For several days there has been considerable trouble among the officials of the City Hospital, and the affair has culminated in a formal demand on the part of the Board of Managers for the resignation of Dr. R. E. Zacharv. Resident Physician and Steward. And this afternoon at 2 o'clock is the limit fixed for him to leave the institution which he has thus far refused to do.

The trouble seems to have grown out of a clash of authority between Dr. C. P. Wertenbaker, medical superintendent, who assumed control October 1st and by order of the Board of Managers superceded the resident physician in authority, Dr. Zachary, who has held the latter position since July of 1897. He obtained the position by competitive examination, and claims that he is employed for two years; hence his refusal to retire from the institution at the bidding of Dr. Wertenbaker and the Board of Managers.

Dr. Wertenbacher who is in charge of the Marine Hospital, took only temporary charge of the City Hospital at the request of the Board of Managers to establish the marine system in the management of the institution and subsequently Dr. J. D. Fife, of Virginia, was appointed assistant superintendent, a position over Dr. Zachary who had, barring Dr. Wertenbaker's temporary superintendency, been supreme in authority.

There were frequent clashes between the superintendents and Dr. Zschary, which Dr. Wertenbaker brought to the attention of the Board of Managers and Board of Regents. Both organizations endorsed the atti tude of Dr. Wertenbaker, and on November 22d passed a resolution re questing Dr. Zachary to resign on or before November 30th. He refused to do so, and on Monday night the Board' passed an order that if Dr. Zachary does not vacate the hospital by 2 P. M. to day the Mayor be instructed to send officers and eject him

The following letters furnished the STAR by the chairman of the Board of Managers of the hospital show clear y the attitude of both the Board of Managers and Board of Regents, to-

Third Class Whites. A Washington special to the Balti-

more Sun says: Rev. James L. White, a prominent

colored clergyman, to night addressed a large gathering of colored people at Shiloh Baptist Church on the recent riots in the Carolinas. His views were in direct opposition to those expressed at other colored meetings held in this city and excited much comment. He held that the people engaged in in-citing the negroes were Republicans; that all Southern Republicans not col-ored men were "third class whites," and that political wars between the weeks and the whites will continue as one as colored men are willing to be led by the white men indicated.

By Telegraph to the Morning Star Macon, November 29.—Rumor has been rife in the city to-night that the negro soldiers of the Third North Carolina regiment, stationed here, iutended to break out of camp and destroy the city, and much uneasiness has been felt both by citizens and

The excitement among the negro soldiers was caused by the shooting of private Will Kempin, of Co. F. Third North Carolina, by W. S. Simmons, proprietor of a saloon. Kempin is thought to be fatally wounded. He went to Simmons' bar and called for a drink. On being told that the bar was for white people only, he was enraged and finally abused a brother of the proprie-tor, who struck him with a bottle. Kempin went away, but shortly after-ward returned with four or five other negro soldiers and started towards young Simmons, calling him a viled hame. W. S. Simmons, seeing his brother in peril, shot Kempin in the breast, The negroes ran off. Simmonsis in jail.

## PEACE TREATY.

U. S. Government Officially Advised of Successful Termination of Negotiations.

WILL BE SIGNED THIS WEEK

Apprehension Felt in Washington As Attitude of Aguinaldo and the Phillopine losurgents-American Force Equal to Emergency.

By Telegraph to the Morning Star. WASHINGTON, Nov. 29.-The govrument has been officially advised of the successful termination of the peace negotiations with Spain. A cablegram to this effect which had been received from Chairman Day was read at to day's cabinet meeting by the secretary of state. By the terms of the treaty, which will be signed during the present week, Spain surrenders to the United States her sovereignty in the Philippines archipelago and Guam island, one of the Ladrone group. In lieu of all claims to indemnity the of Managers.

STAR readers will remember that

Or Wertenbacher who is in charge of

Before returning to the United States our peace commissioners wil secure from the Spanish represents tives, if possible, a proposition for the sale to the United States of Strong Island, one of the Carolina group, some distance east and south of Luzon, for a cable station. Should Spain, however, decline to sell the island for a reasonable sum, the matter will be dropped for the present at least. The possible ession of this island is not involved in the pending treaty and no presure will be brought to bear to induce Spain to part with it. A large part of the time at to-day's cabinet meeting was consumed in th discussion of the new customs tariff which is to be put into operation in al parts of Cuba as soon as the United States takes formal possession.

