ANOTHER VESSEL LOST TO SPAIN. The Torpedo-Boat Destroyer Blown Up in the Straits of Gibraltar. A FORMIDABLE EXPEDITION. To be Dispatched by Spain to the Philippine Islands—Large Squadron at Cadiz Ready to Sail—Serious Riots in Spanish Towns.

By Cable to the Morning Star. LONDON, May 11.—A special dispatch from Madrid says it is officially declared that the government of Spain has no intention of allowing Rear Admiral Dewey to rest upon his laurels. About forty thousand men of the reserves of the Spanish army have been ordered to rejoin the colors, and it is added that a formidable expedition is being organized for dispatch to the Philippine islands.

ARRIVED AT KEY WEST. The Ambulance Ship Solace, With Surgeons, Nurses and Every Applicable for the Wounded. By Telegram to the Morning Star. Key West, Fla., May 11.—The ambulance ship Solace having on board four surgeons, eight nurses, the finest surgical appliances and accommodations for one hundred wounded, has arrived here from Hampton Roads. The Solace was approved this morning, under hurry orders, and Commander Dunlap has already reported to the commandant that he is ready to move as soon as an emergency arises.

Whoooping Cough. I had a little boy who was nearly dead from whooping cough. My neighbors recommended Chamberlain's Cough Remedy. I did not think that any medicine would help him, but after giving him a few bottles, he was cured. It is the best cough medicine I ever had in the house.—J. L. Moore, South Boston, Mass. For sale by R. B. Bellamy, Druggist.

FIRE IN PHILADELPHIA. Three Lives Lost and Property Valued at \$255,000 Destroyed. By Telegram to the Morning Star. PHILADELPHIA, May 11.—Three persons were burned to death and property amounting to \$255,000 destroyed in the fire which originated to-day in the city of Philadelphia, according to McCadden Brothers, wholesale dealers in toys and fireworks, 619 Market street. The dead are: William McCadden, a member of Mrs. Charles Richardson's family; Miss Ely; and Caldwell, stenographer and typewriter. The building was completely gutted, but the adjoining property was saved by the good work of the firemen, although the loss was considerably damaged. The loss is covered by insurance.

Discovered by a Woman. Another great discovery has been made, and that too, by a lady in this country. "Disease fastened its clutches upon her and for seven years she was in the severest form of Catarrh of the bladder, and her organs were undermined and death seemed imminent. For three months she coughed incessantly, and could not sleep. She finally discovered a way to recovery, by purchasing of a bottle of Dr. King's New Discovery for Consumption, and was so much relieved on taking first dose, that she went all night, and with two bottles, she was absolutely cured. Her name is Mrs. Luther Lutz." This writes W. C. Hamrick & Co., of Shelby, N. C. Trial bottles free at R. B. Bellamy's Drug Store, Wilmington, N. C., and \$1.00. Every bottle guaranteed.

C., corner of Front and Market streets.

AMMUNITION FOR DEWEY'S FLEET.

Cruiser Charleston Ordered to Start at Once from San Francisco for Manila. WILL TAKE A FEW TROOPS.

The City of Pekin and Other Ships with Supplies, and Reinforcements Will Soon Follow the Charleston. A Two Weeks Trip. By Telegram to the Morning Star. WASHINGTON, May 11.—The Navy Department has decided to send the cruiser Charleston to start at once on its relief mission to Admiral Dewey's fleet at Manila. The orders issued anticipate the departure of the Charleston from San Francisco to-day, if it is possible to get the ammunition and stores aboard, and she will leave without waiting to convey the City of Pekin and other ships loaded with supplies. The orders to the commandant of the navy yard at Mare Island are to put on board the Charleston all the ammunition she will carry so long as her steaming capacity is not impaired. It is estimated that here that at least 150 tons of ammunition can be put on board. By extraordinary efforts on the part of the authorities here, the powder, shot and shells required for the relief expedition have been assembled at San Francisco.

Owing to the hurried departure of the Charleston it is not expected that she will wait for any considerable number of troops, as these will follow later on the other relief ships. She has a crew of about 300 men and this probably will be augmented by a marine guard of a few hundred. The Charleston is a protected cruiser of 3,730 tons displacement, built of steel and mounts eight guns in her main battery. She has a twin screw and an indicated horse-power of 6066. The authorities here hardly expect her to make more than thirteen knots with her heavy stock of coal, ammunition and stores. Her speed, however, is rather low, so that she will probably have to stop at Honolulu to re-coal. Her trip to Manila will take about two weeks, the City of Pekin, which will follow her, a very fast merchantman, capable of being pushed to eighteen knots or more, so that even with the handicap she has of starting several days after the Charleston there is no doubt that she will overtake her in the race across the Pacific and reach Manila first. This will depend, however, on how soon the City of Pekin can be started on her voyage. Saturday is the earliest date mentioned.

