

selves on this eminent Republican endorsement of one of their measures. The endorsement is somewhat belated, for the Populist who spraug that measure in Congress four or five years ago got considerable start of Mr. Gary, but it is an endorsement nevertheless. If the Republican party coatinues to hold its grip the Populists may yet find it stealing their Government ownership of rail roads and sub treasuries, the latter of which the postal savings bank scheme is a movement in the direction of.

If the Government is to play the paternal role of running a banking department in the interest of people who lack confidence in the savings banks of their localities, why not run the railroads in the interest of the people who clamor against the extortion of the railroad companies, and why not run sub-treasuries in the interest of money borrowers who protest against the interest the banks charge for the use of their money? The reasons assigned for establishing postal savings banks are as good and logical for any other paternalistic measure yet proposed. The only difference in the matter of the rail roads and telegraphs is that it would cost some money to buy them, but that wouldn't matter so much, for all the Government would have to do, following the plan of those who favor such ownership, would be to start the Government presses to running and print notes enough to pay for them. As for the sub-treasuries there isn't practically any difference at all. In as much as Postmaster General Gary has gone so far to meet the Populists it would be quite unkind in them not to support his scheme, which was originally their scheme, when it is proposed in Congress.

In the meantime, however, the scheme is being pretty well ventilated by the independent non-partisan press, one of which, the New York Journal of Commerce and Commercial Bulletin, thus pricks Mr. Gary's bubble and lets the stuffing out:

"The prime reason urged by him for the establishment of postal savings banks is that 'many millions of dollars undoubtedly are secreted by persons who have little or no confidence in the ord: nary securities and monetary institutions organized by private citizios.' We cannot prove that that isn't true, but neither can Mr. Giry prove that it is. There are persons who hoard money because they do not trust banks and bonds, and we know of no reason for supposing that this class is large, and still less reason to suppose that it would put its trust in the postoffice. It may occur to some one that these hoards possibly contain the invisible stock of gold in this country, but

where they are in operation, although for manifest reasons they are better adapted to those countries than to ours. There the money is used in reducing the national debts which are never expected nor intended to be paid in full, and here, perhaps, it would be invested in the same way until the national debt is wiped out, but by that time the money taken in by these postal banks would become so large in the aggregate that it would make a very large national debt due the depositors, so that there had sat in.

would still be a national, the only difference being that it would be held by a different class of holders-small holders instead of large ones. From the showing here made by the able journal from which we quote, there is nothing in the scheme to commend it to this country, and nothing to excite much eathusiasm in any country.

SLANDEROUS BUTLER.

Marion Butler, who in the inscrutable dispensations with which Providence sometimes inflicts people, holds a seat as a United States Senator from this State, in a speech made at Rocky Mount, achieved the notoriety of being the champion slanderer of the majority of the white men of his State. The Rocky-Maunt Argonant, a very conservatively edited paper, quoted him as saying:

This ought to settle the accuracy of that extract and fasten the slander on the slanderer, who may try to wriggle out of it by evasions, which amount to nothing when confronted by such positive testimony as quoted above. And that's the thing which

the whirligig of politics has floated to the surface and which the combination of spoils hunters has sent to the Senate of the United States to worm around in a chair which men

PLEASURE YACHT REPUBLIC

Towed Into Wilmington in a Dismantles

The pleasure wacht Republic, owned by Mr. George Matthews, of New York, and bound from Mobile, Ala., to New London, Conn., was towed up to the city yesterday in a dismantled condition. Capt. Randlette's account of the vessel's mishap is a very thrilling one.

The Republic sailed from Mobile on the 8th, and met fair winds until she reached the straits of Florida, where she lost her forestays in a severe gale of lican organs on the other side of the wind. Alter necessary repairs she kept line attributed the small trade in the her course without further trouble South to the yellow fever, ignoring until 4 o'clock on the morning of the 16th, when she found herself off Frying Pan shoals in the teeth of a strong northerly gale which carried away both bobstays. The young white man killed Friday morning by a freight train on the W., C. & A. railroad, near the eight mile post, or what is known as "Susie curve," and being unknown at that time was interred a few hours later not far from the scene of the sad accident, turned out vesterday to be Mr. J. Dallie Mc-Duffie, of this city. Among those who visited the scene of the accident Friday morning, being transported to and from there on a special train, was Dr. D W. Bulluck, who

examined the body of the unknown man, and when he returned to the city brought with him a portion of the clothing of the deceased and a ring, made out of a horse-shoe nail, found on one of the fingers, to be used. if possible, in identifying the body. A wise act it was, for vesterday morning Mrs. John Williams, who resides on McRae street, between Grace and Walnut, visited the office of Dr. Bulluck and identified the clothing and ring as that which her brother, Mr. Dallie McDuffie, wore when he left home Thursday night. Upon the identification of the cloth-

ing and ring Mr. Ed. Borden, Superintendent of Transportation of the Atlantic Coast Line, sent a special train, in charge of Capt. Bob Branch, yardmaster, and with Mrs. Williams and Mr. Heary Bishop, sister and half

brother respectively of Mr. McDaffie, on board, to the spot where the interment had taken place and the body was exhumed and at once recognized by Mrs. Williams and Mr. Bishop as that of young McDuffie. In all cases of nervous prostration nervous indigestion, neuralgia, sleepless ness, hysteria or incessant headache, the objective point of a true remedy like Paine's celery compound is to make more blood, gather flesh and increase the number of red, health-giving cornuscles in the blood.

Paine's celery compound fills the vessels with red blood, drives out the daugerous humors and thus gives relief to a host of aches, pains and weaknesses. Women and men who have lost flesh and grown colorless and are subject to aches and pains, gain quickly in health from Paine's celery compound. There is bardly a family of any size where there is not some member who is feeble, forever tired and below the standard of health to whom Paine's celery compound would prove of invaluable help. Not only does this great invigorator drive out the aches and distresses that have accumulated because of neglected theumatism or neuralgia, but the liberal gain in flesh and blood that is always a noticeable and encouraging result of its use, brings about better health in the digestive, assimilative and secretive organs; in other words, all over the body

VESSELS IN COLLISION. Norwegian Barque Vara Sank-American Schooner Chas. H. Sprague Damaged-No Lives Lost.

The Norwegian barque Vasa, which sailed from Wilmington last Monday for Manchester, Eag., with a cargo of rosin, collided with the schooser Chas. H. Sprague, Georgetown to Boston, about 9 miles from Frying Pan Lightship Wednesday at 12.15 p.m. and sustained damages from which she sank during Wednesday night. The Sprague lost her riggicg, but otherwise was not damaged. Captain Terjesen, of the Vasa, and Captain Harper, of the Sprague, were both up to the city yesterday, but were unwilling to talk about the accident, The Sprague it is claimed, had the right of way as she was moving on a starboard track, and it is further claimed that the Vasa would not respond to the rudder, otherwise she would have escaped disaster. Both captains filed their protests yesterday.. Capt. Terjeson with the Norwegian Consul, Mr. Alex 5 Heide, and Capt. Harper with Mr. W. N. Harriss, Notary Public. The tug Blanche of the Cape Fear Towing and Transportation Company went yesterday to try to find the Vasa.