Aguinaldo's Attitude.

The apprehension which manifeste itself sometime ago over the attitude of Aguinaldo and the insurgents has not entirely disappeared, though the administration believes they will ac cept the situation without any conflict with the United States The matter was discussed at the meeting to day and some of the views expressed ind cated a possibility that the insurgents may yet have to be dealt with. On the whole, however, the President expects that serious trouble with Agui naldo will be avoided, but at the same time has guarded against an outbreak by taking precautionary measures. The American force already in occu pancy of part of the Philippines is regarded as altogether equal to copwith any emergency that may arise The future government of the islands came up incidentally and Secretary Alger made some suggestions as to details of a military government of the islands.

Formulating the Articles.

Paris, Nov. 29.—The secretaries of the two peace commissions, Messrs. Moore and Ojeda, began their joint task of formulating the articles of the peace treaty at 3 o'clock this afternoon as directed by the respective commis-sions at yesterday's conference. This work will be easy and rapid, as to the relinquishment and cessions referred to in the protocol, the terms of which document will be transferred bodily to

The secretaries, moreover, will embody astentative articles, for discussion ou Wednesday, the subjects of the religious freedom of the Caroline Is ands, a naval station for the United States in the same group, cable landing rights at other points within Spain's jurisdiction, the release of the insurrectionist prisoners and the re-vival of the treaties broken by the war. Thus, the commercial and gen eral treaty of 1795 will be revived, to be re-cast later; the treaty of 1834, for the settlement of cartain claims, will be revived; the treaty of 1877, providing for extradition, will be revived; trade mark treaty of 1832 will be revived, in addition to the several

modus vivendi agreements. It is expected that the secretaries will submit the treaty articles at the joint session to-morrow, when all the other points for negotiation will be discussed. Thus the commissioners to-morrow will have before them the entire treaty for amendment, approval

Qu all the points outside of the pro tocol there will be friendly negotia-tion only, Spain having the right to name the prices she wants for her territory and to accept or reject the Americans' offer. The Spaniards, no less than the Americans, now are anxious to conclude the business which brought

The Release of Prisoners.

As the result of the work of Mr. Moore and Senor Ojeda, the draft of the articles embodying the protocol agreements was completed this even-ing. It will be presented to the two commissions to morrow; in the morning, at their separate sessions and in the afternoon at the joint session, when it will receive final consideration. There will be little delay on these articles.

Mr. Moore will also submit to-morrow to the United States commissioners the subjects to be pre-sented to the Spaniards for ne-These, for convenince, and great dispatch, are being drafted into the form of articles. The release of the insurgent prisoners held by Spain will go into the protocol agreements, it having been already agreed that Spain is to release them upon the United States undertaking to secure the release of Spanish pris-oners in the hands of Aguinaldo. This question is so intimately related to the peace treaty that it has been removed from the subjects that are matters of egotiation, and has been embodied in the articles containing the protocol

agreements. Paris, November 29 -The Temps cans have negotiated on the principle to take it or leave it and have covered their claims by a sort of satiety." The Temps also says; "If the triumph, to eall it so, is complete, may it not contain grave elements of danger and

anxiety to the Americans?" LONDON, Nov. 30 .- The Madrid correspondent of the Daily Mail says: Senor Sagasta asserts that if the United States insists upon Spain paying the Cuban and Philippine debts, she will honor her signature to the extent of her resources, and that the government will not refuse to accept this burden.

RACE QUESTION IN ILLINOIS.

Circuit Court Decision Against Colored People Who Protested Against Separate Schools.

By Telegraph to the Morning Star. Sr. Louis, November 29. -The celebrated Alton school case was to day decided by a jury in the Circuit Court at Edwardsville, Illinois, against the

colored people who had protested against separate schools.

Recently, because of a new order issued by the school authorities of Illinois, white and negro children were assigned to different public schools. The colored people resented this and refused to send their children to school. Finally Scott Bibbs, a colored man whose children had been attending school, brought mandamus proceedings in the Supreme Court of Illinois against the mayor and the school board of the town of Alten to compel them to admit his children to Washington school, assigned to white children, which is nearest and the most convenient to his place of residence. He claimed that colored children were discriminated against. dren were discriminated against. When the case came to trial in Madison County Circuit Court, to which it had been referred, the defence contended that the colored children in Alton have the same opportunity for securing an education as the whites and that no discrimination had been practiced. The case will now go to the Supreme Court.

