CALLED BY THE PRESIDENT.

Rumored That He Was Tendered Office of Secretary of War - Protests That the President's Purpose Was Merely for Consultation.

By Telegraph to the Morning Star. WASHINGTON, July 8,-Goy. Theodore Roosevelt, of Nsw York, is tonight the guest of the President at the White House. He arrived here this afternoon from Oyster Bay, in response to a telegraphic request from President McKinley to come to Wash ington for a consultation.

Governor Roosevelt was met at the depot by the President's secretary, Mr Cortelyou, and driven direct to the White House, where he was received by the President. There was a short conference between the two distinguished men before dinner, Afierwards, together with Secretary Hay. Secretary Long, Attorney General Griggs and General Corbin, they sat upon the western veranda of the executive mansion for a longer consultation

His visit set afloat various rumors, among them that he had been called here to be tendered office as Secretary of War, to be given command of a brigade in the Philippines and to designate an entire regiment for service there. He declined to discuss these, protesting that the President's purpose was merely to consult him regarding the organization of the new volunteer army, especially the personnel of the

Laughed at the Question, He was asked in so many words whether the President had tendered

him the secretaryship. He replied to this question only with a laugh. The Governor's best friends in Washington say that, regardless of the facts as to the President's tender or failure to make one, the Governor would much prefer his present position as chief executive of the Empire State to a fractional term in the War Department, and his treatment of the question to-night renders this theory as to his attitude most plausible. Governor Roosevelt dictated the fol lowing interview to the Associated

"The President has told me that he wishes only recommendations based upon the efficiency of the men recommended, and that he will pay heed to no others.

The President's Attitude

in the matter in the face of the terrific political pressure to which he is and will be subjected is such as to entitle him to the support of all men who feel that politics have no place in the army, who feel that it is in a peculiar sense the property of the whole country, and that in the giving of commissions and promotions alike, absolutely no consideration should enter outside o the merit of the men as soldiers.

"My own recommendations will limited to the men I had under me, or saw in action, and to the members of the New York volunteer regiments, of whose merits I have, as Governor, not merely official knowledge, but also the knowledge gained from personal inquiry among their superiors.

Referring to the general situation in the Philippines and the policy of the administration with reference to those islands, Governor Roosevelt said:

Philippines Situation.

"Of course, any American worthy of the name must stand behind the President in his resolute purpose to bring the insurrection in the Philippines to an end. I have no question that by the beginning of the dry season General Otis will be in shape to stamp out all resistance. Then the President can and will see that the reign of absolute law and justice follows. I cannot be too clearly kept in mind that the whole trouble is due to the men who, for two months, prevented the ratification of the treaty of peace and to those who declined to give the President the troops he needed upon the terms he asked. Those who took part in the first movement to oppose the treaty have on their souls the guilt of most of the bloodshed both of our own troops and that of the natives of the Philippines; and the would-be traitors who have since been encouraging Aguinaldo and his followers to the limit of their small capacity share the guilt so far as their feeble powers permit. Those who opposed giving us the forces we needed thereby showed themselves the enemies of their country and of the flag. Every man who so voted in the Senate may have the satisfaction of know ing that he has done all that he could to bring discredit on the flag and disgrace upon our arms. It is all the more to the credit of the administration that it has steadfastly pursued the path of national honor, and steadfastly upheld the interests and the good name of the nation as a whole, in spite of the way it has been hampered by those who sought to betray the na-tion. We have a right to demand the support of every true American for the administration's policy in the Pnilippines, and every American who is far-sighted and patriotic should join in denouncing alike the men who strive to give aid and comfort to the foes not only of America but of civilization in the Philippines, and also those other men who would prevent our army's being equal to the national

It was stated that they had gone over the situation in the Philippines in all its aspects, not only taking up the question from a military point of view, but also considering its diplomotic and legal bearings. The President evi-denced a determination to adhere to his plan of sending only experienced and capable officers to the Pacific islands without regard to political influence or personal favor and made it plain that he meant to give the subject his own personal attention until the end should be reached.

NEW VOLUNTEER REGIMENTS Bach Colonel to Send Out Recruiting Officers for His Regiment-Will Begin This Week.

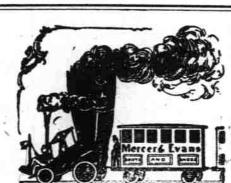

By Telegraph te the Merning Star. WASHINGTON, July 8.—The details for the recruiting of the volunteer regiments are being arranged by the colonels of the regiments and officers of the War Department. The recruit-ing will be conducted so that the new men may be organized into companies and made into soldiers very soon Each colonel is chief recruiting officer for his regiment. He will first send a non-commissioned officer to the differ ent towns in his district, where re-cruiting stations are to be established, to post notices and advertise the date of the coming recruiting party. There will be several of these non-commissioned officers and several recruiting parties, so that the entire district will be covered. As soon as a squad is enlisted at any one place it will be sent at once to the regimental headquarters, where drilling will begin and company formation proceeded with. Most of the officers for the different regiments probably will be commissioned and ready for service before the enlisted men begin to arrive. The authorities believe that the regiments will soon be raised; that there are about enough men already raised to fill all quotas in the regular army, and that the quotas will be complete when the recruiting for the new regiments begins next week. In addition to the recruiting parties which will be sent out by the regimental commanders the stations where recruits are enlisted for the regular army will receive men for

the new regiments. The adjutant general of the army to night gave out the following: "The Secretary of War to day gave instructions by telegraph confirming the instructions previously given by mail to recruiting officers throughout the country to begin recruiting for the volunteers on Monday. As fast as enlisted the men will be sent under instructions already published to the rendezvous designated for the regi-ments to which they are assigned."
