action of prices. The short sellers were quied to discover their disadvantage and prompt to act. Even the leader of that element, Pardridge, was a heavy buyer, although he did not become prominent until within the last hour. There was some dropping back just at the end of the session on selling out of long wheat by those who were anxious to clinch their profits. Cables were mostly all higher, indicating a revulsion of feeling on the other side. Antwerp was the exception, prices in that market showing no change. Cash wheat was strong, showing an advance equivalent to that of the futures. July wheat opened at 56%c, sold between 56% @59% c, closing with a gain of 3%-@ 4c over yesterday at 594c.

Corn was active and higher to-day. It did not fully keep step with wheat and oats, but the feeling was a strong one and at the end of the session a gain %c over yesterday had been recorded. The Kansas State report which was decidedly bullish on wheat, was quite the contrary on corn, which fact rather dampened the ardor of buyers. July corn sold between 39%@40%c, closing at 40c with the gain above mentioned. Cash corn was in

fair demand and steady. Oats continued in the direction pursued yesterday. The State reports, as published in the morning papers, were very unfavorable to the crop. The posi-tion of the Board of Trade relative to the elevator interest has excited some apprehension in the minds of shorts. Inasmuch as stocks of oats are so small this applies more forcibly to that grain. July closed 25 @2% c higher than yesterday and June 1% c higher. Cash oats were in active demand and from 1 to 11/4 cents higher.

Provisions were bare of features. The opening was without the usual guide, as hogs were unsettled, some grades being higher and others lower. The extraordinary price of grain served as a sus-tainer, however, prices holding their own quite generally. July pork closed 5c higher than yesterday; July lard 21/0 5c higher, and July ribs 21/3c higher.

KNOWLEDGE

Brings comfort and improvement and

WEATHER CROP BULLETIN. For the Week Ending Monday, June 4, 1894.

CENTRAL OFFICE, RALEIGH, N. C. -The reports of correspondents of the Weekly Weather Crop Bulletin. issued by the North Carolina State Weather Service, for the week endng Monday, June 4th, 1894, indicate continued unfavorable weather. The nights have been very cool and frost occurred June 1st in the Western and Central Districts. Although the damage by frost has been slight the growth of crops has been check-

ed and some cotton killed. EASTERN DISTRICT.—Cool weather continued until the last two days of the week. Much complaint of cool nights. Friday morning almost cool enough for frost in bottoms; one correspondent reports light frost. Plenty of rain everywhere, which benefited crops greatly, notwithstanding the cool nights. Cotton and corn generally in very good condition. Hail on the 28th May did more or less damage in northeastern counties; reported quite severe in southern part of Nash. Irish potato yield is much reduced by the recent drought and by bugs. A large acreage of sweet potatoes is reported, Some report rust on wheat; a few have begun harvesting wheat. Rains reported: Nashville, 1.50 inches; Slanesville, 4.75; Gatesville, 0.90; Columbia, 3.34; Spring Hope 1.00; Rocky Point, 2.00; Floral College, 1.02; Teachey's, 1.55; Pantego, 2.50; Mt. Olive, 1.75; Wilmington, 1.21; Currituck, 5.00; Armour, 1.10; Robersonville, 1.00; Goldsboro, 0.84; Lumberton, 0.08; Newbern, 2.52;

Weldon, 0.39. CENTRAL DISTRICT .- The weather has been unfavorable in this district and crops show very little sign of improvement. The nights have been too cool, and frost occurred June 1st in the northern and central counties of the district, but with only slight damage. The rain-tall has been badly distributed; a few stations had excessive rains, especially in Johnston county. Hail occurred at a number of places, with some damage. Rain is needed in conjunction with warmer weather. Wheat and oat harvest under way. Tobacco planting about done; plants are starting off slowly, and some are being injured by worms. Large acreage of sweet potatoes being set out. Corn is troubled with drill worms in bottom lands. Crops are generally clean and well worked. Blackberry crop will be good. Rains reported: Selma, 2.39 inches; Henderson, 0.79; Auburn, 1.61; Hurdle Mills, 2.75; Saxon, 0.30; Erie Mills, 0.22; Rural Hall, 0.45; Greensboro, 0.78; Raleigh, 0.54.

H. B. BATTLE, PH. D., Director. - There is no excuse for your being short of good reading this Summer, when you can get the very best novels at from four to five cents each.

GOV, TILLMAN

Says He is in the Race for Senator Butler's Seat in Congress.

Read the STAR'S coupon offer.

WASHINGTON. June 6 .- A special to the Post, from Winston, N. C., says: Governor Tillman, of South Carolina, was interviewed here this evening on his return from New York. He said that dispensaries and high license will be the issue in the Fall campaign in South Carolina. The question will be settled by Democratic primaries in August. "I will not be a candidate for Governor, but will be in the race for Senator Butler's seat," said the Governor, "and I expect to win."

The Ohio Republican Convention unanimously re-nominated S M. Taylor, of Champagne, for Secretary of State; John A. Schauk, of Dayton, nominated on third ballot for Supreme Court Judge, defeating the present incumbent, Chief Justice F. J. Dickman. The American Sagar Company has

declared a quarterly dividend of three per cent. on the common, and 11/2 per cent on the preferred stock. The company has also declared a semi-annual dividend of 31/2 per cent. on that portion of the stock which is entitled to semi-annual dividends.

245 bales. The reader of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Ca sarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly on the blood and mucous surfaces of the system, and thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curarive powers that they offer One Hundred Dollars for any case that it falls to cure. Send for list of testimonials.