Senator Pritchard and Other Republi cans Will Urge Repressive Legislation by Congress.

[Special to the Baltimore Sun.] WASHINGTON, November 29.-As already intimated, it is not improbable the President may, in his message to Congress next Monday, refer to the recent election riots in North and South Carolina and perhaps make some recommendation in the matter. Even if this does not prove to be the case, the subj-ct will be brought up in the Senate, it is said, by Senator Pritchard, of North Carolina, who will ask for the appointment of a specia committee to investigate the riots in his State and recommend such legislation as may tend to prevent a recur-rence. President McKinley, while a member of the House, voted for the force bill, which gives ground for the belief that he would favor the enactment of a measure drafted on similar

Senator Lodge, of Massachusetts, author of the force bill, called on Mr. McKinley yesterday and to-day, and, it is said, brought this matter to his attention. Senator Chandler, who was one of the advocates of the Lodge bill, said to day he had discovered no reason why he should change his attitude, but has found additional reas-

ons for maintaining it. No one expects any Federal election law to be enacted at this session, but be accomplished by the advocates of such legislation. Not with standing the frantic efforts of political fanatics, it may well be considered doubtful whether success will attend the renewed efforts to fasten this repressive legislation upon the South. Evidence is entirely lacking that any healthy sentiment in the North is behind it.

By Telegraphito the Morning Star HAVANA, Nov. 30 .- The Spanish Blanco, the former Captain General of Cuba and his suite on board, left this port at 1 A. M. to day. The departure of Marshal Blanco was not accompanied by the pomp and ceremony marking similar events in pre-vious years. An affectionate farewell took place on the wharf between Marshal Blanco and a number of his old friends, and he warmly embraced General Ruberter, his old com in arms and trusted friend. Only personal friends and a few officers accompanied General Blanco, none of the rowds usual on such occasions waiting to see him for the last time. A body of troops, however, to do military honors to the fermer captain general, was present. As soon as Marshal Blanco arrived on board the Villaverde, the vessel weighed anchor.

A CARLIST RISING.

The Greatest Existing Danger to Spain 140,000 Troops Ready to Take the Field to Suppress a Revolt.

By Cable to the Morning Star.

LONDON, December 1.—The Biarritz correspondent of the Daily Mail says: 'Senor Sagasta, who has hitherto been sceptical on the point, now admits that Carlism is the greatest existing danger to Spain. The authorities are seriously alarmed at the indications of a rising. The Carlist plans have been elat orately devised, even to the extent of appointing a governor of Madrid. The Madrid correspondent of the

Daily Mail says: "Lieut. Gen. Correa, Minister of War, declares that the government has 140,000 troops in readiness to take the field in the event of a Carlist much preliminary work is expected to rising and will soon have 200,000 available. He says, however, he does not believe that the Carlists intend to

move yet. "Four hundred guns which were being slugged have been seized at a Basque village.
"Don Carlos, in his forthcomin nanifesto, will make a strong appea to the army. The Carlists dis among themselves as to the advisa-

bility of an immediate movement." The Rome correspondent of the Daily Mail says the Pope has been so much impressed by the alarm express ed by the papal nuncio at Madrid of the possibility of a civil war, that with the consent of the queen regent and with a view of avoiding bloodshed he has opened negotiations with Don Carlos, proposing that Don Jaime, the pretender's son, should marry Princess Mary, of Austria.

Object of the Meeting of Railway Brother hoods Now in Progress at Norfolk. Special to Baltimore Sun.

NORFOLK, November 29.-The real object of the union meeting of all the railway train service organizations held here to night was not made known until Frank P. Chief Engineer P. M. master Tolbert. By Telegraph to the Morning Star. COLUMBIA, S. C., Nov. 30 -In the United States District Court here today, upon indictment handed out by District Attorney Lathrop, the grand jury returned true bills against nine well known citizens of McCormick, S. C., upon the charge of conspiracy, the off-nce being the driving away from that town at the time of the recent Phoenix trouble of J. W. Tolpert, the husband and assistant of the post-mistress. There are several counts in each indictment, all being brought under sections 5508 and 5518, United States statutes. Bench war-rants have been issued and Marshal Clayton dispatched to McCormick for

the trial at the present term of court

the defendants. It is proposed to have

\$100 Reward, \$100. The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of Testimonials.