VALLEJO, CAL., May 11.—Orders have been received from Washington for the cruiser Charleston to proceed immediately to Manila, with the exception of the transport fleet. No actual date was set for the sailing of the Charleston, but she will probably leave for the Philippines either to-morrow or Friday.

Admiral Sampson. It has been suggested that some of the troops now being hurried to the Gulf coast may be intended to cooperate with Admiral Sampson in the reduction of the fortifications at San Juan de Porto Rico and the subsequent occupation of the island. It is felt that the admiral will be in a rather disagreeable plight, if he is obliged to remain in occupation of the place, for lack of troops, and might prefer to be in Manila, where, for lack of troops, he is unable to occupy the island and prevent atrocities, which the insurgents are capable of working upon their helpless Spanish foes.

The Navy Department. During the past month the bureau of construction and repair of the Navy Department spent one million and a quarter dollars in the repair and outfitting of ships, and none of this was expended on new construction. This is said to be largest expenditure in this particular line made by the equipment bureau, even during the days of the civil war. The Navy Department is expected to decline the offer made by some wealthy New York gentlemen headed by O. H. P. Belmont to build and equip a torpedo boat for the use of the government during the war. Possibly the declination was brought about through the condition attached to the offer that the boat should be built in the United States, while the gentleman the naval officials have been obliged to decline to establish the precedent of appointing civilians to command ships.

MOVEMENT FOR CUBAN INVASION.

A Concerted Effort All Along the Line to Begin Aggressive Operations. SPAIN'S CAPE VERDE FLEET.

The Navy Department Has Strong Doubts as to the Report That It Has Returned to Cadiz—Is Without Advice from Sampson. By Telegram to the Morning Star. WASHINGTON, May 11.—The army movement on Cuba is now fairly launched and to-day's news develops a concerted effort all along the line to begin aggressive operations on a big scale for the ejection of the Spanish troops and government from the Pearl of the Antilles. An order given this afternoon by the War Department for the purchase of 5,000,000 rations is an earnest of the scale on which preparations are being made for the invasion of Spain's territory. Of this vast quantity one-fourth is to go to the Philippines, by way of San Francisco, and the balance to Cuba.

Contrary to expectations the day passed at the Navy Department without news from Admiral Sampson. Notwithstanding what appears to be confirmatory newspaper advices relative to the presence of the Spanish Cape Verde fleet at Cadiz, the Navy Department is beginning to entertain strong doubts of the accuracy of the report. It was not possible anything like an official confirmation of the official report received today, but this is not to be wondered at in view of the success with which the Spanish government has so far met, in keeping secret, movements of its naval ships. Until news comes from Admiral Sampson of his doings in and around Porto Rico, it cannot be said definitely what programme will be decided on as regards that island.

Further Litigation Likely to Ensnare in the U. S. Court. Baltimore Sun: Further litigation, it is said, will likely ensue in the case of the Cape Fear and Yadkin Valley Railroad. The decision rendered last week, in which the claim made by the Baltimore reorganization committee that the property should be sold as an entirety was upheld by the United States Circuit Court of Appeals was generally thought to have ended the litigation.

THE ELECTION OF SENATORS.

Resolution Providing for Amendment to the Constitution Adopted by the House. RAILWAY ARBITRATION BILL.

Discussed in the Senate—Resolution for Securing Cooling Stations Adopted. House Refused to Concur in Post-office Appropriations. By Telegram to the Morning Star. WASHINGTON, May 11.—For more than three hours this afternoon the Senate discussed what is known as the Railway Arbitration bill—a measure designed to adjust, by means of voluntary arbitration, differences that may arise between railroad officials and their employees. Mr. Kyle, Republican, of South Dakota, in charge of the bill, offered a number of amendments which were agreed to.

House of Representatives. After refusing to-day to consider the Senate bill restricting immigration, the House took up and discussed the House resolution to submit to the States a proposition to amend the constitution so as to provide for the election of Senators by a direct vote. The amendment proposed in the resolution, as reported to the House, left it to the discretion of the States to elect their Senators by direct vote or through their legislatures, but an amendment was adopted, which, Alabama, making selection by popular vote mandatory was adopted, and the resolution was then passed.
