r for a compulsory vaccination ordinance:

"Resolved, That it is the sense of the Raleigh Academy of Medicine that an ordinance ordering compulsory vagcination of all citizens not furnishing satisfactory evidence of successful vaccination (within two years) or a certilicate from the family physician that the condition of the person clearly forbids it, should be passed at once by the board of aldermen and enforced.

"Resolved. That the Board County Commissioners be requested to take similar action, with regard to the territory extending in a radius of three miles from the city limits."

It will be remembered that the City Board of Health and the City Superintendent of Health some two weeks members. ago urged compulsory vaccination. The recommendation has not, how ever, been carried into effect and the disease has continued to spread in spite of the incomplete vaccination instituted on the voluntary basis.

Mr. Schurman, the President the United States Philippine Commission, expresses the opinion that the interviews accorded by General Otis to the Filipino envoys will have a good moral effect, as tending to convince Aguinaldo's representatives that the American authorities mean to give the Filipinos a good government and not one of the Spanish sort. The cavalry opened ire, but there was no response. Thinking that the rebels wanted to surrender, Lieutenant Bell went forward to parley with them, The Filipinos replied

that they did not wish to surrender. but that' they had been ordered to refrain. from fighiing during the ne-gotiations. They asked what Lieutenant Bell wanted, and in reply were given half an hour in which to retire which they improved.

A Spanish prisoner who escaped into the American lines reports that after General Hale's advance on Quintwo hundred Filipinos were zan, buried, thirty-five in one trench and a sanguinary conflict is said to be intwenty-seven in another. This is the evitable if non-uhion men are imlargest number of rebels that have been killed in any engagement for several months.
